

Independent Auditor's Report •

To The Members of Wipro Limited Report on the Audit of the Standalone Financial Statements

OPINION

We have audited the accompanying Standalone Financial Statements of Wipro Limited (the "Company"), which comprise the Balance Sheet as at March 31, 2026, and the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of Changes in Equity and the Statement of Cash Flows and for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information (herein after referred to as "the Standalone Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Standalone Financial Statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act, of the state of affairs of the Company as at March 31, 2026, and its profit, other comprehensive loss, the changes in equity and cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Standalone Financial Statements in accordance with the Standards on Auditing ("SA"s) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibility for the Audit of the Standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Standalone Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Standalone Financial Statements.

KEY AUDIT MATTER

Key audit matter is a matter that, in our professional judgment, is of most significance in our audit of the Standalone Financial Statements of the current period. This matter was addressed in the context of our audit of the Standalone Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Revenue from fixed-price contracts using the percentage-of-completion method - Refer Notes 2 (iii)(a), 3(xiii)B(i) and 22 to the financial statements.

Key Audit Matter Description

Revenue from fixed-price contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, is recognized using the percentage-of-completion method.

Use of the percentage-of-completion method requires the Company to determine the project costs incurred to date as a percentage of total estimated project costs at completion. The estimation of total project costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. In addition, provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the total estimated project costs.

We identified the revenue recognition for fixed-price contracts where the percentage-of-completion method is used as a key audit matter because of the significant judgement involved in estimating the efforts to complete such contracts.

This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts incurred to-date and estimates of efforts required to complete the remaining performance obligations.

This required a high degree of auditor judgment in evaluating the audit evidence supporting estimated efforts to complete and a higher extent of audit effort to evaluate the reasonableness of the total estimated efforts used to recognise revenue from fixed-price contracts using the percentage-of-completion method.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to estimates of efforts to complete for fixed-price contracts accounted using the percentage-of-completion method included the following, among others:

- We tested the effectiveness of controls relating to (1) recording of efforts incurred and estimation of efforts required to complete the remaining performance obligations, and (2) access and application controls pertaining to time recording and allocation systems, which prevents unauthorised changes to recording of efforts incurred.

- We selected a sample of fixed-price contracts with customers accounted using percentage-of-completion method and performed the following:
 - Read the contract and based on the terms and conditions evaluated whether recognizing revenue over time using percentage-of-completion method was appropriate, and confirmed that the contract was included in management's calculation of revenue over time.
 - Evaluated the appropriateness of and consistency in the application of management's policies and methodologies to estimate progress towards satisfying the performance obligation.
 - Compared efforts incurred to date with Company's estimate of efforts incurred to date to identify significant variations and evaluate whether those variations have been considered appropriately in estimating the remaining efforts to complete the contract.
 - Tested the estimate for consistency with the status of delivery of milestones, customer acceptances and other related information to identify possible delays in achieving milestones, which require changes in estimated efforts to complete the remaining performance obligations.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's report, Business Responsibility and Sustainability Report and Corporate Governance Report, but does not include the Consolidated Financial Statements, Standalone Financial Statements and our auditor's report thereon.
- Our opinion on the Standalone Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

- In connection with our audit of the Standalone Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Standalone Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.
- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE STANDALONE FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Standalone Financial Statements, management and Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intend to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Company's Board of Directors is also responsible for overseeing the Company's financial reporting process.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE STANDALONE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Standalone Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Standalone Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Standalone Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to Standalone Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Standalone Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Standalone Financial Statements, including the disclosures, and whether the Standalone Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Standalone Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Standalone Financial Statements of the current period and are therefore the key audit matters.

We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, Statement of Changes in Equity and the Statement of Cash Flows dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Standalone Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors as on March 31, 2026 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls with reference to Standalone Financial Statements of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the Company's internal financial controls with reference to Standalone Financial Statements.

- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company has disclosed the impact of pending litigations on its financial position in its Standalone Financial Statements - Refer Note 34 to the Standalone Financial Statements;
 - ii. The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 18 to the Standalone Financial Statements;
 - iii. There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company
- iv. (a) The Management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (b) The Management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.
- v. The interim dividends declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.
- vi. Based on our examination, which included test checks, the Company has used accounting software systems for maintaining its books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems.

Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with and the audit trail has been preserved by the Company as per the statutory requirements for record retention.

- 2. As required by the Companies (Auditor's Report) Order, 2020 ("the Order") issued by the Central Government in terms of Section 143(11) of the Act, we give in "Annexure B" a statement on the matters specified in paragraphs 3 and 4 of the Order.

Annexure “A” to The Independent Auditor’s Report •

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (THE “ACT”)

We have audited the internal financial controls with reference to Standalone Financial Statements of Wipro Limited (the “Company”) as at March 31, 2026 in conjunction with our audit of the standalone Ind AS financial statements of the Company for the year ended on that date.

MANAGEMENT’S AND BOARD OF DIRECTORS’ RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The Company’s management and Board of Directors are responsible for establishing and maintaining internal financial controls with reference to Standalone Financial Statements based on the internal control with reference to Standalone Financial Statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Standalone Financial Statements of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Standalone Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Standalone Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Standalone Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Standalone Financial Statements included obtaining an understanding of internal financial controls with reference to Standalone Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to Standalone Financial Statements.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

A company's internal financial control with reference to Standalone Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Standalone Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO STANDALONE FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Standalone Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Standalone Financial Statements to future periods are subject to the risk that the internal financial control with reference to Standalone Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion, to the best of our information and according to the explanations given to us in all material respects, an adequate internal financial controls with reference to Standalone Financial Statements and such internal financial controls with reference to Standalone Financial Statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to Standalone Financial Statements established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Annexure “B” to the Independent Auditor’s Report •

(Referred to in paragraph 2 under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of Wipro Limited of even date)

To the best of our information and according to the explanations provided to us by the Company and the books of account and records examined by us in the normal course of audit, we state that:

- (i) In respect of the Company’s Property, Plant and Equipment and Intangible Assets:
 - (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment and relevant details of right-of-use assets.
 - (B) The Company has maintained proper records showing full particulars of intangible assets.
 - (b) The Company has a program of physical verification of Property, Plant and Equipment and right-of-use assets so to cover all the assets once every three years which, in our opinion, is reasonable having regard to the size of the Company and the nature of its assets. Pursuant to the program, certain Property, Plant and Equipment and right-of-use assets were due for verification during the year and were physically verified by the Management during the year. According to the information and explanations given to us, no material discrepancies were noticed on such verification.
 - (c) Based on the examination of the registered sale deed / transfer deed / conveyance deed / the property tax receipts and lease agreement for land on which building is constructed provided to us, we report that, the title deeds of all the immovable properties (other than immovable properties where the Company is the lessee and the lease agreements are duly executed in favour of the Company) disclosed in the financial statements included in property, plant and equipment are held in the name of the Company as at the balance sheet date.
 - (d) The Company has not revalued any of its Property, Plant and Equipment (including right-of-use assets) and intangible assets during the year.
 - (e) No proceedings have been initiated during the year or are pending against the Company as at March 31, 2026 for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (as amended in 2016) and rules made thereunder.

- (ii) (a) The inventories were physically verified during the year by the Management at reasonable intervals. In our opinion and according to the information and explanations given to us, the coverage and procedure of such verification by the Management is appropriate having regard to the size of the Company and the nature of its operations. No discrepancies of 10% or more in the aggregate for each class of inventories were noticed on such physical verification of inventories when compared with books of account.
- (b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of Rs. 5 crores, in aggregate, at any point of time during the year, from banks or financial institutions on the basis of security of current assets.

Hence, reporting on the quarterly returns or statements filed by the Company with such banks or financial institutions is not applicable to the Company.

- (iii) The Company has neither made any investments in firms and Limited Liability Partnerships nor provided loans or advances in the nature of loans or provided security to any companies, firms, Limited Liability Partnerships or any other parties during the year hence reporting under clause 3 (iii) of the order is not applicable to the Company in respect of the above type of transactions. However, the Company has stood guarantee on behalf of the subsidiaries during the year and details of which are given below.

₹ in million	
Guarantees	
A. Aggregate amount granted/ provided during the year on behalf of subsidiaries	10,887
B. Balance outstanding as at balance sheet date in respect of above cases	10,887

The Company has made investments in companies during the year and our reporting in respect of clause 3 (iii) (b) is as under:

- (b) The investments made, guarantees provided and the terms and conditions of guarantees provided, during the year are, in our opinion, prima facie, not prejudicial to the Company's interest.
- (iv) The Company has complied with the provisions of Sections 185 and 186 of the Companies Act, 2013 in respect of loans granted, investments made and guarantees and securities provided, as applicable.
- (v) The Company has not accepted any deposit or amounts which are deemed to be deposits. Hence, reporting under clause (v) of the Order is not applicable to the Company.
- (vi) The maintenance of cost records has not been specified for the activities of the Company by the Central Government under section 148(1) of the Companies Act, 2013 for the business activities carried out by the Company. Hence reporting under Clause (vi) of the order is not applicable to the Company.
- (vii) In respect of statutory dues:
- (a) In our opinion, undisputed statutory dues, including Goods and Service tax, Provident Fund, Employees' State Insurance, Income-tax, Sales Tax, Service tax, duty of Custom, duty of Excise, Value Added Tax, cess and any other material statutory dues applicable to the Company have generally been regularly deposited by it with the appropriate authorities.

There were no undisputed amounts payable in respect of Goods and Service tax, Provident Fund, Income-tax, Sales Tax, Service Tax, duty of Custom, duty of Excise, Value Added Tax, cess and other material statutory dues in arrears as at March 31, 2026 for a period of more than six months from the date they became payable.

- (b) Details of statutory dues referred to in sub-clause (a) above which have not been deposited as on March 31, 2026 on account of disputes are given below:

The Employees' Provident Funds And Miscellaneous Provisions, ACT, 1952	Provident Fund	High Court	2014-15 to 2020-2021	3,325	3,325

- (viii) There were no transactions relating to previously unrecorded income that were surrendered or disclosed as income in the tax assessments under the Income Tax Act, 1961 (43 of 1961) during the year.
- (ix) (a) In our opinion, the Company has not defaulted in the repayment of loans or other borrowings or in the payment of interest thereon to any lender during the year.
- (b) The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (c) The Company has not taken any term loan during the year and there are no unutilised term loans at the beginning of the year and hence, reporting under clause (ix)(c) of the Order is not applicable to the Company.
- (d) On an overall examination of the financial statements of the Company, funds raised on short-term basis have, prima facie, not been used during the year for long-term purposes by the Company.
- (e) On an overall examination of the financial statements of the Company, the Company has not taken any funds from any entity or person on account of or to meet the obligations of its subsidiaries or associates.
- (f) The Company has not raised any loans during the year on the pledge of securities held in its subsidiaries and hence reporting under clause (ix)(f) of the Order is not applicable to the Company.
- (x) (a) The Company has not raised moneys by way of initial public offer or further public offer (including debt instruments) during the year and hence reporting under clause (x)(a) of the Order is not applicable to the Company.
- (b) During the year the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully or partly or optionally) and hence reporting under clause (x)(b) of the Order is not applicable to the Company.
- (xi) (a) To the best of our knowledge, no fraud by the Company and no material fraud on the Company has been noticed or reported during the year.
- (b) No report under sub-section (12) of section 143 of the Companies Act has been filed in Form ADT-4 as prescribed under rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government, during the year and upto the date of this report.
- (c) We have taken into consideration the whistle blower complaints received by the Company during the year (and upto the date of this report) and provided to us, when performing our audit.
- (xii) The Company is not a Nidhi Company and hence reporting under clause (xii) of the Order is not applicable to the Company.
- (xiii) In our opinion, the Company is in compliance with Section 177 and 188 of the Companies Act, where applicable, for all transactions with the related parties and the details of related party transactions have been disclosed in the financial statements as required by the applicable accounting standards.
- (xiv) (a) In our opinion, the Company has an adequate internal audit system commensurate with the size and the nature of its business.
- (b) We have considered, the internal audit reports provided to us for the year under audit and till date, when performing our audit.
- (xv) In our opinion, during the year the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence provisions of section 192 of the Companies Act, 2013 are not applicable to the Company.
- (xvi) (a) In our opinion, the Company is not required to be registered under section 45-IA of the Reserve Bank of India Act, 1934. Hence, reporting under clause (xvi)(a), (b) and (c) of the Order is not applicable to the Company.
- (b) The Group does not have any Core Investment Company as part of the Group and accordingly reporting under clause (xvi)(d) of the Order is not applicable to the Company.

- (xvii) The Company has not incurred cash losses during the financial year covered by our audit and the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors of the Company during the year.
- (xix) On the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the financial statements and our knowledge of the Board of Directors and Management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report indicating that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) There is no unspent amount towards Corporate Social Responsibility (CSR) on other than ongoing projects requiring a transfer to a Fund specified in Schedule VII to the Companies Act or special account in compliance with the provision of sub-section (6) of section 135 of the said Act. Accordingly, reporting under clause (xx)(a) of the Order is not applicable to the Company.
- (b) In respect of ongoing projects, the Company has transferred unspent Corporate Social Responsibility (CSR) amount, to a Special account before the date of this report and within a period of 30 days from the end of the financial year in compliance with the provision of section 135(6) of the Act.

1. THE COMPANY OVERVIEW

Wipro Limited (“**Wipro**” or “**the Company**” or “**we**” or “**our**” or “**us**”), is a leading artificial intelligence (“**AI**”) powered technology services and consulting company focused on building innovative solutions that address clients’ most complex digital transformation needs. Leveraging our consulting-led approach and the Wipro Intelligence™ unified suite of AI-powered platforms, solutions and transformative offerings, we help clients realise their boldest ambitions to build intelligent and sustainable businesses.

Wipro is a public limited company incorporated and domiciled in India. The address of its registered office is Wipro Limited, Doddakannelli, Sarjapur Road, Bengaluru – 560 035, Karnataka, India. The Company has its primary listing with BSE Ltd. and National Stock Exchange of India Limited. The Company’s American Depository Shares (“**ADS**”) representing equity shares are also listed on the New York Stock Exchange.

The Company’s Board of Directors authorised these standalone financial statements for issue on June 2, 2026.

2. BASIS OF PREPARATION OF STANDALONE FINANCIAL STATEMENTS

(i) Statement of compliance and basis of preparation

The standalone financial statements have been prepared in compliance with Indian Accounting Standards (“**Ind AS**”), the provisions of Schedule III to the Companies Act, 2013 (“**the Companies Act**”), as applicable and guidelines issued by the Securities and Exchange Board of India (“**SEBI**”). The Ind AS are prescribed under Section 133 of the Companies Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter. All accounting policies have been applied consistently to all periods presented in these standalone financial statements, except for the adoption of new accounting standards, amendments and interpretations effective from April 1, 2025.

The standalone financial statements correspond to the classification provisions contained in Ind AS 1, “Presentation of Financial Statements”. For clarity, various items are aggregated in the statement of profit and loss and balance sheet. These items are disaggregated separately in the notes to the standalone financial statements, where applicable.

The assets which are expected to be realised within a period of twelve months from the end of reporting period are classified as current assets. Similarly, the liabilities which are expected to be settled within a period of twelve months from the end of reporting period are classified as current liabilities. All other assets and liabilities are classified as non-current.

All amounts included in the standalone financial statements are reported in millions of Indian Rupees (₹ in millions) except share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures. Previous year figures have been regrouped/rearranged, wherever necessary.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(ii) Basis of measurement

The standalone financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items, which have been measured at fair value as required by relevant Ind AS:

- a) Derivative financial instruments;
- b) Financial instruments classified as fair value through other comprehensive income or fair value through profit or loss;
- c) The defined benefit liability/(asset) is recognised as the present value of defined benefit obligation less fair value of plan assets; and
- d) Contingent consideration.

(iii) Use of estimates and judgement

The preparation of these standalone financial statements in conformity with Ind AS requires the management to make judgements, accounting estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates are monetary amounts in the standalone financial statements that are subject to measurement uncertainty. An accounting policy may require items in standalone financial statements to be measured at monetary amounts that cannot be observed directly and must instead be estimated. In such a case, management develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available and reliable information. Actual results may differ from those accounting estimates.

Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Changes to accounting estimates are recognised in the period in which the estimates are changed and in any future periods affected. In particular, information about material areas of estimation, uncertainty and critical judgements in applying accounting policies that have the material effect on the amounts recognised in the standalone financial statements are included in the following notes:

- a) **Revenue recognition:** The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and is distinct in the context of the contract, if not, the promised product or service is combined and accounted as a single performance obligation. The Company allocates the Transaction Price (as defined below in Note 3(xiii)) to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. In cases where the Company is unable to determine the stand-alone selling price the Company uses expected cost-plus margin approach in estimating the stand-alone selling price. The Company uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable. Volume discounts are recorded as a reduction of revenue. When the amount of discount varies with the levels of revenue, volume discount is recorded based on estimate of future revenue from the customer.
- b) **Impairment testing:** Goodwill recognised on business combination is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of goodwill or a cash generating unit to which goodwill pertains, is less than the carrying value. The Company assesses acquired intangible assets with finite useful

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

life for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount of an asset or a cash generating unit is higher of value in use and fair value less cost of disposal. The calculation of value in use of an asset or a cash generating unit involves use of significant estimates and assumptions which include turnover, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

- c) **Impairment of investment in subsidiaries:** The Company reviews its carrying value of investments carried at cost (net of impairment, if any) annually or more frequently when there is indication for impairment. If the recoverable amount is less than its carrying amount, the impairment loss is accounted for in the statement of profit and loss.

- d) **Income taxes:** The major tax jurisdictions for the Company are India and the United States.

Significant judgements are involved in determining the provision for income taxes including judgement on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of deferred tax assets considered realisable, however, could reduce in the near term if estimates of future taxable income during the carry-forward period are reduced.

- e) **Business combinations:** In accounting for business combinations, judgement is required to assess whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally,

estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities assumed, and contingent consideration assumed involves management judgement. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgements, estimates, and assumptions can materially affect the results of operations.

- f) **Defined benefit plans and compensated absences:** The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.
- g) **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgement in making these assumptions and selecting the inputs to the expected credit loss calculation based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward-looking estimates at the end of each reporting period.
- h) **Useful lives of property, plant and equipment:** The Company depreciates property, plant and equipment on a straight-line basis over estimated useful lives of the assets. The charge in respect of periodic depreciation is derived based on an estimate of an asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The estimated useful life is reviewed at least annually.
- i) **Provisions and contingent liabilities:** The Company estimates the provisions that have present obligations as a result of past events, and it is probable that

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting date and are adjusted to reflect the current best estimates.

The Company uses significant judgement to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

(i) Functional and presentation currency

These standalone financial statements are presented in Indian Rupees, which is the functional currency of the Company.

(ii) Foreign currency transactions and translation

Transactions in foreign currency are translated into the functional currency using the exchange rates prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of profit and loss and reported within foreign exchange gains/(losses), net, within results of operating activities except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges. Net loss relating to translation or settlement of borrowings denominated in foreign currency are reported within finance costs. Net gain relating to translation or settlement of borrowings denominated in foreign currency are reported within Other income. Non-monetary assets and liabilities

denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments measured at fair value through other comprehensive income are included in other comprehensive income, net of taxes.

(iii) Financial instruments

a) Non-derivative financial instruments:

Non derivative financial instruments consist of:

- financial assets, which include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, investments in equity and debt securities and eligible current and non-current assets; and
- financial liabilities, which include borrowings, trade payables, lease liabilities, and eligible current and non-current liabilities.

Non-derivative financial instruments other than trade receivables and unbilled receivables are recognised initially at fair value. However, trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price. Subsequent to initial recognition, non-derivative financial instruments are measured as described below:

A. Cash and cash equivalents

The Company's cash and cash equivalents consist of cash on hand and in banks and demand deposits with banks, which can be withdrawn at any time, without prior notice or penalty on the principal.

For the purposes of the statement of cash flows, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the balance sheet, bank overdrafts are presented under borrowings within current financial liabilities.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

B. Investments

Financial instruments measured at amortised cost:

Debt instruments that meet the following criteria are measured at amortised cost (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI"):

Debt instruments that meet the following criteria are measured at FVTOCI (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Interest income is recognised in statement of profit and loss for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognised in other comprehensive income. When the investment is disposed of, the cumulative gain or loss previously accumulated in reserves is transferred to statement of profit and loss.

Financial instruments measured at fair value through profit or loss ("FVTPL"):

Instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or

losses arising on re-measurement recognised in the statement of profit and loss. The gain or loss on disposal is recognised in the statement of profit and loss.

Interest income is recognised in the statement of profit and loss for FVTPL debt instruments. Dividends on financial assets at FVTPL is recognised when the Company's right to receive dividends is established.

Investments in equity instruments:

The Company carries certain equity instruments which are not held for trading. At initial recognition, the Company may make an irrevocable election to present subsequent changes in the fair value of an investment in an equity instrument in other comprehensive income (FVTOCI) or through statement of profit and loss (FVTPL). For investments designated to be classified as FVTOCI, movements in fair value of investments are recognised in other comprehensive income and the gain or loss is not transferred to statement of profit and loss on disposal of investments. For investments designated to be classified as FVTPL, both movements in fair value of investments and gain or loss on disposal of investments are recognised in the statement of profit and loss.

Dividends from these investments are recognised in the statement of profit and loss when the Company's right to receive dividends is established.

When the investment in equity instruments is derecognised, the cumulative gain or loss in other comprehensive income is transferred to retained earnings.

Investments in subsidiaries:

Investment in equity instruments of subsidiaries are measured at cost less impairment.

Investment in redeemable preference shares of subsidiaries are measured at FVTPL. These investments are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in statement of profit and loss. The gain or loss on disposal is recognised in statement of profit and loss.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

C. Other financial assets

Other financial assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These comprise trade receivables, unbilled receivables, finance lease receivables, employee and other advances and eligible current and non-current assets. They are presented as current assets, except for those expected to be realised later than twelve months after the reporting date which are presented as non-current assets. All financial assets are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any impairment losses. However, trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price.

D. Trade payables and other liabilities

Trade payables and other liabilities are initially recognised at the transaction price, and subsequently carried at amortised cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short-term maturity of these instruments. Contingent consideration recognised in a business combination is initially recognised at fair value and subsequently measured at fair value through profit or loss.

b) Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities, net investment in foreign operations and forecasted cash flows denominated in foreign currency.

The Company limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives. The Company enters into derivative financial instruments where the counterparty is primarily a bank.

Derivative financial instruments are recognised and measured at fair value. Attributable transaction costs are recognised in the statement of profit and loss as cost.

Subsequent to initial recognition, derivative financial instruments are measured as described below:

A. Cash flow hedges

Changes in the fair value of the derivative hedging instruments designated as a cash flow hedge are recognised in other comprehensive income and held in cash flow hedging reserve, net of taxes, a component of equity, to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in the statement of profit and loss and reported within foreign exchange gains/(losses), net, within results from operating activities. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognised in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, such cumulative balance is immediately recognised in the statement of profit and loss.

B. Others

Changes in fair value of foreign currency derivative instruments not designated as cash flow hedges are recognised in the statement of profit and loss and reported within foreign exchange gains/(losses), net, within results from operating activities.

Changes in fair value and gains/(losses), net, on settlement of foreign currency derivative instruments relating to borrowings, which have not been designated as hedges are recorded in finance costs.

c) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

AS 109. If the Company retains substantially all the risks and rewards of a transferred financial asset, the Company continues to recognise the financial asset and recognises a borrowing for the proceeds received. A financial liability (or a part of a financial liability) is derecognised from the Company's balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(iv) Equity and share capital

a) Share capital and securities premium

The authorised share capital of the Company as at March 31, 2026 is ₹ 25,352 divided into 12,543,500,000 equity shares of ₹ 2 each, 25,000,000 preference shares of ₹ 10 each and 150,000, 10% optionally convertible cumulative preference shares of ₹ 100 each. Par value of the equity shares is recorded as share capital and the amount received in excess of par value is classified as securities premium.

Every holder of equity shares, as reflected in the records of the Company as at the date of the shareholder meeting shall have one vote in respect of each share held for all matters submitted to vote in the shareholder meeting.

b) Shares held by controlled trust (Treasury shares)

The Company's equity shares held by the controlled trust, which is consolidated as part of the Company are classified as treasury shares. The Company has 11,905,480 and 11,905,480 treasury shares as at March 31, 2026 and 2025, respectively. Treasury shares are recorded at acquisition cost.

c) Capital Reserve

Capital reserve amounting to ₹ 1,139 and ₹ 1,139 as of March 31, 2026 and 2025, respectively, is not freely available for distribution.

d) Capital Redemption Reserve

As per the Companies Act, 2013, Capital redemption reserve is created when a company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve can

be utilised in accordance with the provisions of Section 69 of the Companies Act, 2013. Capital redemption reserve amounting to ₹ 13 and ₹ 13 as of March 31, 2026 and 2025, respectively, is not freely available for distribution.

e) Retained earnings

Retained earnings is comprised of the Company's undistributed earnings after taxes and is freely available for distribution.

f) Common Control Transactions Capital Reserve

The Common Control Transactions Capital Reserve is on account of merger of certain wholly owned subsidiaries with the Company during the year ended March 31, 2019. As of March 31, 2026 and 2025, this reserve amounting to ₹ 2,473 and ₹ 2,473, respectively, is not freely available for distribution.

g) Share options outstanding account

The Share options outstanding account is used to record the value of equity-settled share-based payment transactions with employees. The amounts recorded in share options outstanding account are transferred to securities premium upon exercise of stock options and restricted stock unit options by employees.

h) Special Economic Zone re-investment reserve

The Special Economic Zone ("SEZ") re-investment reserve has been created out of profit of eligible Special Economic Zone units as per provisions of section 10AA (1)(ii) of the Income-tax Act, 1961 for acquiring new plant and machinery. The said reserve should be utilised by the Company for acquiring plant and machinery as per the terms of Section 10AA(2) of the Income-tax Act, 1961. This reserve is not freely available for distribution.

i) Others

Changes in the fair value of financial instruments (debt or equity) measured at fair value through other comprehensive income is recognised in other comprehensive income, net of taxes and presented within investment in debt instruments measured at fair value through OCI or investment in equity instruments measured at fair value through OCI.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Actuarial gains and losses on remeasurements of the defined benefit plans are recognised in other comprehensive income, net of taxes and presented within equity in remeasurement of the defined benefit plans.

j) Cash flow hedging reserve

Changes in fair value of derivative hedging instruments designated and effective as a cash flow hedge are recognised in other comprehensive income, net of taxes, and presented within equity as cash flow hedging reserve.

k) Foreign currency translation reserve

The exchange differences arising from the translation of financial statements of foreign operations with functional currency other than Indian Rupees is recognised in other comprehensive income, net of taxes and is presented within equity in the FCTR.

l) Dividend

A final dividend on equity shares is recorded as a liability on the date of approval by the shareholders. An interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors.

m) Buyback of equity shares

The buyback of equity shares, including tax thereon and related transaction costs are recorded as a reduction of securities premium and retained earnings. Further, capital redemption reserve is created as an apportionment from retained earnings.

n) Bonus issue

For the purpose of bonus issue, the amount is transferred from capital redemption reserve, securities premium and retained earnings to the share capital.

(v) Property, plant and equipment

a) Recognition, measurement and derecognition

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable

to the acquisition of the asset. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost till all the activities necessary to prepare the qualifying asset for its intended use or sale are substantially completed. The cost and related accumulated depreciation are derecognised upon sale or disposition of the asset and the resultant gains or losses are recognised in the statement of profit and loss.

Capital work-in-progress are measured at cost less accumulated impairment losses, if any.

b) Depreciation

The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Leasehold improvements are amortised over the shorter of estimated useful life of the asset or the related lease term. Term licenses are amortised over their respective contract term. Freehold land is not depreciated. The estimated useful life of assets is reviewed and where appropriate are adjusted, annually. The estimated useful lives of assets are as follows:

Category	Useful life
Buildings	28 to 40 years
Plant and equipment	5 to 21 years
Computer equipment and software	2 to 7 years
Furniture, fixtures and equipment	5 years
Vehicles	4 to 5 years

The Company believes that the technically evaluated useful lives, different from Schedule II of the Companies Act, 2013, best represents the period over which these assets are expected to be used.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Deposits and advances paid towards the acquisition of property, plant and equipment outstanding as at

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

each reporting date is classified as capital advances under other non-current assets and the cost of property, plant and equipment not available for use before such date are disclosed under capital work-in-progress.

(vi) Business combinations, Goodwill and Intangible assets

a) Business combinations

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed, and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expensed as incurred.

The cost of an acquisition also includes the fair value of any contingent consideration measured as at the date of acquisition. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognised in the statement of profit and loss.

Common Control business combinations

The Company accounts for business combinations involving entities or businesses in which all the combining entities or businesses are ultimately controlled by the same party or parties both before and after the business combination and where that control is not transitory are accounted for as per the pooling of interest method. The business combination is accounted for as if it had occurred at the beginning of the earliest comparative period presented or, if later, at the date that common control was established; for this purpose, comparative periods are restated. Assets and liabilities acquired are recognised at their carrying amounts. The identity of the reserves is preserved, and they appear in the consolidated financial statements of the Group in the same form in which they appeared in the financial statements of the acquired entity. The difference, if any, between the consideration and the amount of share capital of the acquired entity is transferred to capital reserve.

b) Goodwill

The excess of the cost of an acquisition over the Company's share in the fair value of the acquiree's identifiable assets and liabilities is recognised as goodwill. If the excess is negative, a bargain purchase gain is recognised in equity as capital reserve. Goodwill is measured at cost less accumulated impairment (if any).

Goodwill associated with disposal of an operation that is part of a cash-generating unit is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained, unless some other method better reflects the goodwill associated with the operation disposed of.

c) Intangible assets

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and impairment losses, if any.

The amortisation of an intangible asset with a finite useful life reflects the manner in which the economic benefit is expected to be generated.

The estimated useful life of amortisable intangibles is reviewed and where appropriate is adjusted, annually. The estimated useful lives of the amortisable intangible assets are as follows:

Category	Useful life
Customer-related intangibles	5 to 10 years
Marketing-related intangibles	7 years

Customer-related intangibles includes customer contracts and customer relationships acquired as a part of Business combinations. Marketing-related intangibles includes non-compete acquired as a part of Business combinations.

(vii) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee

The Company enters into an arrangement for lease of land, buildings, plant and equipment including computer

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

equipment and vehicles. Such arrangements are generally for a fixed period but may have extension or termination options. The Company assesses whether a contract is, or contains, a lease at its inception. A contract is considered to contain a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

A contract conveys the right to control the use of an identified asset if the Company has the right to:

- a) control use of an identified asset,
- b) obtain substantially all the economic benefits from use of the identified asset, and
- c) direct the use of the identified asset

The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

At the commencement of the lease, the Company recognises a right of use (“**RoU**”) asset at cost and corresponding lease liability, except for leases with term of twelve months or less (“**Short-term leases**”) and low-value assets. For these Short-term leases and low-value assets, the Company recognises the lease payments as an operating expense on a straight-line basis over the lease term.

The cost of the RoU assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease, plus any initial direct costs, plus an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the site on which it is located less any lease incentives received. Subsequently, the RoU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The RoU assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of RoU assets. The estimated useful lives of RoU assets are determined on the same basis as those of property, plant and equipment.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets below.

For lease liabilities at the commencement of the lease, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate that the Company would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable in a similar economic environment.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any lease modifications. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the RoU asset or in statement of profit and loss, depending upon the nature of modification. Where the carrying amount of the RoU asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in the statement of profit and loss.

Payment of lease liabilities including interest are classified as cash used in financing activities in the statement of cash flows.

The Company as a lessor

Leases under which the Company is a lessor are classified as a finance or operating lease. Lease contracts where all the risks and rewards are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating lease.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

For leases under which the Company is an intermediate lessor, the Company accounts for the head-lease and the sub-lease as two separate contracts. The sub-lease is further classified either as a finance lease or an operating lease by reference to the RoU asset arising from the head-lease.

(viii) Inventories

Inventories are valued at lower of cost and net realisable value, including necessary provision for obsolescence. Cost is determined using the weighted average method.

(ix) Impairment

A) Financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments classified as FVTOCI, trade receivables, unbilled receivables, finance lease receivables and other financial assets. Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive discounted using the effective interest rate.

Loss allowances for trade receivables, unbilled receivables and finance lease receivables are measured at an amount equal to lifetime expected credit loss. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into account, risk profiling of customers and historical credit loss experience adjusted for forward-looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

B) Impairment of Investment in subsidiaries

The Company assesses investments in subsidiaries for impairment whenever events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the investment in subsidiary. The recoverable amount of

such investment is the higher of its fair value less cost of disposal ("FVLCD") and its value-in-use ("VIU"). The VIU of the investment is calculated using projected future cash flows. If the recoverable amount of the investment is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss.

C) Non-financial assets

The Company assesses long-lived assets such as property, plant and equipment, RoU assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets.

Goodwill is tested for impairment at least annually at the same time and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The goodwill impairment test is performed at the level of cash-generating unit or groups of cash-generating units which represents the lowest level at which goodwill is monitored for internal management purposes.

The recoverable amount of an asset or cash generating unit is the higher of its FVLCD and its VIU. The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples. If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the statement of profit and loss.

If at the reporting date, there is an indication that a previously assessed impairment loss on property, plant and equipment, RoU assets and intangible assets, no longer exists, the recoverable amount is reassessed and the impairment losses previously recognised are reversed such that the asset is recognised at its recoverable amount but not exceeding written down value which would have been reported if the impairment losses had not been recognised initially. An impairment loss in respect of goodwill is not reversed subsequently.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(x) Employee benefits

a) Post-employment plans

The Company participates in various employee benefit plans. Pensions and other post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's sole obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks are borne by the employee. The expenditure for defined contribution plans is recognised as an expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks are borne by the Company. The present value of the defined benefit obligations is calculated by an independent actuary using the projected unit credit method.

Remeasurements of the defined benefit plans, comprising actuarial gains or losses, the effect of changes to the asset ceiling, and the return on plan assets (excluding interest) are immediately recognised in other comprehensive income, net of taxes and not reclassified to profit or loss in subsequent period.

Net interest recognised in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate is recognised as part of remeasurements of the defined benefit plans through other comprehensive income, net of taxes.

Past service cost, both vested and unvested, is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognises related restructuring costs or termination benefits.

The Company has the following employee benefit plans:

A. Provident fund

Eligible employees receive benefits under the Company's provident fund plan, into which both the employer and employees make periodic

contributions to the approved provident fund trust managed by the Company. A portion of the employer's contribution is made to the government administered pension fund. The contributions to the provident fund trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Certain employees receive benefits under the provident fund plan in which both the employer and employees make periodic contributions to the government administered provident fund. A portion of the employer's contribution is made to the government administered pension fund. This is accounted as a defined contribution plan as the obligation of the Company is limited to the contributions made to the fund.

B. Gratuity and foreign pension

In accordance with the Code on Social Security, 2020, applicable for Indian companies, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The gratuity fund is managed by the third-party fund managers.

The Company also maintains pension and similar plans for employees outside India, based on country specific regulations. These plans are partially funded, and the funds are managed by third party fund managers. The plans provide for monthly payout after retirement as per salary drawn and service period or for a lump sum payment as set out in rules of each fund.

The Company's obligations in respect of these plans, which are defined benefit plans, are provided for based on actuarial valuation using the projected unit credit method.

C. Superannuation

Superannuation plan, a defined contribution scheme is administered by third party fund managers. The Company makes annual contributions based on a specified percentage of each eligible employee's salary.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

b) Termination benefits

Termination benefits are expensed when the Company can no longer withdraw the offer of those benefits.

c) Short-term benefits

Short-term employee benefit obligations such as cash bonus, management incentive plans or profit sharing plans are measured on an undiscounted basis and are recorded as expense as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus, management incentive plans or profit-sharing plans, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

d) Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognises accumulated compensated absences based on actuarial valuation using the projected unit credit method. Non-accumulating compensated absences are recognised in the period in which the absences occur.

(xi) Share-based payment transactions

Selected employees of the Company receive remuneration in the form of equity settled instruments or cash settled instruments, for rendering services over a defined vesting period and for Company's performance-based stock options over the defined period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. In cases, where equity instruments are granted at a nominal exercise price, the

intrinsic value on the date of grant approximates the fair value. The expense is recognised in the statement of profit and loss with a corresponding increase to the share options outstanding account, a component of equity.

The equity instruments or cash settled instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortisation). The stock compensation expense is determined based on the Company's estimate of equity instruments or cash settled instruments that will eventually vest.

Cash settled instruments granted are re-measured by reference to the fair value at the end of each reporting period and at the time of vesting. The expense is recognised in the statement of profit and loss with a corresponding increase to the financial liability.

(xii) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive), as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xiii) Revenue

The Company derives revenue primarily from software development, maintenance of software/hardware and

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

related services, consulting services, business process services and sale of IT products.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive (the “**Transaction Price**”). Revenue towards satisfaction of the performance obligation is measured at the amount of the Transaction Price (net of variable consideration on account of discounts and allowances) allocated to that performance obligation. To recognise revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the Transaction Price, (4) allocate the Transaction Price to the performance obligations in the contract, and (5) recognise revenues when a performance obligation is satisfied. When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the Transaction Price to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when they are regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the Company uses expected cost-plus margin approach in estimating the stand-alone selling price.

For performance obligations where control is transferred over time, revenues are recognised by measuring progress towards completion of the performance obligation. The selection of the method

to measure progress towards completion requires judgement and is based on the nature of the promised products or services to be provided.

The method for recognising revenues and costs depends on the nature of contracts with customers as given below:

A. Time and materials contracts

Revenues and costs relating to time and materials contracts are recognised as the related services are rendered.

B. Fixed-price contracts

i) Fixed-price development contracts

Revenues from fixed-price development contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, are recognised using the “percentage-of-completion” method. The performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. If the Company is not able to reasonably measure the progress of completion, revenue is recognised only to the extent of costs incurred for which recoverability is probable. When total cost

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

estimates exceed revenues in an arrangement, the estimated losses are recognised in the statement of profit and loss in the period in which such losses become probable based on the current contract estimates as an onerous contract provision.

A contract asset is a right to consideration that is conditional upon factors other than the passage of time. Contract assets primarily relate to unbilled amounts on fixed-price development contracts and are classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

ii) Maintenance contracts

Revenues related to fixed-price maintenance contracts are recognised on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using percentage of completion method when the pattern of benefits from the services rendered to the customers and the cost to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue for contracts in which the invoicing is representative of the value being delivered is recognised based on our right to invoice. If our invoicing is not consistent with value delivered, revenues are recognised as the service is performed using the percentage of completion method.

In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognised with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilised by the customer is recognised as revenue on completion of the term.

iii) Element or Volume based contracts

Revenues and costs are recognised as the related services are rendered.

C. Products

Revenue on product sales are recognised when the customer obtains control of the specified product.

D. Others

- Any change in scope or price is considered as a contract modification. The Company accounts for modifications to existing contracts by assessing whether the services added are distinct and whether the pricing is at the stand-alone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract if the additional services are priced at the stand-alone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the stand-alone selling price.
- The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers and penalties as reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved.
- Revenues are shown net of allowances/returns, sales tax, value added tax, goods and services tax and applicable discounts.
- The Company may enter into arrangements with third party suppliers to resell products or services. In such cases, the Company evaluates whether the Company is the principal (i.e. report revenues on a gross basis) or agent (i.e. report revenues on a net basis). In doing so, the Company first evaluates whether the Company controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or services and therefore, is acting as a principal or an agent. If the Company controls the good or service before it is transferred to

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

the customer, the Company is the principal; if not, the Company is the agent.

- Estimates of the Transaction Price and total costs or efforts are continuously monitored over the term of the contract and are recognised in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses.
- The Company accrues the estimated cost of warranties at the time when the revenue is recognised. The accruals are based on the Company's historical experience of material usage and service delivery costs.
- Incremental costs that relate directly to a contract and incurred in securing a contract with a customer are recognised as an asset when the Company expects to recover these costs.
- The Company recognises contract fulfilment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered.
- Costs to obtain contracts relating to upfront payments to customers are amortised to revenue and other costs to obtain contracts and costs to fulfil contracts are amortised to cost over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.
- The Company assesses the timing of the transfer of goods or services to the customer as compared to the timing of payments to determine whether a significant financing component exists. As a practical expedient, the Company does not assess the existence of a significant financing component when the difference between payment and transfer of deliverables is twelve months or less. If the difference in timing arises for reasons other than the provision of finance to either the customer or us, no financing component is deemed to exist.
- Unbilled receivables are classified as a financial asset where the right to consideration is unconditional and only the passage of time is required before the payment is due.

(xiv) Finance costs

Finance costs comprise interest on borrowings, interest on lease liabilities, interest on tax matters, interest on net defined benefit liability, net loss on translation or settlement of foreign currency borrowings, changes in fair value of derivative instruments and gains/(losses) of settlement of borrowing related derivative instruments. Borrowing costs that are not directly attributable to a qualifying asset are recognised in the statement of profit and loss using the effective interest method.

(xv) Finance and other income

Finance and other income comprises interest income on deposits, dividend income, gains/(losses) on disposal of investments, gains/(losses) on investments classified as FVTPL, net gain on translation or settlement of foreign currency borrowings, changes in fair value and gains/(losses) on settlement of related derivative instruments and net gains/(losses) on sale of property, plant and equipment. Interest income is recognised using the effective interest method. Dividend income is recognised when the right to receive payment is established.

(xvi) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognised in the statement of profit and loss except to the extent it relates to a business combination, or items directly recognised in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amounts are those that are enacted or substantively enacted as at the reporting date and applicable for the period. While determining the tax provisions, the Company assesses whether each uncertain tax position is to be considered separately or together with one or more uncertain tax positions depending upon the nature and circumstances of each uncertain tax position. The Company offsets current tax assets and current

Notes to the Standalone Financial Statements

tax liabilities, where it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in these standalone financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences that is expected to reverse within the tax holiday period, taxable temporary differences associated with investments in subsidiaries, associates and foreign branches where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable

(₹ in millions, except share and per share data, unless otherwise stated)

entities where there is a right and an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

(xvii) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted-average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options, except where the results would be anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any splits and bonus shares issues including for change effected prior to the approval of the standalone financial statements by the Company's Board of Directors.

(xviii) Statement of cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash generated from/(used in) operating, investing and financing activities of the Company are segregated.

New Accounting standards, amendments and interpretations adopted by the Company effective from April 1, 2025:

Amendments to Ind AS 21 – The effects of changes in foreign exchange rates

The amendment clarifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking, as well as require the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable. These amendments are effective for annual reporting periods beginning on or after April 1, 2025. The adoption of these amendments to Ind AS 21 did not have any material impact on the standalone financial statements.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Amendments to Ind AS 1 – Presentation of Financial statements

On August 13, 2025, the MCA has issued “Classification of liabilities as current or non-current and non-current liabilities with covenants (Amendments to Ind AS 1)” The amendments aim to promote consistency in applying the requirements by helping companies to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments also clarified the classification requirements for debt a company might settle by converting it into equity. These amendments are effective for annual reporting periods beginning on or after April 1, 2025, and are to be applied retrospectively. The adoption of these amendments to Ind AS 1 did not have any material impact on the standalone financial statements.

Amendments to Ind AS 7 - Statement of cash flows and Ind AS 107 - Financial instruments

On August 13, 2025, MCA issued 'Supplier Finance Arrangements (Amendments to Ind AS 7 and Ind AS 107)', that require companies to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those arrangements on the companies liabilities and cash flows and on the companies exposure to liquidity risk. These amendments are effective for annual reporting periods beginning on or after April 1, 2025

and are to be applied retrospectively. The adoption of these amendments to Ind AS 7 and Ind AS 107 did not have any material impact on the standalone financial statements.

Amendments to Ind AS 12 – Income taxes

On August 13, 2025, the MCA issued International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12 “Income Taxes” to clarify the application of Ind AS 12 to income taxes arising from tax law enacted or substantively enacted to implement the Organisation for Economic Co-operation and Development (OECD), including tax law that implements qualified domestic minimum top-up taxes described in those rules.

The Company has applied the temporary exception from the accounting requirements for deferred taxes in Ind AS 12. Accordingly, the Company neither recognised, nor disclosed information about deferred tax assets and liabilities related to Pillar Two income taxes.

New accounting standards, amendments and interpretations not yet adopted by the company:

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

6. CAPITAL WORK-IN-PROGRESS ("CWIP")

The following table represent ageing of CWIP as on March 31, 2026:

	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	₹ 3,322	₹ 450	₹ 350	₹ -	₹ 4,122
Total	₹ 3,322	₹ 450	₹ 350	₹ -	₹ 4,122

The following table represent ageing of CWIP as on March 31, 2025:

	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	₹ 1,426	₹ 359	₹ -	₹ -	₹ 1,785
Total	₹ 1,426	₹ 359	₹ -	₹ -	₹ 1,785

As on March 31, 2026 and 2025, there are no projects under CWIP whose completion is overdue compared to its original plan.

As on March 31, 2026 and 2025, there are no projects under CWIP where the project costs has exceeded as compared to its original plan.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

7. GOODWILL AND OTHER INTANGIBLE ASSETS

The movement in goodwill balance is given below:

	Year ended March 31, 2026	Year ended March 31, 2025
Balance at the beginning of the year	₹ 6,082	₹ 4,604
Adjustment on account of merger	-	1,478
Adjusted balance at the beginning of the year	₹ 6,082	₹ 6,082
Additions through Business combination	16	-
Balance at the end of the year	₹ 6,098	₹ 6,082

The Company is organised by two operating segments: IT Services and IT Products. Goodwill of ₹ 6,098 and ₹ 6,082 as at March 31, 2026 and 2025 has been allocated to the IT Services operating segment.

Goodwill recognised on business combinations is allocated to Cash Generating Units (“CGUs”), within the IT Services operating segment, which are expected to benefit from the synergies of the acquisitions.

	As at March 31, 2026	As at March 31, 2025
CGUs		
Americas 1	₹ 7	₹ 7
Americas 2	4,669	4,669
Europe	12	12
Asia Pacific, Middle East and Africa	1,410	1,394
Total	₹ 6,098	₹ 6,082

For impairment testing, goodwill is allocated to a CGU representing the lowest level within the Company at which goodwill is monitored for internal management purposes, and which is not higher than the Company’s operating segment. Goodwill is tested for impairment at least annually in accordance with the Company’s procedure for determining the recoverable value of each CGU.

The recoverable amount of the CGU is determined based on FVLCD. The FVLCD of the CGU is determined based on the market capitalisation approach, using the turnover and earnings multiples derived from observable market data. The fair value measurement is categorised as a level 2 fair value based on the inputs in the valuation techniques used.

Based on the above testing, no impairment was identified as at March 31, 2026 and 2025 as the recoverable value of the CGUs exceeded the carrying value. A sensitivity analysis to the change in the key parameters (turnover and earnings multiples), did not identify any probable scenarios where the CGU’s recoverable amount would fall below its carrying amount.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The movement in other intangible assets is given below:

	Other intangible assets		
	Customer-related	Marketing-related	Total
Gross carrying value:			
As at April 1, 2025	₹ 2,295	₹ 32	₹ 2,327

15. BORROWINGS

	As at March 31, 2026	As at March 31, 2025
Current		
Unsecured		
Borrowings from banks	₹ 61,500	₹ 60,500
	₹ 61,500	₹ 60,500

Short-term borrowings

	As at March 31, 2026			As at March 31, 2025
	Indian Rupee	Interest rate	Interest rate	Indian Rupee
Unsecured borrowings from banks	₹ 46,500	T-Bill + Spread	5.20% - 5.83%	₹ 50,500
Unsecured borrowings from banks	15,000	Fixed	6.10%	10,000
	₹ 61,500			₹ 60,500

The principal source of short-term borrowings from banks as at March 31, 2026 primarily consists of lines of credit of approximately ₹ 89,023 from bankers for working capital requirements and other short-term needs. As at March 31, 2026, the Company has

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

unutilised lines of credit aggregating ₹ 27,523. To utilise these unused lines of credit, the Company requires consent of the lender and compliance with certain financial covenants. Significant portion of these lines of credit are revolving credit facilities and floating rate loans, renewable on a periodic basis.

Borrowings from banks bear floating rates of interest, referenced to country specific official benchmark interest rates and a spread, determined based on market conditions.

Refer to Note 26 for interest expense on borrowings.

Cash and non-cash changes in liabilities arising from financing activities:

Current portion	214	944	98	1,256	207	1,024	142	1,373

Provision for warranty represents cost associated with providing sales support services which are accrued at the time of recognition of revenues and are expected to be utilised over a period of 1 year.

Provision for onerous contracts is recognised when the expected benefit by the company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

Other provisions primarily include provisions for compliance related contingencies. The timing of cash outflows in respect of such provision cannot be reasonably determined.

Other financial liabilities - non-current	731	-	731	1,051	-	1,051
Other financial liabilities - current	28,681	-	28,681	22,656	-	22,656
	₹ 102,222	₹ (8,988)	₹ 93,234	₹ 99,282	₹ (7,752)	₹ 91,530

For the financial assets and liabilities subject to offsetting or similar arrangements, each agreement between the Company and the counterparty allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis and hence are not offset.

Fair value

Financial assets and liabilities include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, loans to subsidiaries, eligible current and non-current assets, borrowings, lease liabilities, trade payables, and eligible current and non-current liabilities.

The fair value of cash and cash equivalents, trade receivables, unbilled receivables, short-term borrowings, lease liabilities, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. Finance lease receivables are periodically evaluated based on individual credit worthiness of customers. Based on this evaluation, the Company records allowance for estimated credit losses on these receivables. As at March 31, 2026, and 2025 the carrying value of such financial assets, net of allowances, and liabilities approximates the fair value.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Investments in short-term mutual funds and fixed maturity plan mutual funds, which are classified as FVTPL are measured using net asset values at the reporting date multiplied by the quantity held. Fair value of investments in non-convertible debentures, government securities, commercial papers and bonds classified as FVTOCI is determined based on the indicative quotes of price and yields prevailing in the market at the reporting date. Fair value of investments in equity instruments classified as FVTOCI or FVTPL is determined using market approach primarily based on market multiples method.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves and currency volatility.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There were no transfers between Levels 1, 2 and 3 during the years ended March 31, 2026 and 2025.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

	As at March 31, 2026				As at March 31, 2025			
	Fair value measurements at reporting date				Fair value measurements at reporting date

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The following methods and assumptions were used to estimate the fair value of the Level 2 financial instruments included in the above table.

Financial instrument	Method and assumptions
Derivative instruments (assets and liabilities)	The Company enters into derivative financial instruments with various counterparties, primarily banks with investment grade credit ratings. Derivatives valued using valuation techniques with market observable inputs are mainly interest rate swaps, foreign exchange forward contracts and foreign exchange option contracts. The most frequently applied valuation techniques include forward pricing, swap models and Black Scholes models (for option valuation), using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, interest rate curves and forward rate curves of the underlying. As at March 31, 2026, the changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.
Investment in non-convertible debentures, government securities, commercial papers and bonds	Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at reporting date.
Investment in Fixed maturity plan mutual funds	Fair value of these instruments is derived based on the indicative quotes of price prevailing in the market as at reporting date.

The following methods and assumptions were used to estimate the fair value of the Level 3 financial instruments included in the above table.

Financial instrument	Method and assumptions
Investment in equity instruments	Fair value of these instruments is determined using market approach primarily based on market multiples method.
Investment in redeemable preference shares of subsidiary	Fair value is determined using discounted cash flow method.

The following table presents changes in Level 3 assets and liabilities for the years ended March 31, 2026 and 2025:

	As at March 31, 2026	As at March 31, 2025
Investment in equity instruments - other than subsidiaries		
Balance at the beginning of the year	₹ 268	₹ 193
Additions	68	76
Disposals ⁽¹⁾	(181)	(1)
Gain/(loss) recognised in statement of profit and loss	13	(4)
Gain/(loss) recognised in other comprehensive income	156	4
Balance at the end of the year	₹ 324	₹ 268

⁽¹⁾ During the year ended March 31, 2026, as a result of an acquisition by another investor, the Company sold its shares of equity instruments in a company at a fair value of ₹ 181 and recognised a cumulative gain of ₹ 161 in other comprehensive income.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	As at March 31, 2026	As at March 31, 2025
Investment in redeemable preference shares of subsidiary		
Balance at the beginning of the year	₹ 16,661	₹ 16,282
Unrealised exchange gain /(loss)	3,045	379
Balance at the end of the year	₹ 19,706	₹ 16,661

Derivative assets and liabilities:

The Company is exposed to currency fluctuations on foreign currency assets/liabilities, forecasted cash flows denominated in foreign currency and net investment in foreign operations. The company is also exposed to interest rate fluctuations on investments in floating rate financial assets and floating rate borrowings. The Company follows established risk management policies, including the use of derivatives to hedge foreign currency assets/liabilities, interest rates, foreign currency forecasted cash flows and net investment in foreign operations. The counterparties in these derivative instruments are primarily banks and the Company considers the risks of non-performance by the counterparty as immaterial.

The following table presents the aggregate contracted principal amounts of the Company's derivative contracts outstanding:

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company determines the existence of an economic relationship between the hedging instrument and the hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in the statement of profit and loss at the time of the hedge relationship rebalancing.

The following table summarises activity in the cash flow hedging reserve within equity related to all derivative instruments classified as cash flow hedges:

	As at March 31, 2026	As at March 31, 2025
Balance as at the beginning of the year	₹ (318)	₹ 524
Changes in fair value of effective portion of derivatives	(13,467)	(1,167)
Deferred cancellation gain/(loss), net	(776)	(91)
Net (gain)/loss reclassified to statement of profit and loss on occurrence of hedged transactions ⁽¹⁾	5,216	416
Gain/(loss) on cash flow hedging derivatives, net	₹ (9,027)	₹ (842)
Balance as at the end of the year	₹ (9,345)	₹ (318)
Deferred tax asset/(liability) thereon	2,226	77
Balance as at the end of the year, net of deferred taxes	₹ (7,119)	₹ (241)

⁽¹⁾ Includes net (gain)/loss reclassified to revenue of ₹ 6,093 and ₹ 394 for the years ended March 31, 2026 and 2025, respectively; net (gain)/loss reclassified to employee benefits expense of ₹ (877) and ₹ (51) for the years ended March 31, 2026 and 2025, respectively and net (gain)/loss reclassified to other income of ₹ Nil and ₹ 73 for the years ended March 31, 2026 and 2025, respectively.

The related hedge transactions for balance in cash flow hedging reserves as at March 31, 2026 are expected to occur and be reclassified to the statement of profit and loss over a period of 12 months.

As at March 31, 2026 and 2025, there were no gains or losses on derivative transactions or portions thereof that have become ineffective as hedges or associated with an underlying exposure that did not occur.

Sale of financial assets

From time to time, in the normal course of business, the Company transfers accounts receivables, unbilled receivables, net investment in finance lease receivables (financial assets) to banks. Under the terms of the arrangements, the Company either substantially transfers its risks and rewards or surrenders control over the financial assets and transfer is without recourse. Accordingly, on such transfers the financial assets are derecognised and considered as sale of financial assets. Gains and losses on the sale of financial assets without recourse are recorded in finance costs, at the time of sale based on the carrying value of the financial assets and fair value of servicing liability. The incremental impact of such transactions on our cash flow and liquidity for the years ended March 31, 2026 and 2025 is not material.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Financial risk management

Market Risk

Market risk is the risk of loss of future earnings, to fair values or to future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments, foreign currency receivables, payables and borrowings.

The Company's exposure to market risk is a function of investment and borrowing activities and revenue generating activities in foreign currency. The objective of market risk management is to avoid excessive exposure of the Company's earnings and equity to losses.

Risk Management Procedures

The Company manages market risk through a corporate treasury department, which evaluates and exercises independent control over the entire process of market risk management. The corporate treasury department recommends risk management objectives and policies, which are approved by our senior management and the Company's Audit, Risk and Compliance Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies.

Foreign currency risk

The Company operates internationally, and a major portion of its business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through receiving payment for sales and services in the United States and elsewhere and making purchases from overseas suppliers in various foreign currencies. The exchange rate risk primarily arises from foreign exchange revenue, receivables, cash balances, forecasted cash flows, payables and foreign currency borrowings. A significant portion of the Company's revenue is in the U.S. Dollars, Pound Sterling, Euro, Indian Rupee, Australian Dollars and Canadian Dollars, while a large portion of costs are in Indian Rupees. The exchange rate between the Indian Rupee and these currencies has fluctuated significantly in recent years and may continue to fluctuate in the future. Appreciation of the Indian Rupee against these currencies can adversely affect the Company's results of operations.

The Company evaluates exchange rate exposure arising from these transactions and enters into foreign currency derivative instruments to mitigate such exposure. The Company follows established risk management policies, including the use of derivatives like foreign exchange forward/option contracts to hedge forecasted cash flows denominated in foreign currency.

The Company has designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure of forecasted highly probable cash flows.

As at March 31, 2026, a ₹ 1 increase in the spot exchange rate of the Indian Rupee with the U.S. Dollar would result in an approximately ₹ 2,667 (including statement of profit and loss of ₹ 655 and other comprehensive income of ₹ 2,012) decrease in the fair value, and a ₹ 1 decrease would result in an approximately ₹ 2,653 (including statement of profit and loss of ₹ 655 and other comprehensive income of ₹ 1,998) increase in the fair value of foreign currency dollar denominated derivative instruments (forward and option contracts).

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The below table presents foreign currency risk from non-derivative financial assets/(liabilities) as of March 31, 2026 and 2025:

	As at March 31, 2026						Total
	U.S.\$	Euro	Pound Sterling	Australian Dollar	Canadian Dollar	Other currencies ⁽¹⁾

⁽¹⁾ Other currencies reflect currencies such as Singapore Dollar, Swiss Franc, Swedish Krona, United Arab Emirates Dirham and Polish Zloty

	As at March 31, 2025						Total
	U.S.\$	Euro	Pound Sterling	Australian Dollar	Canadian Dollar	Other currencies ⁽¹⁾	
Trade receivables	₹ 38,924	₹ 12,335	₹ 7,616	₹ 2,599	₹ 1,213	₹ 8,494	₹ 71,181
Unbilled receivables	22,604	4,118	4,025	1,587	539	1,862	34,735
Cash and cash equivalents	5,261	1,602	1,117	1,007	4,392	1,735	15,114
Other financial assets	745	1,181	353	161	101	1,046	3,587
Investment in redeemable preference shares of subsidiary	-	16,661	-	-	-	-	16,661
Lease liabilities	(2,402)	(1,836)	(2,402)	(259)	(72)	(1,084)	(8,055)
Trade payables and other financial liabilities	(41,054)	(8,679)	(7,275)	(1,414)	(857)	(6,074)	(65,353)
Non-derivative financial assets/(liabilities), net	₹ 24,078	₹ 25,382	₹ 3,434	₹ 3,681	₹ 5,316	₹ 5,979	₹ 67,870

⁽¹⁾ Other currencies reflect currencies such as Saudi Riyal, Singapore Dollar, Swiss Franc, Polish Zloty and United Arab Emirates Dirham.

As at March 31, 2026 and 2025, respectively, every 1% increase/decrease in the respective foreign currencies compared to functional currency of the Company would increase/decrease the Company's profit before taxes by approximately ₹ 958 and ₹ 679, respectively.

Interest rate risk

Interest rate risk primarily arises from floating rate borrowings, including various revolving and other lines of credit.

The Company's investments are primarily in short-term investments, which do not expose it to significant interest rate risk.

Interest rate risk primarily arises from floating rate borrowing, including various revolving and other lines of credit. If interest rates were to increase by 100 bps as on March 31, 2026 additional net annual interest expense on floating rate borrowing would amount to approximately ₹ 465. Certain borrowings are also transacted at fixed interest rates.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Credit risk

Credit risk arises from the possibility that customers may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the credit rating and financial reliability of customers, considering the financial condition, current economic trends, forward-looking macroeconomic information, analysis of historical bad debts and ageing of accounts receivable. No single customer accounted for more than 10% of the accounts receivable as at March 31, 2026 and 2025, and revenues for the years ended March 31, 2026 and 2025. There is no significant concentration of credit risk.

Trade receivables and unbilled receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a customer to engage in a repayment plan with the Company.

Refer to Note 9 for changes in allowance for lifetime expected credit loss.

Counterparty risk

Counterparty risk encompasses issuer risk on marketable securities, settlement risk on derivative and money market contracts and credit risk on cash and time deposits. Issuer risk is minimised by only buying securities in India which are at least AA rated by Indian rating agencies. Settlement and credit risk is reduced by the policy of entering into transactions with counterparties that are usually banks or financial institutions with acceptable credit ratings. Exposure to these risks are closely monitored and maintained within predetermined parameters. There are limits on credit exposure to any financial institution. The limits are regularly assessed and determined based upon credit analysis including financial statements and capital adequacy ratio reviews.

Cash and cash equivalents includes demand deposits of ₹ 404 and bank balances of ₹ 21,456 held with two banks having high credit ratings, which are individually in excess of 10% or more of the Company's total cash and cash equivalents as at March 31, 2026. Refer to Note 10.

The Company did not have any significant concentration of investment risk, as no investments with any single counterparty exceeded 10% of total investments, excluding investments in equity instruments and redeemable preference shares of subsidiaries as at March 31, 2026. Refer to Note 8.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts based on the expected cash flows. As at March 31, 2026, cash and cash equivalents are held with major banks and financial institutions.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The balanced view of liquidity and financial indebtedness is stated in the table below. This calculation of the net cash position is used by the management for external communication with investors, analysts and rating agencies:

	As at March 31, 2026	As at March 31, 2025
Cash and cash equivalents	₹ 26,778	₹ 44,342
Investments - current	394,720	409,568
Borrowings	(61,500)	(60,500)
	₹ 359,998	₹ 393,410

21. INCOME TAX

Income tax expense has been allocated as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Income tax expense as per the statement of profit and loss		
Current tax expense	₹ 38,349	₹ 39,934
Deferred tax expense/(reversal)	(593)	(2,940)
	₹ 37,756	₹ 36,994
Income tax included in other comprehensive income on:		
Gains/(losses) on investment securities	₹ (323)	₹ 221
Gains/(losses) on cash flow hedging derivatives	(2,149)	(202)
Remeasurements of the defined benefit plans	53	78
	₹ (2,419)	₹ 97
	₹ 35,337	₹ 37,091

The reconciliation between the provision of income tax and amounts computed by applying the Indian statutory income tax rate to profit before taxes is as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Profit before tax	₹ 159,052	₹ 146,125
Enacted income tax rate in India	34.94%	34.94%
Computed expected tax expense	₹ 55,573	₹ 51,056
Effect of:		
Income exempt from tax	₹ (17,492)	₹ (14,139)
Basis differences that will reverse during a tax holiday period	66	(331)
Income taxed at higher/(lower) rates	(223)	(74)
Taxes related to prior years	(3,949)	(4,156)

Deferred taxes on unrealised foreign exchange gain/loss relating to cash flow hedges, fair value movements in investments and remeasurements of the defined benefit plans are recognised in other comprehensive income and presented within equity. Other than these, the change in deferred tax assets and liabilities is primarily recorded in the statement of profit and loss.

In assessing the realisability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Company believes that it is probable that the Company will realise the benefits of these deductible differences. The amount of deferred tax asset considered realisable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

The Company has recognised deferred tax assets of ₹ 116 and ₹ 112 as at March 31, 2026 and 2025 primarily in respect of capital loss incurred on account of liquidation of an investment. Management's projections of future taxable capital gain support the assumption that it is probable that sufficient taxable income will be available to utilise this deferred tax asset.

A substantial portion of the profits of the Company's India operations are exempt from Indian income taxes being profits attributable to export operations and profits from units established under Special Economic Zone Act, 2005 scheme. Units in designated SEZs providing service on or after April 1, 2005 will be eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50% of such profits and gains for a further five years. A 50% tax deduction is available for a further five years subject to the unit meeting certain defined conditions. Profits from certain other undertakings are also eligible for preferential tax treatment. New SEZ units set up on or after April 1, 2021 are not eligible for aforesaid deduction. The tax holiday period being currently available to the Company expires in various years through fiscal years 2034-35. The impact of tax holidays has resulted in a decrease

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

of current tax expense of ₹ 13,092 and ₹ 11,798 for the years ended March 31, 2026 and 2025, respectively, compared to the effective tax amounts that the Company estimates it would have been required to pay if these incentives had not been available. The per equity share effect of these tax incentives for the years ended March 31, 2026 and 2025 is ₹ 1.25 and ₹ 1.13, respectively.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with U.S. branch profit tax where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future. Accordingly, deferred income tax liabilities on branch profit tax at 15% of the U.S. branch profits have not been recognised. Further, it is not practicable to estimate the amount of the unrecognised deferred tax liabilities for these undistributed earnings.

The Pillar Two legislations are neither enacted nor substantively enacted by Government of India, where the parent company is incorporated. Pillar Two legislation has been enacted, or substantively enacted, in certain other jurisdictions where the Company operates. However, the Company does not expect any material financial impact for the year ended March 31, 2026. In line with amended Ind AS 12, the Company has not recognised deferred taxes related to Pillar Two income taxes and accordingly has applied the mandatory exception as per the said standard.

22. REVENUE FROM OPERATIONS

A. Contract assets and Contract liabilities

The following table presents the changes in contract assets balance:

	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	₹ 9,815	₹ 12,941
Adjustment on account of merger	-	3
Adjusted balance at the beginning of the year	₹ 9,815	₹ 12,944
Amount reclassified to receivables pertaining to fixed price development contracts on completion of milestones	(8,737)	(8,952)
Increase due to revenue recognised during the year	6,274	5,823
Balance at the end of the year	₹ 7,352	₹ 9,815

The following table presents the changes in contract liabilities balance:

	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	₹ 15,162	₹ 14,265
Adjustment on account of merger	-	52
Adjusted balance at the beginning of the year	₹ 15,162	₹ 14,317
Revenue recognised from opening balance of contract liabilities	(11,526)	(11,171)
Increase due to invoicing during the year	15,193	12,016
Balance at the end of the year	₹ 18,829	₹ 15,162

Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

B. Reconciliation of revenue

Reconciliation of revenue recognised with the contracted price as follows:

	As at March 31, 2026	As at March 31, 2025
Contracted price	₹ 728,904	₹ 695,862
Reductions towards variable consideration components ⁽¹⁾	(15,453)	(10,112)
Revenue recognised in the statement of profit and loss	₹ 713,451	₹ 685,750

⁽¹⁾ Variable consideration comprises of volume discount, service level credits and liquidated damages.

C. Remaining performance obligations

Revenue allocated to remaining performance obligations represents contracted revenue that has not yet been recognised, which includes contract liabilities and amounts that will be invoiced and recognised as revenue in future periods. Applying the practical expedient, the Company has not disclosed its right to consideration from customers in an amount that corresponds directly with the value to the customer of the Company's performance completed to date, which are contracts invoiced on time and material basis and volume based.

As at March 31, 2026 and 2025, the aggregate amount of the Transaction Price allocated to remaining performance obligations, other than those meeting the exclusion criteria above, were ₹ 266,386 and ₹ 223,292, respectively, of which approximately 60% and 66%, respectively, is expected to be recognised as revenues within two years, and the remainder thereafter. This includes contracts, with a substantive enforceable termination penalty if the contract is terminated without cause by the customer, based on an overall assessment of the contract carried out at the time of inception. Historically, customers have not terminated contracts without cause.

D. Disaggregation of revenue

The tables below present disaggregated revenue from contracts with customers by business segment and nature of contract. The Company believes that the below disaggregation best depicts the nature, amount, timing and uncertainty of revenue and cash flows from economic factors.

Revenue by nature of services

	Year ended March 31, 2026	Year ended March 31, 2025
Rendering of services	₹ 709,602	₹ 684,307
Sale of products	3,849	1,443
	₹ 713,451	₹ 685,750

Revenue by nature of contract

	Year ended March 31, 2026	Year ended March 31, 2025
Fixed price and volume based	₹ 374,187	₹ 381,864
Time and materials	335,415	302,443
Products	3,849	1,443
	₹ 713,451	₹ 685,750

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

23. OTHER INCOME

	Year ended March 31, 2026	Year ended March 31, 2025
Interest income	₹ 25,512	₹ 24,674
Dividend income from investment in equity instruments of subsidiaries	11,062	5,161
Dividend income from equity investments designated as FVTOCI	3	2
Net gain from investments classified as FVTPL	6,969	8,440
Net loss from investments classified as FVTOCI	358	(72)
Finance and other income	₹ 43,904	₹ 38,205
Foreign exchange gain/(loss), net on derivatives measured at FVTPL	₹ (4,664)	₹ (182)
Foreign exchange gain/(loss), net on investments measured at FVTPL	3,045	379
Other foreign exchange differences, net	4,791	363
Foreign exchange gain, net	₹ 3,172	₹ 560
Gain on sale of property, plant and equipment, net ⁽¹⁾	₹ 415	₹ 712
	₹ 47,491	₹ 39,477

⁽¹⁾Gain on sale of property, plant and equipment, net for the year ended March 31, 2026 and 2025, includes gain on transfer of building of ₹ 405 and gain on relinquishment of the lease hold rights of land, and transfer of building along with other assets of ₹ 885, respectively.

24. CHANGES IN INVENTORIES OF STOCK-IN-TRADE

	Year ended March 31, 2026	Year ended March 31, 2025
Stock at the beginning of the year	₹ 613	₹ 703
Less: Stock at the end of the year	465	613
Decrease during the year	₹ 148	₹ 90

25. EMPLOYEE BENEFITS

a) Employee costs includes

	Year ended March 31, 2026	Year ended March 31, 2025
Salaries and bonus	₹ 365,644	₹ 364,236
Contribution to provident and other funds	19,291	14,776
Share-based compensation ⁽¹⁾	3,874	4,838
	₹ 388,809	₹ 383,850

⁽¹⁾ Includes ₹ Nil and ₹ (9) for the years ended March 31, 2026 and 2025, respectively, towards cash settled ADSs and RSUs.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Defined benefit plan actuarial (gains)/losses recognised in other comprehensive income include:

	Year ended March 31, 2026	Year ended March 31, 2025
Return on plan assets excluding interest income - loss/(gain)	₹ 439	₹ (248)
Actuarial loss/(gain) arising from financial assumptions	757	237
Actuarial loss/(gain) arising from demographic assumptions	29	(111)
Actuarial loss/(gain) arising from experience adjustments	(1,454)	(207)
Change in the effect of asset ceiling - loss/(gain)	7	13
(Gain)/loss on remeasurement of defined benefit plans, net	₹ (222)	₹ (316)

b) Gratuity and foreign pension:

Defined benefit plans include gratuity for employees drawing salary in Indian Rupees, pension and certain benefits plans in foreign jurisdictions.

Amount recognised in the statement of profit and loss in respect of defined benefit plans is as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Current service cost	₹ 3,280	₹ 2,805
Past service cost	3,377	-
Net interest income on net defined benefit liability/(asset)	147	14
Net charge to the statement of profit and loss	₹ 6,804	₹ 2,819
Actual return on plan assets	₹ 659	₹ 1,353

Change in present value of defined benefit obligation is summarised below:

	As at March 31, 2026	As at March 31, 2025
Defined benefit obligation at the beginning of the year	₹ 18,042	₹ 14,828
Adjustment on account of merger	-	1,116
Adjusted balance of defined benefit obligation at the beginning of the year	₹ 18,042	₹ 15,944
Current service cost	3,280	2,805
Past service cost	3,377	-
Interest expense on obligation	1,242	1,117
Benefits paid	(2,100)	(1,799)
Transfer in/(out), net	1	21
Remeasurement loss/(gain)		
Actuarial loss/(gain) arising from financial assumptions	757	237
Actuarial loss/(gain) arising from demographic assumptions	29	(111)
Actuarial loss/(gain) arising from experience adjustments	(1,454)	(207)
Translation adjustment	174	35
Defined benefit obligation at the end of the year	₹ 23,348	₹ 18,042

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Change in plan assets is summarised below:

	As at March 31, 2026	As at March 31, 2025
Fair value of plan assets at the beginning of the year	₹ 17,072	₹ 15,717
Expected return on plan assets	1,098	1,105
Employer contributions	5,225	5
Benefits paid	(27)	(30)
Remeasurement (loss)/gain		
Return on plan assets excluding interest income - (loss)/gain	(439)	248
Translation adjustment	134	27
Fair value of plan assets at the end of the year	₹ 23,063	₹ 17,072

	As at March 31, 2026	As at March 31, 2025
Defined benefit obligation	₹ 23,348	₹ 18,042
Fair value of plan assets	23,063	17,072
Present value of unfunded obligation	(285)	(970)
Change in the effect of asset ceiling	(89)	(66)
Recognised liability	(374)	(1,036)

Change in effect of asset ceiling is summarised below:

	As at March 31, 2026	As at March 31, 2025
Effect of asset ceiling at the beginning of the year	₹ 66	₹ 50
Interest expense on effect of asset ceiling	3	2
Changes in the effect of limiting the surplus to the asset ceiling	7	13
Translation adjustment	13	1
Effect of asset ceiling at the end of the year	₹ 89	₹ 66

As at March 31, 2026 and 2025, plan assets were primarily invested in insurer managed funds.

The Company has established an income tax approved irrevocable trust fund to which it regularly contributes to finance the liabilities of the gratuity plan. The fund's investments are managed by certain insurance companies as per the selection made by the trustees among the fund plan available.

The principal assumptions used for the purpose of actuarial valuation of these defined benefit plans are as follows:

	As at March 31, 2026	As at March 31, 2025
Discount rate	6.38%	6.49%
Expected return on plan assets	6.38%	6.49%
Expected rate of salary increase	7.67%	7.66%
Weighted average duration of defined benefit obligations	5.27 years	5.65 years

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The discount rate is primarily based on the prevailing market yields of government securities for the estimated term of the obligations. The estimates of future salary increase considered takes into account the inflation, seniority, promotion and other relevant factors. Attrition rate considered is the management's estimate, based on previous years' employee turnover of the Company.

The expected return on plan assets is based on expectation of the average long-term rate of return expected on investments of the fund during the estimated term of the obligations.

Expected future contribution and estimated future benefit payments from the fund are as follows:

For the year ended March 31, 2026	
Expected contribution to the fund during the year ending March 31, 2027	₹ 3,315
Estimated benefit payments from the fund for the year ending March 31:	
2027	₹ 4,101
2028	3,589
2029	3,242
2030	2,977
2031	2,625
Thereafter	18,027
Total	₹ 34,561
For the year ended March 31, 2025	
Expected contribution to the fund during the year ending March 31, 2026	₹ 3,416
Estimated benefit payments from the fund for the year ending March 31:	
2026	₹ 2,715
2027	2,720
2028	2,503
2029	2,281
2030	2,022
Thereafter	15,357
Total	₹ 27,598

The expected benefits are based on the same assumptions used to measure the Company's benefit obligations as at March 31, 2026.

Sensitivity for significant actuarial assumptions is computed to show the movement in defined benefit obligation by 1 percentage.

As at March 31, 2026, every 1 percentage point increase/(decrease) in discount rate will result in (decrease)/increase of defined benefit obligation by approximately ₹ (1,203) and ₹ 1,319, respectively (March 31, 2025: ₹ (985) and ₹ 1,096, respectively).

As at March 31, 2026, every 1 percentage point increase/(decrease) in expected rate of salary will result in increase/(decrease) of defined benefit obligation by approximately ₹ 1,388 and ₹ (1,316), respectively (March 31, 2025: ₹ 1,055 and ₹ (998), respectively).

The sensitivity analysis to significant actuarial assumptions may not be representative of the actual change in the defined benefit obligations as the change in assumptions may not occur in isolation since some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the balance sheet.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

c) Provident fund:

The details of fund and plan assets are given below:

	As at March 31, 2026	As at March 31, 2025
Fair value of plan assets	₹ 133,417	₹ 121,067
Present value of defined benefit obligation	(133,417)	(121,067)
Net shortfall	₹ -	₹ -

The total expense for the years ended March 31, 2026 and 2025 is ₹ 7,058 and ₹ 6,517, respectively.

The plan assets have been invested as per the regulations of Employees' Provident Fund Organisation (EPFO).

The principal assumptions used in determining the present value obligation of interest guarantee under the deterministic approach are as follows:

	As at March 31, 2026	As at March 31, 2025
Discount rate for the term of the obligation	6.50%	6.55%
Weighted Average remaining tenure of investment portfolio	13.81 years	6.71 years
Guaranteed rate of return	8.25%	8.25%

d) Defined contribution plans:

The total expense for the years ended March 31, 2026 and 2025 was ₹ 5,576 and ₹ 5,454, respectively.

26. FINANCE COSTS

	Year ended March 31, 2026	Year ended March 31, 2025
Interest on borrowings	₹ 3,692	₹ 4,058
Interest on lease liabilities	1,072	875
Other finance costs	6,195	5,085
	₹ 10,959	₹ 10,018

27. OTHER EXPENSES

	Year ended March 31, 2026	Year ended March 31, 2025
Rates, taxes and insurance	₹ 3,458	₹ 3,420
Lifetime expected credit loss	2,729	829
Provision for diminution in value of investments in subsidiaries (Refer to Note 8)	(1,554)	359
Miscellaneous expenses/(income), net ⁽¹⁾	606	(2,062)
	₹ 5,239	₹ 2,546

⁽¹⁾ Miscellaneous expenses/(income), net includes an insurance claim received of ₹ 1,805 during the year ended March 31, 2025.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

28. EARNINGS PER EQUITY SHARE

A reconciliation of profit for the year and equity shares used in the computation of basic and diluted earnings per equity share is set out below:

Basic: Basic earnings per equity share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year, excluding equity shares purchased by the Company and held as treasury shares.

	Year ended March 31, 2026	Year ended March 31, 2025
Profit attributable to equity holders of the Company	₹ 121,296	₹ 109,131
Weighted average number of equity shares outstanding	10,476,247,846	10,456,741,552
Basic earnings per equity share	₹ 11.59	₹ 10.44

Diluted: Diluted earnings per equity share is calculated by adjusting the weighted average number of equity shares outstanding during the year for assumed conversion of all dilutive potential equity shares. Employee share options are dilutive potential equity shares for the Company.

The calculation is performed in respect of share options to determine the number of equity shares that could have been acquired at fair value (determined as the average market price of the Company's equity shares during the year). The number of equity shares calculated as above is compared with the number of equity shares that would have been issued assuming the exercise of the share options.

	Year ended March 31, 2026	Year ended March 31, 2025
Profit attributable to equity holders of the Company	₹ 121,296	₹ 109,131
Weighted average number of equity shares outstanding	10,476,247,846	10,456,741,552
Effect of dilutive equivalent share options	27,175,090	32,197,840
Weighted average number of equity shares for diluted earnings per share	10,503,422,936	10,488,939,392
Diluted earnings per equity share	₹ 11.55	₹ 10.40

For the years ended March 31, 2026 and 2025, 1,586,275 and 1,294,623 options, respectively, were excluded from diluted weighted-average number of equity shares calculation because their effect would have been anti-dilutive.

29. DIVIDENDS, BONUS ISSUE AND BUYBACK OF EQUITY SHARES

The Company declares and pays dividends in Indian Rupees. According to the Companies Act, 2013 any dividend should be declared out of accumulated distributable profits. A company may, before the declaration of any dividend, transfer a percentage of its profits for that financial year as it may consider appropriate to the reserves.

The cash dividends paid per equity share were ₹ 11 (₹ 5 declared on July 17, 2025 and ₹ 6 declared on January 16, 2026) and ₹ 6, during the years ended March 31, 2026 and 2025, respectively.

During the year ended March 31, 2025, the Company concluded bonus issue in the ratio of 1:1 i.e. 1 (one) bonus equity share of ₹ 2 each for every 1 (one) fully paid-up equity shares held (including ADS holders) was approved by the shareholders of the Company on November 21, 2024. Subsequently, on December 4, 2024, the Company allotted 5,232,094,402 equity shares (including ADS) to shareholders who held equity shares as on the record date of December 3, 2024. The Company also allotted 1:1 bonus equity share on 1,274,805 equity shares (including ADS) under allotment as on the record date. Consequently, ₹ 10,467 (representing par value of ₹ 2 per share) was transferred from capital redemption reserve, securities premium and retained earnings to the share capital.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

30. ADDITIONAL CAPITAL DISCLOSURES

The key objective of the Company's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Company's focus is on keeping a strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Company.

The Company's goal is to continue to be able to return excess liquidity to shareholders by continuing to distribute annual dividends in future periods. The amount of future dividends/buyback of equity shares will be balanced with efforts to continue to maintain an adequate liquidity status.

The capital structure as at March 31, 2026 and 2025 was as follows:

	Year ended March 31, 2026	Year ended March 31, 2025	% Change
Total equity	₹ 636,797	₹ 634,874	0.3%
<i>As percentage of total capital</i>	<i>88.7%</i>	<i>89.3%</i>	
Current borrowings	₹ 61,500	₹ 60,500	
Current and non-current lease liabilities	19,361	15,791	
Total borrowings and lease liabilities	₹ 80,861	₹ 76,291	6.0%
<i>As percentage of total capital</i>	<i>11.3%</i>	<i>10.7%</i>	
Total capital	₹ 717,658	₹ 711,165	0.9%

Borrowings represent 8.6% and 8.5% of total capital as at March 31, 2026 and 2025, respectively. The Company is not subjected to any externally imposed capital requirements.

31. EMPLOYEE STOCK INCENTIVE PLANS

The stock compensation expense recognised for employee services received during the years ended March 31, 2026 and 2025, were ₹ 3,874 and ₹ 4,838, respectively.

Wipro Equity Reward Trust ("WERT")

In 1984, the Company established a controlled trust called WERT. In previous years, WERT purchased shares of the Company out of funds borrowed from the Company. The Company's Nomination and Remuneration Committee recommends to WERT certain officers and key employees, to whom WERT issues shares from its holdings at nominal price subject to vesting conditions. WERT held 11,905,480 and 11,905,480 treasury shares as of March 31, 2026 and 2025, respectively.

Wipro Employee Restricted Stock Unit Option Plans

A summary of the general terms of grants under restricted stock unit ("RSU") option plans are as follows:

Name of Plan	Number of options reserved under the plan	Range of exercise price
Wipro ADS Restricted Stock Unit Plan (WARSUP 2004 Plan) ⁽¹⁾	174,595,958	U.S.\$ 0.03
Wipro Employee Restricted Stock Unit Plan 2005 (WSRUP 2005 Plan) ⁽¹⁾	96,595,958	₹ 2
Wipro Employee Restricted Stock Unit Plan 2007 (WSRUP 2007 Plan) ⁽¹⁾	67,663,302	₹ 2
Wipro Limited Employee Stock Options, Performance Stock Unit and/or Restricted Stock Unit Scheme 2024 (Wipro 2024 Scheme) ⁽¹⁾	400,000,000	U.S.\$ 0.03/₹ 2

⁽¹⁾ The maximum contractual term of these RSU option plans is perpetual until the options are available for grant under the plan.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Employees covered under the RSU options plans are granted an option to purchase shares of the Company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest in tranches over a period of one to three years from the date of grant. Upon vesting, the employees can acquire one equity share for every option and can exercise within a period of twelve months from the vesting date of last tranche under the grant.

The activity in equity-settled RSU option plans is summarised below:

	Range of exercise price and Weighted average exercise price	Year ended March 31, 2026	Year ended March 31, 2025
		Number of options	Number of options
Outstanding at the beginning of the year	₹ 2 U.S.\$ 0.03	18,634,747 36,956,579	7,735,669 18,851,226
Bonus on outstanding (Refer to Note 29)	₹ 2 U.S.\$ 0.03	- -	10,749,111 22,882,839
Granted	₹ 2 U.S.\$ 0.03	10,617,130 23,259,750	5,513,469 15,030,302
Adjustment of Performance based stock options on completion of performance measurement period	₹ 2 U.S.\$ 0.03	(1,841,526) (3,986,719)	(331,920) (499,875)
Exercised	₹ 2 U.S.\$ 0.03	(5,293,789) (10,982,620)	(3,731,212) (9,897,384)
Forfeited and expired	₹ 2 U.S.\$ 0.03	(2,771,279) (8,303,933)	(1,300,370) (9,410,529)
Outstanding at the end of the year	₹ 2 U.S.\$ 0.03	19,345,283 36,943,057	18,634,747 36,956,579
Exercisable at the end of the year	₹ 2 U.S.\$ 0.03	2,010,308 1,283,137	1,996,731 1,007,466

The Company has granted below options under RSU and ADS option plans⁽¹⁾:

	Year ended March 31, 2026	Year ended March 31, 2025
Restricted Stock Units (RSU)	6,743,031	3,498,476
Performance based stock options (RSUs)	3,874,099	2,014,993
Total	10,617,130	5,513,469
ADS RSU	14,834,924	9,707,235
Performance based stock options (ADS)	8,424,826	5,323,067
Total	23,259,750	15,030,302

⁽¹⁾ Numbers in above table are not given effect of bonus shares issued during the year ended March 31, 2025.

During the year ended March 31, 2026, RSU and ADS grants were issued under Wipro 2024 Scheme. Performance-based stock options will vest based on the performance parameters of the Company.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The activity in cash-settled RSU option plans is summarised below:

	Year ended March 31, 2026	Year ended March 31, 2025
	Number of options	Number of options
Outstanding at the beginning of the year	-	7,000
Exercised	-	-
Forfeited and expired	-	(7,000)
Outstanding at the end of the year	-	-
Exercisable at the end of the year	-	-

The following table summarises information about outstanding RSU option plans:

Range of exercise price and Weighted average exercise price	As at March 31, 2026		As at March 31, 2025	
	Number of options	Weighted average remaining life (months)	Number of options	Weighted average remaining life (months)
₹ 2	19,345,283	16	18,634,747	18
U.S.\$ 0.03	36,943,057	18	36,956,579	19

The weighted-average grant-date fair value of options granted during the years ended March 31, 2026, and 2025 was ₹ 249.40 and ₹ 454.58 for each option, respectively. The weighted average share price of options exercised during the years ended March 31, 2026 and 2025 was ₹ 246.01 and ₹ 389.52 for each option, respectively.

⁽¹⁾ Debt consists of borrowings and lease liabilities.

⁽²⁾ Profit for the year, adjusted for non cash operating expenses, finance costs and other expenses such as provision for diminution in value of investments in subsidiaries and loss on sale of property, plant and equipment.

⁽³⁾ Debt service consists of gross repayment of borrowings, lease liabilities and interest and finance costs paid.

⁽⁴⁾ Capital employed consists of tangible net worth, borrowings, lease liabilities and deferred tax liabilities.

⁽⁵⁾ Increase in inventory turnover ratio is due to increase in product revenue during the year ended March 31, 2026

34. COMMITMENTS AND CONTINGENCIES

Capital commitments: As at March 31, 2026 and 2025, the Company had committed to spend approximately ₹ 8,990 and ₹ 8,266, respectively, under agreements to purchase/construct property and equipment. These amounts are net of capital advances paid in respect of these purchases. Refer to Note 8 for uncalled capital commitments on investment in equity instruments.

Contingent liabilities to the extent not provided for:

	As at March 31, 2026	As at March 31, 2025
Guarantees given by the banks on behalf of the Company	₹ 10,197	₹ 10,472
Guarantees given by the Company on behalf of subsidiaries	74,635	67,300

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Contingencies and lawsuits:

The Company is subject to legal proceedings and claims resulting from tax assessment orders/penalty notices issued under the Income Tax Act, 1961, which have arisen in the ordinary course of its business. Some of the claims involve complex issues and it is not possible to make a reasonable estimate of the expected financial effect, if any, that will result from ultimate resolution of such proceedings. However, the resolution of these legal proceedings is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

The Company's assessments are completed for the years up to March 31, 2022. The Company has received demands on multiple tax issues. These claims are primarily arising out of denial of deduction under section 10A of the Income Tax Act, 1961 in respect of profit earned by the Company's undertaking in Software Technology Park at Bengaluru, the appeals filed against the said demand before the appellate authorities have been allowed in favor of the Company by the second appellate authority for the years up to March 31, 2008 which either has been or may be contested by the Income tax authorities before the Supreme Court of India. Other claims relate to disallowance of tax benefits on profits earned from Software Technology Park and Special Economic Zone units, capitalisation of research and development expenses, transfer pricing adjustments on intercompany/inter unit transactions and other issues.

Income tax claims against the Company amounting to ₹ 103,344 and ₹ 99,291 are not acknowledged as debt as at March 31, 2026 and 2025, respectively. These matters are pending before various appellate authorities and the management expects its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The contingent liability in respect of disputed demands for excise duty, custom duty, sales tax and other matters amounting to ₹ 20,447 and ₹ 19,292 as of March 31, 2026 and 2025, respectively. However, the resolution of these disputed demands is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

35. CORPORATE SOCIAL RESPONSIBILITY

- Gross amount required to be spent by the Company is ₹ 2,042 and ₹ 1,973 for the years ended March 31, 2026 and 2025, respectively.
- Amount spent during the year on:

	For the year ended March 31, 2026		
	In Cash	Yet to be paid in Cash	Total
(i) Construction/acquisition of any asset	₹ -	₹ -	₹ -
(ii) On purposes other than above (i) above	2,238	36	2,274
Total amount spent during the year	₹ 2,238	₹ 36	₹ 2,274

	For the year ended March 31, 2025		
	In Cash	Yet to be paid in Cash	Total
(i) Construction/acquisition of any asset	₹ -	₹ -	₹ -
(ii) On purposes other than above (i) above	2,009	46	2,055
Total amount spent during the year	₹ 2,009	₹ 46	₹ 2,055

During the years ended March 31, 2026 and 2025, the Company contributed ₹ 513 and ₹ 416 respectively, to Wipro Foundation a trust controlled by the Company.

There is no shortfall out of the amount required to be spent by the Company during the years ended March 31, 2026 and 2025.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The nature of corporate social responsibility activities undertaken by the Company for the years ended March 31, 2026 and 2025 includes systemic reforms in education, access to education for the under privileged as well as children with disabilities, sustainability education, higher education skill building, sustainability initiatives and healthcare.

36. PAYMENTS TO THE AUDITOR

	Year ended March 31, 2026	Year ended March 31, 2025
Auditors' remuneration		
Audit fees	₹ 102	₹ 99
Other services	26	28
Out of pocket expenses	8	8
	₹ 136	₹ 135

37. SEGMENT INFORMATION

The Company publishes these standalone financial statements along with the consolidated financial statements. In accordance with Ind AS 108, Operating Segments, the Company has disclosed the segment information in the consolidated financial statements.

- 38.** Vide its order dated June 06, 2025, the Hon'ble National Company Law Tribunal, Bengaluru bench, approved the scheme of amalgamation for the merger of wholly owned subsidiaries Wipro HR Services India Private Limited, Wipro Overseas IT Services Private Limited, Wipro Technology Product Services Private Limited, Wipro Trademarks Holding Limited and Wipro VLSI Design Services India Private Limited with Wipro Limited. As per the said scheme, the appointed date is April 1, 2025. The Scheme has been accounted for under the "Pooling of Interests Method" as prescribed under Appendix C of Ind AS 103, "Business Combinations" as per the terms of the court order. Prior period numbers have been restated to give effect as if this merger had occurred from the beginning of the preceding period in the financial statements i.e. April 1, 2024.

Accordingly, the carrying value of assets, liabilities and reserves pertaining to these entities as appearing in the consolidated financials statements of Wipro Limited has been recognised in the standalone financial statements of Wipro Limited on account of merger effective April 1, 2024.

- 39.** On November 21, 2025, the Government of India notified four labour codes (the "Labour Codes"), effective immediately, replacing the existing 29 labour laws. In accordance with Ind AS 19, employee benefits and changes to employee benefit plans arising from legislative amendments are treated as plan amendments, requiring immediate recognition of past service cost in the Statement of Profit and Loss. This approach is consistent with the guidance issued by the Institute of Chartered Accountants of India.

The Company has concluded the salary restructuring exercise in compliance with the Labour Codes. The implementation of the Labour Codes has resulted in a net increase of ₹ 2,562 in the provision for gratuity and remeasurement of leave encashment, which has been recognised as employee benefit expense in the current year. The Company continues to monitor the finalisation of Central and State Rules, as well as Government clarifications on other aspects of the Labour Codes.

Notes to the Standalone Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

40. EVENTS AFTER THE REPORTING PERIOD

On April 16, 2026, the Company's Board of Directors approved a proposal to buyback of equity shares, subject to the approval of shareholders, for purchase by the Company of up to 600,000,000 equity shares of ₹ 2 each (being 5.7% of total number of equity shares) from the shareholders of the Company on a proportionate basis by way of a tender offer at a price of ₹ 250 per equity share for an aggregate amount not exceeding ₹ 150,000, in accordance with the provisions contained in the SEBI (Buy-back of Securities) Regulations, 2018, as amended and the Companies Act, 2013 and rules made thereunder. This proposal was approved by the shareholders of the Company by way of a special resolution dated May 21, 2026, passed through postal ballot by e-voting.

Independent Auditor's Report •

To The Members of Wipro Limited Report on the Audit of the Consolidated Financial Statements

OPINION

We have audited the accompanying Consolidated Financial Statements of Wipro Limited (the “Company”) and its subsidiaries, (the Company and its subsidiaries together referred to as the “Group”) which comprise the Consolidated Balance Sheet as at March 31, 2026, and the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year ended on that date, and notes to the financial statements, including a summary of material accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Consolidated Financial Statements give the information required by the Companies Act, 2013 (the “Act”) in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act, of the consolidated state of affairs of the Group as at March 31, 2026, and its consolidated profit, consolidated other comprehensive income, consolidated changes in equity and consolidated cash flows for the year ended on that date.

BASIS FOR OPINION

We conducted our audit of the Consolidated Financial Statements in accordance with the Standards on Auditing (“SA”)s specified under section 143 (10) of the Act. Our responsibilities under those Standards are further described in the Auditor’s Responsibility for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (“ICAI”) together with the ethical requirements that are relevant to our audit of the Consolidated Financial Statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI’s Code of Ethics. We believe that the audit evidence obtained by us is sufficient and appropriate to provide a basis for our audit opinion on the Consolidated Financial Statements.

KEY AUDIT MATTER

Key audit matter is a matter that, in our professional judgment, is of most significance in our audit of the Consolidated Financial Statements of the current period. This matter was addressed in the context of our audit of the Consolidated Financial Statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. We have determined the matter described below to be the key audit matter to be communicated in our report.

Revenue from fixed-price contracts using the percentage-of-completion method - Refer Notes 2 (iii)(a), 3(xiv)B(i) and 22 to the Consolidated Financial Statements.

Key Audit Matter Description

Revenue from fixed-price contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, is recognized using the percentage-of-completion method.

Use of the percentage-of-completion method requires the Group to determine the project costs incurred to date as a percentage of total estimated project costs at completion. The estimation of total project costs involves significant judgement and is assessed throughout the period of the contract to reflect any changes based on the latest available information. In addition, provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the total estimated project costs.

We identified the revenue recognition for fixed-price contracts where the percentage-of-completion method is used as a key audit matter because of the significant judgement involved in estimating the efforts to complete such contracts.

This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts incurred to-date and estimates of efforts required to complete the remaining performance obligations.

This required a high degree of auditor judgment in evaluating the audit evidence supporting estimated efforts to complete and a higher extent of audit effort to evaluate the reasonableness of the total estimated efforts used to recognise revenue from fixed-price contracts using the percentage-of-completion method.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to estimates of efforts to complete for fixed-price contracts accounted using the percentage-of-completion method included the following, among others:

- We tested the effectiveness of controls relating to (1) recording of efforts incurred and estimation of efforts required to complete the remaining performance obligations, and (2) access and application controls pertaining to time recording and allocation systems, which prevents unauthorised changes to recording of efforts incurred.

- We selected a sample of fixed-price contracts with customers accounted using percentage-of-completion method and performed the following:
- Read the contract and based on the terms and conditions evaluated whether recognizing revenue over time using percentage-of-completion method was appropriate, and confirmed that the contract was included in management's calculation of revenue over time.
- Evaluated the appropriateness of and consistency in the application of management's policies and methodologies to estimate progress towards satisfying the performance obligation.
- Compared efforts incurred to date with Company's estimate of efforts incurred to date to identify significant variations and evaluate whether those variations have been considered appropriately in estimating the remaining efforts to complete the contract.
- Tested the estimate for consistency with the status of delivery of milestones, customer acceptances and other related information to identify possible delays in achieving milestones, which require changes in estimated efforts to complete the remaining performance obligations.

INFORMATION OTHER THAN THE FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

- The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's report including Annexures to Board's report, Business Responsibility and Sustainability Report and Corporate Governance Report, but does not include the Consolidated Financial Statements, standalone financial statements and our auditor's report thereon.
- Our opinion on the Consolidated Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.
- In connection with our audit of the Consolidated Financial Statements, our responsibility is to read the other information and consider whether the other information is materially inconsistent with the Consolidated Financial Statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

- If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF MANAGEMENT AND BOARD OF DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these consolidated financial statements that give a true and fair view of the consolidated financial position, consolidated financial performance including other comprehensive income, consolidated changes in equity and consolidated cash flows of the Group in accordance with the accounting principles generally accepted in India, including Ind AS specified under section 133 of the Act. The respective Board of Directors of the companies included in the Group are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the Consolidated Financial Statements by the Directors of the Company, as aforesaid.

In preparing the Consolidated Financial Statements, the respective Management and Board of Directors of the companies included in the Group are responsible for assessing the ability of the respective entities to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the respective Board of Directors either intend to liquidate their respective entities or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Group are also responsible for overseeing the financial reporting process of the Group.

AUDITOR'S RESPONSIBILITY FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the Consolidated Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company and its subsidiary companies incorporated in India, has adequate internal financial controls with reference to Consolidated Financial Statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group to

continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Consolidated Financial Statements, including the disclosures, and whether the Consolidated Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Consolidated Financial Statements.

Materiality is the magnitude of misstatements in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Consolidated Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the Consolidated Financial Statements.

We communicate with those charged with governance of the Company and such other entities included in the Consolidated Financial Statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal financial controls that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated Financial

Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

1. As required by Section 143(3) of the Act, based on our audit we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit of the aforesaid Consolidated Financial Statements.
 - b) In our opinion, proper books of account as required by law relating to preparation of the aforesaid Consolidated Financial Statements have been kept so far as it appears from our examination of those books.
 - c) The Consolidated Balance Sheet, the Consolidated Statement of Profit and Loss including Other Comprehensive Income, the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows dealt with by this Report are in agreement with the relevant books of account maintained for the purpose of preparation of the Consolidated Financial Statements.
 - d) In our opinion, the aforesaid Consolidated Financial Statements comply with the Ind AS specified under Section 133 of the Act.
 - e) On the basis of the written representations received from the directors of the Company as on March 31, 2026 taken on record by the Board of Directors of the Company and the reports of the statutory auditors of its subsidiary companies incorporated in India, none of the directors of the Group companies incorporated in India is disqualified as on March 31, 2026 from being appointed as a director in terms of Section 164 (2) of the Act.

- f) With respect to the adequacy of the internal financial controls with reference to Consolidated Financial Statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure A" which is based on the auditors' reports of the company and its subsidiary companies, incorporated in India. Our report expresses an unmodified opinion on the adequacy and operating effectiveness of internal financial controls with reference to Consolidated Financial Statements of those companies.
- g) With respect to the other matters to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended, in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act.
- h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i) The Consolidated Financial Statements disclose the impact of pending litigations on the consolidated financial position of the Group - Refer Note 34 to the Consolidated Financial Statements;
 - ii) Provision has been made in the Consolidated Financial Statements, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts - Refer Note 19 to the Consolidated Financial Statements;
 - iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company and its subsidiary companies incorporated in India.
 - iv) (a) The respective Managements of the Company and its subsidiaries, which are companies incorporated in India,

whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company or any of such subsidiaries or in any other person or entity, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company or any of such subsidiaries ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- (b) The respective Managements of the Company and its subsidiaries which are companies incorporated in India, whose financial statements have been audited under the Act, have represented to us that, to the best of their knowledge and belief, no funds have been received by the Company or any of such subsidiaries from any person or entity, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company or any of such subsidiaries shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.
- (c) Based on the audit procedures performed that have been considered reasonable and appropriate in the circumstances performed by us on the Company and that performed by the auditors of the subsidiaries which are

companies incorporated in India whose financial statements have been audited under the Act, nothing has come to our or other auditor's notice that has caused us or the other auditors to believe that the representations under sub-clause (i) and (ii) of Rule 11(e), as provided under (a) and (b) above, contain any material misstatement.

- v) The interim dividends declared and paid by the Company during the year is in accordance with section 123 of the Act, as applicable.
- vi) Based on our examination which included test checks and that performed by the respective auditors of the subsidiaries and based on the other auditor's reports of its subsidiary companies incorporated in India whose financial statements have been audited under the Act, the Company, its subsidiary companies incorporated in India have used accounting software systems for maintaining their respective books of account for the financial year ended March 31, 2026 which have the feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software systems. Further, during the course of audit, we and respective other auditors, whose reports have been furnished to us by the Management of the Company, have not come

across any instance of the audit trail feature being tampered with. Additionally, the audit trail has been preserved by the Company and above referred subsidiary companies incorporated in India as per the statutory requirements for record retention.

- 2. With respect to the matters specified in clause (xxi) of paragraph 3 and paragraph 4 of the Companies (Auditor's Report) Order, 2020 ("CARO"/ "the Order") issued by the Central Government in terms of Section 143(11) of the Act, according to the information and explanations given to us, and based on the CARO reports issued by us and the auditors of respective companies included in the Consolidated Financial Statements to which reporting under CARO is applicable, as provided to us by the Management of the Company, we report that there are no qualifications or adverse remarks by the respective auditors in the CARO reports of the said companies included in the Consolidated Financial Statements.

Annexure “A” to the Independent Auditor’s Report

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report of even date)

REPORT ON THE INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS UNDER CLAUSE (I) OF SUB-SECTION 3 OF SECTION 143 OF THE COMPANIES ACT, 2013 (THE “ACT”)

In conjunction with our audit of the consolidated Ind AS financial statements of the Company as at and for the year ended March 31, 2026, we have audited the internal financial controls with reference to Consolidated Financial Statements of Wipro Limited (hereinafter referred to as “the Company”) and its subsidiary companies which are companies incorporated in India as of that date.

MANAGEMENT’S AND BOARD OF DIRECTORS’ RESPONSIBILITIES FOR INTERNAL FINANCIAL CONTROLS

The respective management and Board of Directors of the Company, and its subsidiary companies, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on the internal control with reference to the financial statements criteria established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

AUDITOR’S RESPONSIBILITY

Our responsibility is to express an opinion on the Company’s internal financial controls with reference to Consolidated Financial Statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing, prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to Consolidated Financial Statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements included obtaining an understanding of internal financial controls with reference to Consolidated Financial Statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Company, its subsidiary companies, which are companies incorporated in India.

MEANING OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

A company's internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

INHERENT LIMITATIONS OF INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO CONSOLIDATED FINANCIAL STATEMENTS

Because of the inherent limitations of internal financial controls with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial control with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

OPINION

In our opinion to the best of our information and according to the explanations given to us, the Company, and its subsidiary companies, which are companies incorporated in India, have, in all material respects, adequate internal financial controls with reference to Consolidated Financial Statements and such internal financial controls with reference to Consolidated Financial Statements were operating effectively as at March 31, 2026, based on the criteria for internal financial control with reference to Consolidated Financial Statements established by the respective companies considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes to the Consolidated Financial Statements •

(₹ in millions, except share and per share data, unless otherwise stated)

1. THE COMPANY OVERVIEW

Wipro Limited ("**Wipro**" or the "**Parent Company**"), together with its subsidiaries and controlled trusts (collectively, "**we**", "**us**", "**our**", "**the Company**" or "**the Group**") is a leading artificial intelligence ("**AI**") powered technology services and consulting company focused on building innovative solutions that address clients' most complex digital transformation needs. Leveraging our consulting-led approach and the Wipro Intelligence™ unified suite of AI-powered platforms, solutions and transformative offerings, we help clients realise their boldest ambitions to build intelligent and sustainable businesses.

Wipro is a public limited company incorporated and domiciled in India. The address of its registered office is Wipro Limited, Doddakannelli, Sarjapur Road, Bengaluru – 560 035, Karnataka, India. The Company has its primary listing with BSE Ltd. and National Stock Exchange of India Limited. The Company's American Depository Shares ("**ADS**") representing equity shares are also listed on the New York Stock Exchange.

The Company's Board of Directors authorised these consolidated financial statements for issue on June 2, 2026.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

(i) Statement of compliance and basis of preparation

The consolidated financial statements have been prepared in compliance with Indian Accounting Standards ("**Ind AS**"), the provisions of Schedule III to the Companies Act, 2013 ("**the Companies Act**"), as applicable and guidelines issued by the Securities and Exchange Board of India ("**SEBI**"). The Ind AS are prescribed under Section 133 of the Companies Act read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and amendments issued thereafter. All accounting policies have been consistently applied to all periods presented in these financial statements, except for the adoption of new accounting standards, amendments and interpretations effective from April 1, 2025.

The consolidated financial statements correspond to the classification provisions contained in Ind AS 1, "Presentation of Financial Statements". For clarity, various items are aggregated in the consolidated statement of profit and loss and consolidated balance sheet. These items are disaggregated separately in the notes to the consolidated financial statements, where applicable.

The assets which are expected to be realised within a period of twelve months from the end of reporting period are classified as current assets. Similarly, the liabilities which are expected to be settled within a period of twelve months from the end of reporting period are classified as current liabilities. All other assets and liabilities are classified as non-current.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

All amounts included in the consolidated financial statements are reported in millions of Indian Rupees (₹ in millions) except share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures. Previous year figures have been regrouped/rearranged, wherever necessary.

(ii) Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items which have been measured at fair value as required by relevant Ind AS:

- a. Derivative financial instruments;
- b. Financial instruments classified as fair value through other comprehensive income or fair value through profit or loss;
- c. The defined benefit liability/(asset) is recognised as the present value of defined benefit obligation less fair value of plan assets; and
- d. Contingent consideration and liability on written put options.

(iii) Use of estimates and judgement

The preparation of the consolidated financial statements in conformity with Ind AS requires the management to make judgements, accounting estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Accounting estimates are monetary amounts in the consolidated financial statements that are subject to measurement uncertainty. An accounting policy may require items in consolidated financial statements to be measured at monetary amounts that cannot be observed directly and must instead be estimated. In such a case, management develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgements or assumptions based on the latest available and reliable information. Actual results may differ from those accounting estimates.

Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Changes to accounting estimates are recognised in the period in which the estimates are changed and in any future periods affected. In particular, information about material areas of estimation, uncertainty and critical judgements in applying accounting policies that have the material effect on the amounts recognised in the consolidated financial statements are included in the following notes:

- a) **Revenue recognition:** The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and is distinct in the context of the contract, if not, the promised product or service is combined and accounted as a single performance obligation. The Company allocates the Transaction Price (as defined below in Note 3(xiv)) to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. In cases where the Company is unable to determine the stand-alone selling price the Company uses expected cost-plus margin approach in estimating the stand-alone selling price. The Company uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable. Volume discounts are recorded as a reduction of revenue. When the amount of discount varies with the levels of revenue, volume discount is recorded based on estimate of future revenue from the customer.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

- b) Impairment testing:** Goodwill recognised on business combination is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of goodwill or a cash generating unit to which goodwill pertains, is less than the carrying value. The Company assesses acquired intangible assets with finite useful life for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount of an asset or a cash generating unit is higher of value-in-use and fair value less cost of disposal. The calculation of value-in-use of an asset or a cash generating unit involves use of significant estimates and assumptions which include turnover, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.

- c) Income taxes:** The major tax jurisdictions for the Company are India and the United States.

Significant judgements are involved in determining the provision for income taxes including judgement on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers expected reversal of deferred tax liabilities and projected future taxable income in making this assessment. The amount of deferred tax assets considered realisable, however, could reduce in the near term if estimates of future taxable income during the carry-forward period are reduced.

- d) Business combinations:** In accounting for business combinations, judgement is required to assess whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities assumed, and contingent consideration assumed involves management judgement. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgements, estimates, and assumptions can materially affect the results of operations.

- e) Defined benefit plans and compensated absences:** The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

- f) Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgement in making these assumptions and selecting the inputs to the expected credit loss calculation based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward-looking estimates at the end of each reporting period.

- g) Useful lives of property, plant and equipment:** The Company depreciates property, plant and equipment on a straight-line basis over estimated useful lives of the assets. The charge in respect

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

of periodic depreciation is derived based on an estimate of an asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The estimated useful life is reviewed at least annually.

- h) Provisions and contingent liabilities:** The Company estimates the provisions that have present obligations as a result of past events, and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting date and are adjusted to reflect the current best estimates.

The Company uses significant judgement to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognised nor disclosed in the financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

(i) Basis of consolidation

Subsidiaries and controlled trusts

The Company determines the basis of control in line with the requirements of Ind AS 110, Consolidated Financial Statements. Subsidiaries and controlled trusts are entities controlled by the Group. The Group controls an entity when the parent has power over the entity, it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries and controlled trusts are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and all intra-Group balances, transactions, income and expenses are eliminated in full on consolidation.

Non-controlling interests

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Company's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interest's proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition to acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interest's share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interests having a deficit balance.

Liability for written put options to non-controlling interests

At initial recognition, the liability for put options issued to non-controlling interests, to be settled in cash by the Company, which do not grant present access to ownership interest to the Company is recognised as financial liability at present value of the redemption amount with a corresponding debit in other components of equity.

The liability is subsequently remeasured at the end of each period and accreted through financial expenses up to the redemption amount that is payable at the date at which the option first becomes exercisable. In the event that the option expires unexercised, the liabilities is derecognised with a corresponding adjustment to equity.

Investments accounted for using the equity method

Investments accounted for using the equity method are entities in respect of which, the Company has significant influence, but not control, over the financial and operating policies. Generally, a company has a significant influence

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

if it holds between 20% and 50% of the voting power of another entity. Investments in such entities are accounted for using the equity method and are initially recognised at cost. The carrying amount of investment is increased/ decreased to recognise investors share of profit or loss of the investee after the acquisition date.

(ii) Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). These consolidated financial statements are presented in Indian Rupees, which is the functional currency of the Parent Company.

(iii) Foreign currency transactions and translation

a) Transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/(losses), net, within results of operating activities except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges. Net loss relating to translation or settlement of borrowings denominated in foreign currency are reported within finance costs. Net gain relating to translation or settlement of borrowings denominated in foreign currency are reported within other income. Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Translation differences on non-monetary financial assets measured at fair value at the reporting date, such as

equities classified as financial instruments measured at fair value through other comprehensive income are included in other comprehensive income, net of taxes.

b) Foreign operations

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than Indian Rupees are translated into Indian Rupees using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognised in other comprehensive income and held in foreign currency translation reserve ("FCTR"), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest. When a foreign operation is disposed of, the relevant amount recognised in FCTR is transferred to the consolidated statement of profit and loss as part of the profit or loss on disposal. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate prevailing at the reporting date.

c) Others

Foreign currency differences arising on the translation or settlement of a financial liability designated as a hedge of a net investment in a foreign operation are recognised in other comprehensive income and presented within equity in the FCTR to the extent the hedge is effective. To the extent the hedge is ineffective, such differences are recognised in the consolidated statement of profit and loss.

When the hedged part of a net investment is disposed of, the relevant amount recognised in FCTR is transferred to the consolidated statement of profit and loss as part of the profit or loss on disposal. Foreign currency differences arising from translation of intercompany receivables or payables relating to foreign operations, the settlement of which is neither planned nor likely in the foreseeable future,

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

are considered to form part of net investment in foreign operation and are recognised in FCTR.

(iv) Financial instruments

A) Non-derivative financial instruments:

Non-derivative financial instruments consist of:

- financial assets, which include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, investments in equity and debt securities and eligible current and non-current assets; and
- financial liabilities, which include long-term and short-term borrowings, trade payables, lease liabilities and eligible current and non-current liabilities.

Non-derivative financial instruments other than trade receivables and unbilled receivables are recognised initially at fair value. Trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price. Subsequent to initial recognition, non-derivative financial instruments are measured as described below:

a. Cash and cash equivalents

The Company's cash and cash equivalents consist of cash on hand and in banks and demand deposits with banks, which can be withdrawn at any time, without prior notice or penalty on the principal.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the consolidated balance sheet, bank overdrafts are presented under borrowings within current financial liabilities.

b. Investments

Financial instruments measured at amortised cost:

Debt instruments that meet the following criteria are measured at amortised cost (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI"):

Debt instruments that meet the following criteria are measured at FVTOCI (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Interest income is recognised in the consolidated statement of profit and loss for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognised in other comprehensive income. When the investment is disposed of, the cumulative gain or loss previously accumulated in reserves is transferred to the consolidated statement of profit and loss.

Financial instruments measured at fair value through profit or loss ("FVTPL"):

Instruments that do not meet the amortised cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognised in consolidated statement of profit and loss. The gain or loss on disposal is recognised in the consolidated statement of profit and loss.

Interest income is recognised in the consolidated statement of profit and loss for FVTPL debt instruments. Dividends on financial assets at FVTPL is recognised when the Company's right to receive dividends is established.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Investments in equity instruments:

The Company carries certain equity instruments which are not held for trading. At initial recognition, the Company may make an irrevocable election to present subsequent changes in the fair value of an investment in an equity instrument in other comprehensive income (FVTOCI) or through statement of profit and loss (FVTPL). For investments designated to be classified as FVTOCI, movements in fair value of investments are recognised in other comprehensive income and the gain or loss is not transferred to consolidated statement of profit and loss on disposal of investments. For investments designated to be classified as FVTPL, both movements in fair value of investments and gain or loss on disposal of investments are recognised in the consolidated statement of profit and loss.

Dividends from these investments are recognised in the consolidated statement of profit and loss when the Company's right to receive dividends is established.

When the investment in equity instruments is derecognised, the cumulative gain or loss in other comprehensive income is transferred to retained earnings.

c. Other financial assets:

Other financial assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These comprise trade receivables, unbilled receivables, finance lease receivables, employee and other advances and eligible current and non-current assets. They are presented as current assets, except for those expected to be realised later than twelve months after the reporting date which are presented as non-current assets. All financial assets are initially recognised at fair value and subsequently measured at amortised cost using the effective interest method, less any impairment losses. However, trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price.

d. Trade payables and other liabilities:

Trade payables and other liabilities are initially recognised at the transaction price, and subsequently carried at amortised cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short-term maturity of these instruments. Contingent consideration recognised in a business combination is initially recognised at fair value and subsequently measured at fair value through profit or loss.

B) Derivative financial instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities, net investment in foreign operations and forecasted cash flows denominated in foreign currency.

The Company limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives. The Company enters into derivative financial instruments where the counterparty is primarily a bank.

Derivative financial instruments are recognised and measured at fair value. Attributable transaction costs are recognised in the consolidated statement of profit and loss as cost.

Subsequent to initial recognition, derivative financial instruments are measured as described below:

a. Cash flow hedges

Changes in the fair value of the derivative hedging instruments designated as a cash flow hedge are recognised in other comprehensive income and held in cash flow hedging reserve, net of taxes, a component of equity, to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/(losses), net within results from operating activities. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognised in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognised in the cash flow hedging reserve is transferred to the consolidated statement of profit and loss upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, such cumulative balance is immediately recognised in the consolidated statement of profit and loss.

b. Hedges of net investment in foreign operations

The Company designates derivative financial instruments as hedges of net investments in foreign operations. The Company also designates foreign currency denominated borrowing as a hedge of net investment in foreign operations. Changes in the fair value of the derivative hedging instruments and gains/(losses) on translation or settlement of foreign currency denominated borrowings designated as a hedge of net investment in foreign operations are recognised in other comprehensive income and presented within equity in the FCTR to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/(losses), net within results from operating activities.

c. Others

Changes in fair value of foreign currency derivative instruments neither designated as cash flow hedges nor hedges of net investment in foreign operations are recognised in the consolidated statement of profit and loss and reported within foreign exchange gains/(losses), net within results from operating activities. Changes in fair value and gains/(losses), net, on settlement of foreign currency derivative instruments relating to borrowings, which have not been designated as hedges are recorded in finance costs.

c) Derecognition of financial instruments

The Company derecognises a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under Ind AS 109. If the Company retains substantially all the risks and rewards of a transferred financial asset, the Company continues to recognise the financial asset and recognises a borrowing for the proceeds received. A financial liability (or a part of a financial liability) is derecognised from the Company's consolidated balance sheet when the obligation specified in the contract is discharged or cancelled or expires.

(v) Equity and share capital

a) Share capital and Securities premium

The authorised share capital of the Company as at March 31, 2026 is ₹ 25,352 divided into 12,543,500,000 equity shares of ₹ 2 each, 25,000,000 preference shares of ₹ 10 each and 150,000 10% optionally convertible cumulative preference shares of ₹ 100 each. Par value of the equity shares is recorded as share capital and the amount received in excess of par value is classified as Securities premium.

Every holder of equity shares, as reflected in the records of the Company as at the date of the shareholder meeting shall have one vote in respect of each share held for all matters submitted to vote in the shareholder meeting.

b) Shares held by controlled trust (Treasury shares)

The Company's equity shares held by the controlled trust, which is consolidated as part of the Group are classified as treasury shares. The Company has 11,905,480 and 11,905,480 treasury shares as at March 31, 2026 and 2025, respectively. Treasury shares are recorded at acquisition cost.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

c) Retained earnings

Retained earnings is comprised of the Company's undistributed earnings after taxes and is freely available for distribution.

d) Capital Reserve

Capital reserve amounting to ₹ 1,139 and ₹ 1,139 as of March 31, 2026 and 2025, respectively is not freely available for distribution.

e) Capital Redemption Reserve

As per the Companies Act, 2013, capital redemption reserve is created when a company purchases its own shares out of free reserves or securities premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve can be utilised in accordance with the provisions of Section 69 of the Companies Act, 2013. Capital redemption reserve amounting to ₹ 13 and ₹ 13 as of March 31, 2026 and 2025, respectively is not freely available for distribution.

f) Share options outstanding account

The Share options outstanding account is used to record the value of equity-settled share-based payment transactions with employees. The amounts recorded in share options outstanding account are transferred to securities premium upon exercise of stock options and restricted stock unit options by employees.

g) Special Economic Zone re-investment reserve

The Special Economic Zone ("SEZ") re-investment reserve has been created out of profit of eligible Special Economic Zone units as per provisions of section 10AA(1)(ii) of the Income-tax Act, 1961 for acquiring new plant and machinery. The said reserve should be utilised by the Company for acquiring plant and machinery as per the terms of Section 10AA(2) of the Income-tax Act, 1961. This reserve is not freely available for distribution.

h) Foreign currency translation reserve

The exchange differences arising from the translation of financial statements of foreign subsidiaries, differences arising from translation of long-term inter-company receivables or payables relating to foreign operations, settlement of which is neither planned nor likely in the foreseeable future, changes in fair value of the derivative hedging instruments and gains/losses on translation or settlement of foreign currency denominated borrowings designated as hedge of net investment in foreign operations are recognised in other comprehensive income, net of taxes and presented within equity in the FCTR.

i) Cash flow hedging reserve

Changes in fair value of derivative hedging instruments designated and effective as a cash flow hedge are recognised in other comprehensive income, net of taxes, and presented within equity as cash flow hedging reserve.

j) Others

Changes in the fair value of financial instruments (debt or equity) measured at fair value through other comprehensive income is recognised in other comprehensive income, net of taxes and presented within investment in debt instruments measured at fair value through OCI or investment in equity instruments measured at fair value through OCI.

Actuarial gains and losses on remeasurements of the defined benefit plans are recognised in other comprehensive income, net of taxes and presented within equity in remeasurement of the defined benefit plans.

k) Dividend

A final dividend on equity shares is recorded as a liability on the date of approval by the shareholders. An interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

l) Buyback of equity shares

The buyback of equity shares, including tax thereon and related transaction costs are recorded as a reduction of securities premium and retained earnings. Further, capital redemption reserve is created as an apportionment from retained earnings.

m) Bonus issue

For the purpose of bonus issue, the amount is transferred from capital redemption reserves, securities premium and retained earnings to the share capital.

(vi) Property, plant and equipment

a) Recognition, measurement and de-recognition

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalised as part of the cost till all the activities necessary to prepare the qualifying asset for its intended use or sale are substantially completed. The cost and related accumulated depreciation are derecognised upon sale and disposition of the asset and the resultant gains or losses are recognised in the consolidated statement of profit and loss.

Capital work-in-progress are measured at cost less accumulated impairment losses, if any.

b) Depreciation

The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Leasehold improvements are amortised over the shorter of estimated useful life of the asset or the related lease term. Term licenses are amortised over their respective contract term. Freehold land is not depreciated. The estimated useful life of assets is reviewed and where

appropriate are adjusted, annually. The estimated useful lives of assets are as follows:

Category	Useful life
Buildings	28 to 40 years
Plant and equipment	5 to 21 years
Computer equipment and software	2 to 7 years
Furniture, fixtures and equipment	5 years
Vehicles	4 to 5 years

The Company believes that the technically evaluated useful lives, different from Schedule II of the Companies Act, 2013, best represent the period over which these assets are expected to be used.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalised only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Deposits and advances paid towards the acquisition of property, plant and equipment outstanding as at each reporting date is classified as capital advances under other non-current assets and the cost of property, plant and equipment not available for use before such date are disclosed under capital work-in-progress.

(vii) Business combinations, Goodwill and Intangible assets

a) Business combinations

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed, and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Transaction costs incurred in connection with a business acquisition are expensed as incurred.

The cost of an acquisition also includes the fair value of any contingent consideration measured as at the date of acquisition. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognised in the consolidated statement of profit and loss.

b) Goodwill

The excess of the cost of an acquisition over the Company’s share in the fair value of the acquiree’s identifiable assets and liabilities is recognised as goodwill. If the excess is negative, a bargain purchase gain is recognised immediately in equity as capital reserve. Goodwill is measured at cost less accumulated impairment (if any).

Goodwill associated with disposal of an operation that is part of a cash-generating unit is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained, unless some other method better reflects the goodwill associated with the operation disposed of.

c) Intangible assets

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortisation and impairment losses, if any.

The amortisation of an intangible asset with a finite useful life reflects the manner in which the economic benefit is expected to be generated.

The estimated useful life of amortisable intangibles is reviewed and where appropriate is adjusted, annually. The estimated useful lives of the amortisable intangible assets are as follows:

Category	Useful life
Customer-related intangibles	1 to 10 years
Marketing-related intangibles	2.5 to 10 years

Customer-related intangibles includes customer contracts and customer relationships acquired as a part of business combinations. Marketing-related intangibles includes vendor relationships, non-competes and brands acquired as a part of business combinations.

(viii) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under Ind AS 116.

The Company as a lessee

The Company enters into an arrangement for lease of land, buildings, plant and equipment including computer equipment and vehicles. Such arrangements are generally for a fixed period but may have extension or termination options. The Company assesses, whether the contract is, or contains, a lease, at its inception. A contract is considered to contain a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

A contract conveys the right to control the use of an identified asset if the Company has the right to:

- (a) control use of an identified asset,
- (b) obtain substantially all the economic benefits from use of the identified asset, and
- (c) direct the use of the identified asset.

The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

At the commencement of the lease, the Company recognises a right of use (“RoU”) asset at cost and corresponding lease liability, except for leases with term of twelve months or less (“Short-term leases”) and low-value assets. For these Short-term leases and low-value assets, the Company recognises the

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

lease payments as an operating expense on a straight-line basis over the lease term.

The cost of the RoU assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs plus an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the site on which it is located, less any lease incentives received. Subsequently, the RoU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The RoU assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of RoU assets. The estimated useful lives of RoU assets are determined on the same basis as those of property, plant and equipment.

The Company applies Ind AS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets below.

For lease liabilities at the commencement of the lease, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate that the Company would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable in a similar economic environment.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any lease modifications. The Company recognises the amount of the re-measurement of lease liability due to modification as an adjustment to the RoU asset or in consolidated statement of profit and loss, depending upon the nature of modification. Where the carrying amount of the RoU asset is reduced to zero and

there is a further reduction in the measurement of the lease liability, the Company recognises any remaining amount of the re-measurement in the consolidated statement of profit and loss.

Payment of lease liabilities including interests are classified as cash used in financing activities in the consolidated statement of cash flows.

The Company as a lessor

Leases under which the Company is a lessor are classified as a finance or operating lease. Lease contracts where all the risks and rewards are substantially transferred to the lessee, are classified as a finance lease. All other leases are classified as operating lease.

For leases under which the Company is an intermediate lessor, the Company accounts for the head-lease and the sub-lease as two separate contracts. The sub-lease is further classified either as a finance lease or an operating lease by reference to the RoU asset arising from the head-lease.

(ix) Inventories

Inventories are valued at lower of cost and net realisable value, including necessary provision for obsolescence. Cost is determined using the weighted average method.

(x) Impairment

a) Financial assets

The Company applies the expected credit loss model for recognising impairment loss on financial assets measured at amortised cost, debt instruments classified as FVTOCI, trade receivables, unbilled receivables, finance lease receivables and other financial assets. Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive, discounted using the effective interest rate.

Loss allowances for trade receivables, unbilled receivables and finance lease receivables are measured at an amount equal to lifetime expected credit loss. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into account, risk profiling of customers and

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

historical credit loss experience adjusted for forward-looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

b) Non-financial assets

The Company assesses long-lived assets such as property, plant and equipment, RoU assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets.

Goodwill is tested for impairment at least annually at the same time and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The goodwill impairment test is performed at the level of cash-generating unit or groups of cash-generating units which represents the lowest level at which goodwill is monitored for internal management purposes.

The recoverable amount of an asset or cash generating unit is the higher of its fair value less cost of disposal ("FVLCD") and its value-in-use ("VIU"). The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples. If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognised in the consolidated statement of profit and loss.

If at the reporting date, there is an indication that a previously assessed impairment loss on property, plant and equipment, RoU assets and intangible assets, no longer exists, the recoverable amount is reassessed and the impairment losses previously recognised are reversed such that the asset is recognised at its recoverable amount but not

exceeding written down value which would have been reported if the impairment losses had not been recognised initially. An impairment loss in respect of goodwill is not reversed subsequently.

(xi) Employee benefits

a) Post-employment plans

The Group participates in various employee benefit plans. Pensions and other post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's sole obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks are borne by the employee. The expenditure for defined contribution plans is recognised as an expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks are borne by the Company. The present value of the defined benefit obligations is calculated by an independent actuary using the projected unit credit method.

Remeasurements of the defined benefit plans, comprising actuarial gains or losses, the effect of changes to the asset ceiling, and the return on plan assets (excluding interest) are immediately recognised in other comprehensive income, net of taxes and not reclassified to profit or loss in subsequent period.

Net interest recognised in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate, is recognised as part of remeasurements of the defined benefit plans through other comprehensive income, net of taxes.

Past service cost, both vested and unvested, is recognised as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(b) when the entity recognises related restructuring costs or termination benefits.

The Company has the following employee benefit plans:

A. Provident fund

Eligible employees receive benefits under the Company's provident fund plan, into which both the employer and employees make periodic contributions to the approved provident fund trust managed by the Company. A portion of the employer's contribution is made to the government administered pension fund. The contributions to the provident fund trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Certain employees receive benefits under the provident fund plan in which both the employer and employees make periodic contributions to the government administered provident fund. A portion of the employer's contribution is made to the government administered pension fund. This is accounted as a defined contribution plan as the obligation of the Company is limited to the contributions made to the fund.

B. Gratuity and foreign pension

In accordance with the Code on Social Security, 2020, applicable for Indian companies, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The gratuity fund is managed by third party fund managers.

The Company also maintains pension and similar plans for employees outside India, based on country specific regulations. These plans are partially funded, and the funds are managed by third party fund managers. The plans provide for monthly payout after retirement as per salary drawn and service period or for a lump sum payment as set out in rules of each fund.

The Company's obligations in respect of these plans, which are defined benefit plans, are provided for based on actuarial valuation using the projected unit credit method.

C. Superannuation

Superannuation plan, a defined contribution scheme is administered by third party fund managers. The Company makes annual contributions based on a specified percentage of each eligible employee's salary.

b) Termination benefits

Termination benefits are expensed when the Company can no longer withdraw the offer of those benefits.

c) Short-term benefits

Short-term employee benefit obligations such as cash bonus, management incentive plans or profit-sharing plans are measured on an undiscounted basis and are recorded as expense as the related service is provided. A liability is recognised for the amount expected to be paid under short-term cash bonus or management incentive plans or profit-sharing plans, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

d) Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilised accumulating compensated absences and utilise it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

recognises accumulated compensated absences based on actuarial valuation using the projected unit credit method. Non-accumulating compensated absences are recognised in the period in which the absences occur.

(xii) Share-based payment transactions

Selected employees of the Company receive remuneration in the form of equity settled instruments or cash settled instruments, for rendering services over a defined vesting period and for Company's performance-based stock options over the defined period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. In cases, where equity instruments are granted at a nominal exercise price, the intrinsic value on the date of grant approximates the fair value. The expense is recognised in the consolidated statement of profit and loss with a corresponding increase to the share options outstanding account, a component of equity.

The equity instruments or cash settled instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortisation). The stock compensation expense is determined based on the Company's estimate of equity instruments or cash settled instruments that will eventually vest.

Cash settled instruments granted are re-measured by reference to the fair value at the end of each reporting period and at the time of vesting. The expense is recognised in the consolidated statement of profit and loss with a corresponding increase to financial liability.

(xiii) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive), as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset, if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognised when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xiv) Revenue

The Company derives revenue primarily from software development, maintenance of software/hardware and related services, consulting services, business process services and sale of IT products.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive (the "Transaction Price"). Revenue towards satisfaction of a performance obligation is measured at the amount of the Transaction Price (net of variable consideration on account of discounts and allowances) allocated to that performance obligation. To recognise revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the Transaction Price, (4) allocate the Transaction Price to the performance obligations in the contract, and (5) recognise revenues when a performance obligation is satisfied. When there is

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgement to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the Transaction Price to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when they are regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the Company uses expected cost-plus margin approach in estimating the stand-alone selling price.

For performance obligations where control is transferred over time, revenues are recognised by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgement and is based on the nature of the promised products or services to be provided.

The method for recognising revenues and costs depends on the nature of contracts with customers as given below:

A. Time and materials contracts

Revenues and costs relating to time and materials contracts are recognised as the related services are rendered.

B. Fixed-price contracts

i. Fixed-price development contracts

Revenues from fixed-price development contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, are recognised using the “percentage-of-completion” method. The performance

obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as it progresses. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognised, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. If the Company is not able to reasonably measure the progress of completion, revenue is recognised only to the extent of costs incurred for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognised in the consolidated statement of profit and loss in the period in which such losses become probable based on the current contract estimates as an onerous contract provision.

A contract asset is a right to consideration that is conditional upon factors other than the passage of time. Contract assets primarily relate to unbilled amounts on fixed-price development contracts and are classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

ii. Maintenance contracts

Revenues related to fixed-price maintenance contracts are recognised on a straight-line basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using percentage of completion method when the pattern of benefits from the services rendered to the customers and the cost to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue for contracts in which the invoicing is representative of the value being delivered is recognised based on our right to invoice. If our invoicing is not consistent with value delivered, revenues are recognised as the service is performed using the percentage of completion method.

In certain projects, a fixed quantum of service or output units is agreed at a fixed price for a fixed term. In such contracts, revenue is recognised with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilised by the customer is recognised as revenue on completion of the term.

iii. Element or volume based contracts

Revenues and costs are recognised as the related services are rendered.

C. Products

Revenue on product sales are recognised when the customer obtains control of the specified product.

D. Others

- Any change in scope or price is considered to be a contract modification. The Company accounts for modifications to existing contracts by assessing whether the services added are distinct and whether the pricing is at

the stand-alone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract if the additional services are priced at the stand-alone selling price, or as a termination of the existing contract and creation of a new contract if not priced at the stand-alone selling price.

- The Company accounts for variable considerations like, volume discounts, rebates and pricing incentives to customers and penalties as reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled and when it is probable that a significant reversal of cumulative revenue recognised will not occur when the uncertainty associated with the variable consideration is resolved.
- Revenues are shown net of allowances/returns, sales tax, value added tax, goods and services tax and applicable discounts.
- The Company may enter into arrangements with third party suppliers to resell products or services. In such cases, the Company evaluates whether the Company is the principal (i.e. report revenues on a gross basis) or agent (i.e. report revenues on a net basis). In doing so, the Company first evaluates whether the Company controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or services and therefore, is acting as a principal or agent. If the Company controls the good or service before it is transferred to the customer, the Company is the principal; if not, the Company is the agent.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

- Estimates of the Transaction Price and total costs or efforts are continuously monitored over the term of the contract and are recognised in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total costs or efforts are subject to revision as the contract progresses.
- The Company accrues the estimated cost of warranties at the time when the revenue is recognised. The accruals are based on the Company's historical experience of material usage and service delivery costs.
- Incremental costs that relate directly to a contract and incurred in securing a contract with a customer are recognised as an asset when the Company expects to recover these costs.
- The Company recognises contract fulfilment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered.
- Costs to obtain contracts relating to upfront payments to customers are amortised to revenue and other costs to obtain contracts and costs to fulfill contracts are amortised to expenses over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.
- The Company assesses the timing of the transfer of goods or services to the customer as compared to the timing of payments to determine whether a significant financing component exists. As a practical expedient, the Company does not assess the existence of a significant financing component when the difference between payment and transfer of deliverables is twelve months or less. If the difference in timing arises for reasons other than the provision of finance to either the customer or us, no financing component is deemed to exist.
- Unbilled receivables are classified as a financial asset where the right to consideration is unconditional and only the passage of time is required before the payment is due.

(xv) Finance costs

Finance costs comprise interest on borrowings, interest on lease liabilities, interest on tax matters, interest on net defined benefit liability, net loss on translation or settlement of foreign currency borrowings, changes in fair value of derivative instruments, gains/(losses) of settlement of borrowing related derivative instruments and interest on liability on written put options. Borrowing costs that are not directly attributable to a qualifying asset are recognised in the consolidated statement of profit and loss using the effective interest method.

(xvi) Finance and other income

Finance and other income comprise interest income on deposits, dividend income, gains/(losses) on disposal of investments, gains/(losses) on investments classified as FVTPL, net gain on translation or settlement of foreign currency borrowings, changes in fair value and gains/(losses) on settlement of related derivative instruments and net gains/(losses) on sale of property, plant and equipment. Interest income is recognised using the effective interest method. Dividend income is recognised when the right to receive payment is established.

(xvii) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognised in the consolidated statement of profit and loss except to the extent it relates to a business combination, or items directly recognised in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amounts are those that are enacted or substantively enacted as at the reporting date and applicable for the period. While determining the tax provisions, the Company assesses whether each uncertain tax position is to be considered separately or together with one or more uncertain tax positions depending upon the nature and circumstances of each uncertain tax position. The Company offsets current tax assets and current tax liabilities, where

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

it has a legally enforceable right to set off the recognised amounts and where it intends either to settle on a net basis, or to realise the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognised using the balance sheet approach. Deferred income tax assets and liabilities are recognised for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in these consolidated financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax assets are recognised to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilised.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences that is expected to reverse within the tax holiday period, taxable temporary differences associated with investments in subsidiaries, associates and foreign branches where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation authority on either the same taxable entity, or on different taxable entities where there is a right and an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

(xviii) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options, except where the results would be anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any splits and bonus shares issues including for change effected prior to the approval of the consolidated financial statements by the Company's Board of Directors.

(xix) Statement of cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash generated from/(used in) operating, investing and financing activities of the Company are segregated.

New accounting standards, amendments and interpretations adopted by the Company effective from April 1, 2025:

Amendments to Ind AS 21 – The Effects of changes in foreign exchange rates

The amendment clarifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

is lacking, as well as require the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable. These amendments are effective for annual reporting periods beginning on or after April 1, 2025. The adoption of amendments to Ind AS 21 did not have any material impact on the consolidated financial statements.

Amendments to Ind AS 1 – Presentation of Financial statements

On August 13, 2025, the MCA has issued “Classification of liabilities as current or non-current and non-current liabilities with covenants (Amendments to Ind AS 1)” The amendments aim to promote consistency in applying the requirements by helping companies to determine whether, in the statement of financial position, debt and other liabilities with an uncertain settlement date should be classified as current (due or potentially due to be settled within one year) or non-current. The amendments also clarified the classification requirements for debt a company might settle by converting it into equity. These amendments are effective for annual reporting periods beginning on or after April 1, 2025, and are to be applied retrospectively. The adoption of these amendments to Ind AS 1 did not have any material impact on the consolidated financial statements.

Amendments to Ind AS 7 - Statement of cash flows and Ind AS 107 - Financial instruments

On August 13, 2025, MCA issued 'Supplier Finance Arrangements (Amendments to Ind AS 7 and Ind AS 107)', that require companies to disclose information about its supplier finance arrangements that enables users of financial statements to assess the effects of those

arrangements on the companies liabilities and cash flows and on the companies exposure to liquidity risk. These amendments are effective for annual reporting periods beginning on or after April 1, 2025 and are to be applied retrospectively. The adoption of these amendments to Ind AS 7 and Ind AS 107 did not have any material impact on the consolidated financial statements.

Amendments to Ind AS 12 – Income taxes

On August 13, 2025, the MCA issued International Tax Reform - Pillar Two Model Rules - Amendments to Ind AS 12 “Income Taxes” to clarify the application of Ind AS 12 to income taxes arising from tax law enacted or substantively enacted to implement the Organisation for Economic Co-operation and Development (OECD), including tax law that implements qualified domestic minimum top-up taxes described in those rules.

The Company has applied the temporary exception from the accounting requirements for deferred taxes in Ind AS 12. Accordingly, the Company neither recognised, nor disclosed information about deferred tax assets and liabilities related to Pillar Two income taxes.

New accounting standards, amendments and interpretations not yet adopted:

Ministry of Corporate Affairs (“MCA”) notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2026, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

Balance at the end of the year	₹ 35,036	₹ 30,218
Included in the balance sheet as follows:		
Non-current	₹ 26,327	₹ 22,193
Current	8,709	8,025

Refer to Note 10 for remaining contractual maturities of lease liabilities.

6. CAPITAL WORK-IN-PROGRESS ("CWIP")

The following table represents ageing of CWIP as on March 31, 2026:

	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	₹ 3,322	₹ 450	₹ 350	-	₹ 4,122
Total	₹ 3,322	₹ 450	₹ 350	₹ -	₹ 4,122

The following table represents ageing of CWIP as on March 31, 2025:

	Amount in CWIP for a period of				
	Less than 1 year	1-2 years	2-3 years	More than 3 years	Total
Projects in progress	₹ 1,575	₹ 389	₹ -	₹ -	₹ 1,964
Total	₹ 1,575	₹ 389	₹ -	₹ -	₹ 1,964

As on March 31, 2026 and 2025, there are no projects under CWIP whose completion is overdue compared to its original plan.

As on March 31, 2026 and 2025, there are no projects under CWIP where the project costs has exceeded as compared to its original plan.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

7. GOODWILL AND OTHER INTANGIBLE ASSETS

The movement in goodwill balance is given below:

	Year ended March 31, 2026	Year ended March 31, 2025
Balance at the beginning of the year	₹ 320,346	₹ 311,449
Acquisition through Business combinations (Refer to Note 8) ⁽¹⁾	24,772	1,324
Translation adjustment	37,096	7,573
Balance at the end of the year	₹ 382,214	₹ 320,346

⁽¹⁾ Acquisition through business combinations for the year ended March 31, 2026 is after considering the impact of ₹ 7 towards measurement period changes in the purchase price allocation of acquisitions made during the year ended March 31, 2025.

The Company is organised into two operating segments: IT Services and IT Products (Refer to Note 35). Goodwill as at March 31, 2026 and 2025 has been allocated to the IT Services operating segment.

Goodwill recognised on business combinations is allocated to Cash Generating Units ("CGUs"), within the IT Services operating segment, which are expected to benefit from the synergies of the acquisitions.

	As at March 31, 2026	As at March 31, 2025
CGUs		
Americas 1	₹ 132,734	₹ 107,989
Americas 2	120,053	104,347
Europe	94,192	79,982
Asia Pacific, Middle East and Africa	35,235	28,028
	₹ 382,214	₹ 320,346

For impairment testing, goodwill is allocated to a CGU representing the lowest level within the Group at which goodwill is monitored for internal management purposes, and which is not higher than the Company's operating segment. Goodwill is tested for impairment at least annually in accordance with the Company's procedure for determining the recoverable value of each CGU.

The recoverable amount of the CGU is determined based on FVLCD. The FVLCD of the CGU is determined based on the market capitalisation approach, using the turnover and earnings multiples derived from observable market data. The fair value measurement is categorised as a level 2 fair value based on the inputs in the valuation techniques used.

Based on the above testing, no impairment was identified as at March 31, 2026 and 2025, as the recoverable value of the CGUs exceeded the carrying value. A sensitivity analysis to the change in the key parameters (turnover and earnings multiples) did not identify any probable scenarios where the CGU's recoverable amount would fall below its carrying amount.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The movement in other intangible assets is given below:

	Other intangible assets		
	Customer-related	Marketing-related	Total

As at March 31, 2026	₹ 25,381	₹ 5,468	₹ 30,849
Net carrying value as at March 31, 2026	₹ 22,691	₹ 6,485	₹ 29,176
Gross carrying value:			
As at April 1, 2024	₹ 43,672	₹ 11,972	₹ 55,644
Acquisition through Business combinations (Refer to Note 8)	1,896	-	1,896
Deductions/adjustments	(4,101)	(2,518)	(6,619)
Translation adjustment	994	268	1,262
As at March 31, 2025	₹ 42,461	₹ 9,722	₹ 52,183
Accumulated amortisation/ impairment:			
As at April 1, 2024	₹ 18,281	₹ 4,615	₹ 22,896
Amortisation and impairment ⁽¹⁾	6,327	1,582	7,909
Deductions/adjustments	(4,101)	(2,518)	(6,619)
Translation adjustment	443	104	547
As at March 31, 2025	₹ 20,950	₹ 3,783	₹ 24,733
Net carrying value as at March 31, 2025	₹ 21,511	₹ 5,939	₹ 27,450

⁽¹⁾ During the years ended March 31, 2026 and 2025, a decline in the revenue and earnings estimates led to a revision of recoverable value of customer-relationship intangible assets and marketing related intangible assets recognised on business combinations. Consequently, the Company has recognised impairment charge ₹ 851 and ₹ 1,155 for the years ended March 31, 2026 and 2025, respectively, as part of amortisation and impairment.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

As at March 31, 2026, the net carrying value and the estimated remaining amortisation period for intangible assets acquired on acquisition are as follows:

Acquisition	Net carrying value	Estimated remaining amortisation period
Capco - customer-related intangible	₹ 14,013	4.08 years
Capco - marketing-related intangible	5,230	5.08 years
DTS - customer-related intangible	5,650	5.67 years
DTS - marketing-related intangible	1,045	2.67 years
AVT	1,602	0.21 - 4.72 years
Vara Infotech Private Limited	430	0.50 - 3.50 years
Aggne	392	0.87 - 1.87 years
Rational Interaction, Inc.	318	0.89 years
Eximius Design, LLC	371	1.40 years
Convergence Acceleration Solutions, LLC	125	2.03 years
Total	₹ 29,176	

8. BUSINESS COMBINATIONS

Summary of acquisitions during the year ended March 31, 2026:

During the year ended March 31, 2026, the Company completed a business combination by acquiring 100% equity interest in Digital Transformation Solutions unit of Harman International Inc. which is Harman Connected Services Inc. and its subsidiaries and certain other assets (together, “DTS”), a global provider of Engineering, Research and Development (“ER&D”) services and IT services. The acquisition was consummated on December 1, 2025, for total cash consideration of ₹ 34,044.

Net assets	₹ 3,017
Fair value of property, plant and equipment	362
Fair value of right-of-use assets	1,062
Fair value of customer-related intangibles	5,644
Fair value of marketing-related intangibles	1,109
Deferred tax liabilities on intangible assets	(1,915)
Total identifiable assets	₹ 9,279
Goodwill	24,765
Total purchase price	₹ 34,044
Net Assets include:	
Cash and cash equivalents	₹ 8,011
Fair value of acquired trade receivables included in net assets	3,066
Gross contractual amount of acquired trade receivables	3,225
Less: Allowance for lifetime expected credit loss	(159)
Amount included in legal and professional charges:	
Transaction costs	₹ 230

The above purchase price allocation for DTS is provisional and will be finalised as soon as practicable within the measurement period, but in no event later than one year following the date of acquisition.

The goodwill of ₹ 24,765 comprises value of acquired workforce and expected synergies arising from the business combinations. Goodwill is allocated to IT Services segment and is not deductible for income tax purposes.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The pro-forma effects of acquisition of DTS for the year ended March 31, 2026, on the Company's results were not material.

Summary of acquisition during the year ended March 31, 2025:

During the year ended March 31, 2025, the Company completed a business combination by acquiring a 100% equity interest in Applied Value Technologies, Inc. and Applied Value Technologies B.V., which was consummated on December 16, 2024. The Company has also acquired a 100% equity interest in Applied Value Technologies Pte Limited (together with Applied Value Technologies, Inc. and Applied Value Technologies B.V., "AVT"), which was consummated on January 3, 2025. AVT helps enterprises transform IT operations through a highly customised and data-driven approach. AVT will augment Wipro's existing application services capabilities, helping drive new growth opportunities. The total consideration (upfront cash to acquire control, deferred consideration and contingent consideration) for the acquisition is ₹ 2,836. During the year ended March 31, 2026, the Company finalised the purchase price allocation as set for the below:

The following table presents the purchase price allocation:

Net assets	₹ 166
Fair value of property, plant and equipment	9
Fair value of customer-related intangibles	1,896
Deferred tax liabilities on intangible assets	(566)
Total identifiable assets	₹ 1,505
Goodwill	1,331
Total purchase price	₹ 2,836
Net Assets include:	
Cash and cash equivalents	₹ 113
Fair value of acquired trade receivables included in net assets	215
Gross contractual amount of acquired trade receivables	215
Less: Allowance for lifetime expected credit loss	-
Amount included in legal and professional charges:	
Transaction costs	₹ 45

The goodwill of ₹ 1,331 comprises value of acquired workforce and expected synergies arising from the business combinations. Goodwill is allocated to IT Services segment and is not deductible for income tax purposes.

The total consideration for AVT included a deferred consideration of ₹ 264, which was payable within six months from the consummation date and was subsequently settled.

The total consideration of AVT includes a contingent consideration linked to achievement of revenues and earnings over a period of 3 years ending December 31, 2027, and range of contingent consideration payable is between ₹ Nil and ₹ 2,122. The fair value of the contingent consideration is estimated by applying the discounted cash-flow approach considering probability adjusted revenue and earnings estimates. The undiscounted fair value of contingent consideration is ₹ 2,122 as at the date of acquisition. The discounted fair value of contingent consideration of ₹ 1,537 is recorded as part of purchase price allocation.

The pro-forma effects of the acquisition of AVT for the year ended March 31, 2025 on the Company's revenues and profits were not material.

	₹ 129,867	₹ (12,449)	₹ 117,418	₹ 110,604	₹ (10,681)	₹ 99,923

For the financial assets and liabilities subject to offsetting or similar arrangements, each agreement between the Company and the counterparty allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis and hence are not offset.

Fair value

Financial assets and liabilities include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, eligible current and non-current assets, borrowings, lease liabilities, trade payables, eligible current and non-current liabilities.

The fair value of cash and cash equivalents, trade receivables, unbilled receivables, short-term borrowings, lease liabilities, trade payables, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. Finance lease receivables are periodically evaluated based on individual credit worthiness of customers. Based on this evaluation, the Company records allowance for estimated credit losses on these receivables. As at March 31, 2026 and 2025, the carrying value of such financial assets, net of allowances, and liabilities approximates the fair value.

The Company's Unsecured Notes 2026 are contracted at fixed coupon rate of 1.50% and market yield on these loans as of March 31, 2026, was 4.48%.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Investments in short-term mutual funds and fixed maturity plan mutual funds, which are classified as FVTPL are measured using net asset values at the reporting date multiplied by the quantity held. Fair value of investments in non-convertible debentures, government securities, commercial papers and bonds classified as FVTOCI is determined based on the indicative quotes of price and yields prevailing in the market at the reporting date. Fair value of investments in equity instruments classified as FVTOCI or FVTPL is determined using market approach primarily based on market multiples method.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves and currency volatility.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There were no transfers between Levels 1, 2 and 3 during the years ended March 31, 2026 and 2025.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

	As at March 31, 2026				As at March 31, 2025			
	Fair value measurements at reporting date				Fair value measurements at reporting date

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The following methods and assumptions were used to estimate the fair value of the Level 2 financial instruments included in the above table.

Financial Instrument	Method and assumptions
Derivative instruments (assets and liabilities)	The Company enters into derivative financial instruments with various counterparties, primarily banks with investment grade credit ratings. Derivatives valued using valuation techniques with market observable inputs are mainly interest rate swaps, foreign exchange forward contracts and foreign exchange option contracts. The most frequently applied valuation techniques include forward pricing, swap models and Black Scholes models (for option valuation), using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, interest rate curves and forward rate curves of the underlying. As at March 31, 2026, the changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognised at fair value.
Investment in non-convertible debentures, government securities, commercial papers and bonds	Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at reporting date.
Investment in fixed maturity plan mutual funds	Fair value of these instruments is derived based on indicative quotes of price prevailing in the market as at reporting date.

The following methods and assumptions were used to estimate the fair value of the Level 3 financial instruments included in the above table.

Financial instrument	Method and assumptions
Investment in equity instruments	Fair value of these instruments is determined using market approach primarily based on market multiples method.
Contingent consideration and liability on written put options to non-controlling interest	Fair value of these instruments is determined using valuation techniques which includes inputs relating to risk-adjusted revenue and operating profit forecast.

The following table presents the changes in Level 3 assets and liabilities for the year ended March 31, 2026 and 2025:

	As at March 31, 2026	As at March 31, 2025
Investment in equity instruments		
Balance at the beginning of the year	₹ 17,391	₹ 20,126
Additions	2,038	1,925
Disposals ⁽¹⁾⁽²⁾	(1,199)	(1,828)
Gain/(loss) recognised in consolidated statement of profit and loss	768	321
Gain/(loss) recognised in other comprehensive income	(1,431)	(3,609)
Translation adjustment	1,876	456
Balance at the end of the year	₹ 19,443	₹ 17,391

⁽¹⁾ During the year ended March 31, 2026, as a result of an acquisition by another investors, the Company sold its shares of equity instruments in three companies at a fair value of ₹ 585 and recognised a cumulative gain of ₹ 389 in other comprehensive income and cumulative loss of ₹ 138 in consolidated statement of profit and loss.

⁽²⁾ During the year ended March 31, 2025, as a result of an acquisition by another investors, the Company sold its shares of equity instruments in six companies at a fair value of ₹ 1,281 and recognised a cumulative loss of ₹ 175 in other comprehensive income and cumulative gain of ₹ 152 in consolidated statement of profit and loss.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	As at March 31, 2026	As at March 31, 2025
Contingent consideration		
Balance at the beginning of the year	₹ (1,864)	₹ (429)
(Addition)/Reversals ⁽¹⁾	(49)	169
Addition through Business combination (Refer to Note 8)	-	(1,537)
Payouts	648	-
Finance costs recognised in consolidated statement of profit and loss	(195)	(47)
Translation adjustment	(174)	(20)
Balance at the end of the year	₹ (1,634)	₹ (1,864)

⁽¹⁾ Towards change in fair value of earn-out liability as a result of changes in estimates of revenue and earnings over the earn-out period.

	As at March 31, 2026	As at March 31, 2025
Liability on written put options to non-controlling interests		
Balance at the beginning of the year	₹ (4,945)	₹ (4,303)
Finance costs recognised in consolidated statement of profit and loss	(585)	(530)
Changes in fair value of written put options	385	-
Translation adjustment	(554)	(112)
Balance at the end of the year	₹ (5,699)	₹ (4,945)

As at March 2026 and 2025, every 1% increase/decrease in the unobservable inputs used to estimate the fair value of investment in equity instruments, fair value of contingent consideration and liability on written put options to non-controlling interests, does not have a material impact on its fair value.

Derivative assets and liabilities:

The Company is exposed to currency fluctuations on foreign currency assets/liabilities, forecasted cash flows denominated in foreign currency and net investment in foreign operations. The Company is also exposed to interest rate fluctuations on investments in floating rate financial assets and floating rate borrowings. The Company follows established risk management policies, including the use of derivatives to hedge foreign currency assets/liabilities, interest rates, foreign currency forecasted cash flows and net investment in foreign operations. The counterparties in these derivative instruments are primarily banks and the Company considers the risks of non-performance by the counterparty as immaterial.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company determines the existence of an economic relationship between the hedging instrument and the hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in consolidated statement of profit and loss at the time of the hedge relationship rebalancing.

The following table summaries activity in the cash flow hedging reserve within equity related to all derivative instruments classified as cash flow hedges:

	As at March 31, 2026	As at March 31, 2025
Balance as at the beginning of the year	₹ (275)	₹ 773
Changes in fair value of effective portion of derivatives	(13,440)	(1,185)
Deferred cancellation gain/(loss), net	(1,174)	(91)
Net (gain)/loss reclassified to consolidated statement of profit and loss on occurrence of hedged transactions ⁽¹⁾	5,163	203
Ineffective portion of derivative instruments classified to consolidated statement of profit and loss	-	25
Ineffective portion of derivative instruments classified to consolidated statement of profit and loss	7	-
Gain/(loss) on cash flow hedging derivatives, net	₹ (9,444)	₹ (1,048)
Balance as at the end of the year	₹ (9,719)	₹ (275)
Deferred tax asset/(liability) thereon	2,320	65
Balance as at the end of the year, net of deferred taxes	₹ (7,399)	₹ (210)

⁽¹⁾ Includes net (gain)/loss reclassified to revenue of ₹ 6,093 and ₹ 394 for the years ended March 31, 2026 and 2025, respectively; net (gain)/loss reclassified to employee benefits expense of ₹ (877) and ₹ (51) for the years ended March 31, 2026 and 2025, respectively; net (gain)/loss reclassified to finance costs of ₹ (53) and ₹ (213) for the years ended March 31, 2026 and 2025, respectively and net (gain)/loss reclassified to other income of ₹ Nil and ₹ 73 for the years ended March 31, 2026 and 2025, respectively.

The related hedge transactions for balance in cash flow hedging reserves as at March 31, 2026 are expected to occur and be reclassified to the consolidated statement of profit and loss over a period of 12 months.

As at March 31, 2026 and 2025, there were no material gains or losses on derivative transactions or portions thereof that have become ineffective as hedges or associated with an underlying exposure that did not occur.

Sale of financial assets

From time to time, in the normal course of business, the Company transfers accounts receivables, unbilled receivables, net investment in finance lease receivables (financial assets) to banks. Under the terms of the arrangements, the Company either substantially transfers its risks and rewards or surrenders control over the financial assets and transfer is without recourse. Accordingly, on such transfers the financial assets are derecognised and considered as sale of financial assets. Gains and losses on sale of the financial assets without recourse are recorded in finance costs, at the time of sale based on the carrying value of the financial assets and fair value of servicing liability. The incremental impact of such transactions on our cash flow and liquidity for the years ended March 31, 2026 and 2025 is not material.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Financial risk management

Market Risk

Market risk is the risk of loss of future earnings, to fair values or to future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments, foreign currency receivables, payables and borrowings.

The Company's exposure to market risk is a function of investment and borrowing activities and revenue generating activities in foreign currency. The objective of market risk management is to avoid excessive exposure of the Company's earnings and equity to losses.

Risk Management Procedures

The Company manages market risk through a corporate treasury department, which evaluates and exercises independent control over the entire process of market risk management. The corporate treasury department recommends risk management objectives and policies, which are approved by our senior management and the Company's Audit, Risk and Compliance Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, borrowing strategies, and ensuring compliance with market risk limits and policies.

Foreign currency risk

The Company operates internationally, and a major portion of its business is transacted in several currencies. Consequently, the Company is exposed to foreign exchange risk through receiving payment for sales and services in the United States and elsewhere and making purchases from overseas suppliers in various foreign currencies. The exchange rate risk primarily arises from foreign exchange revenue, receivables, cash balances, forecasted cash flows, payables and foreign currency borrowings. A significant portion of the Company's revenue is in the U.S. Dollars, Pound Sterling, Euro, Indian Rupee, Australian Dollars and Canadian Dollars, while a large portion of costs are in Indian Rupees. The exchange rate between the Indian Rupee and these currencies has fluctuated significantly in recent years and may continue to fluctuate in the future. Appreciation of the Indian Rupee against these currencies can adversely affect the Company's results of operations.

The Company evaluates exchange rate exposure arising from these transactions and enters into foreign currency derivative instruments to mitigate such exposure. The Company follows established risk management policies, including the use of derivatives like foreign exchange forward/option contracts to hedge forecasted cash flows denominated in foreign currency.

The Company has designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure of forecasted highly probable cash flows.

As at March 31, 2026, a ₹ 1 increase in the spot exchange rate of the Indian Rupee with the U.S. Dollar would result in an approximately ₹ 2,756 (including consolidated statement of profit and loss of ₹ 683 and other comprehensive income of ₹ 2,073) decrease in the fair value, and a ₹ 1 decrease would result in an approximately ₹ 2,743 (including consolidated statement of profit and loss of ₹ 683 and other comprehensive income of ₹ 2,060) increase in the fair value of foreign currency dollar denominated derivative instruments (forward and option contracts).

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The below table presents foreign currency risk from non-derivative financial assets/(liabilities) as at March 31, 2026 and 2025:

⁽¹⁾ Other currencies reflect currencies such as Saudi Riyal, Swiss Franc, Singapore Dollar, United Arab Emirates Dirham and Polish Zloty.

As at March 31, 2026 and 2025, respectively, every 1% increase/decrease in the respective foreign currencies compared to functional currency of the Company would increase/decrease the Company's profit before taxes by approximately ₹ 802 and ₹ 789, respectively.

Interest rate risk

Interest rate risk primarily arises from floating rate borrowings, including various revolving and other lines of credit.

The Company's investments are primarily in short-term investments, which do not expose it to significant interest rate risk.

Interest rate risk primarily arises from floating rate borrowing, including various revolving and other lines of credit. If interest rates were to increase by 100 bps as on March 31, 2026, additional net annual interest expense on floating rate borrowing would amount to approximately ₹ 799. Certain borrowings are also transacted at fixed interest rates.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Credit risk

Credit risk arises from the possibility that customers may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the credit rating and financial reliability of customers, considering the financial condition, current economic trends, forward-looking macroeconomic information, analysis of historical bad debts and ageing of accounts receivable. No single customer accounted for more than 10% of the accounts receivable as of March 31, 2026 and 2025, and revenues for the years ended March 31, 2026 and 2025. There is no significant concentration of credit risk.

Trade receivables and unbilled receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a customer to engage in a repayment plan with the Company.

Refer to Note 11 for changes in the allowances for lifetime expected credit loss.

Counterparty risk

Counterparty risk encompasses issuer risk on marketable securities, settlement risk on derivative and money market contracts and credit risk on cash and time deposits. Issuer risk is minimised by only buying securities in India which are at least AA rated by Indian rating agencies. Settlement and credit risk is reduced by the policy of entering into transactions with counterparties that are usually banks or financial institutions with acceptable credit ratings. Exposure to these risks is closely monitored and maintained within predetermined parameters. There are limits on credit exposure to any financial institution. The limits are regularly assessed and determined based upon credit analysis including financial statements and capital adequacy ratio reviews.

Cash and cash equivalents include demand deposits of ₹ 3,546 and bank balances of ₹ 83,236 held with two banks having high credit ratings, which are individually in excess of 10% or more of the Company's total cash and cash equivalents as at March 31, 2026. Refer to Note 15.

We did not have any significant concentration of investment risk, as no investments with any single counterparty exceeded 10% of our total investments as of March 31, 2026. Refer to Note 9.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors the Company's net liquidity position through rolling forecasts based on the expected cash flows. As of March 31, 2026, cash and cash equivalents are held with major banks and financial institutions.

Notes to the Consolidated Financial Statements

Terms and rights attached to equity shares

The Company has only one class of equity shares having a par value of ₹ 2 per share. Each shareholder of equity shares is entitled to one vote per share. The Company declares and pays dividend in Indian Rupees. The final dividend proposed by the Board of Directors is subject to shareholders approval in the ensuing Annual General Meeting.

Following is the summary of per share dividends recognised as distributions to equity shareholders:

	For the year ended March 31, 2026	For the year ended March 31, 2025
Interim dividend (Board recommended the adoption of the interim dividend as the final dividend) (Refer to Note 32)	₹ 11 per share	₹ 6 per share

In the event of liquidation of the Company, the equity shareholders will be entitled to receive the remaining assets of the Company, after distribution of all preferential amounts, if any, in proportion to the number of equity shares held by the shareholders.

⁽¹⁾ On June 23, 2021, Wipro IT Services LLC, a wholly owned step-down subsidiary of the Company, issued U.S.\$ 750 million in unsecured notes 2026 (the "Notes"). The Notes bear interest at a rate of 1.50% per annum and will mature on June 23, 2026. Interest on the Notes is payable semi-annually on June 23 and December 23 of each year, commencing from December 23, 2021. The Notes are listed on Singapore Exchange Securities Trading Limited (SGX-ST).

Short-term borrowings

The Company had borrowings amounting to ₹ 94,860 and ₹ 97,863, as at March 31, 2026 and 2025, respectively. The principal source of borrowings from banks as at March 31, 2026 primarily consists of lines of credit of approximately ₹ 89,024, U.S. Dollar ("U.S.\$") 432 million, Saudi Riyal ("SAR") 120 million, Pound Sterling ("GBP") 7 million, Bahraini Dinar ("BHD") 1 million, Thai Baht ("THB") 5 million, Brazilian Real ("BRL") 8 million, Indonesian Rupiah ("IDR") 13,000 million, Qatari Riyal ("QAR") 10 million Mexican Peso ("MXN") 35 million, Canadian Dollar ("CAD") 14 million, Bangladeshi Taka ("BDT") 175 million and Japanese Yen ("JPY") 300 million from bankers for working capital requirements and other short-term needs

As at March 31, 2026, the Company has unutilised lines of credit aggregating ₹ 27,524, U.S.\$ 92 million, SAR 75 million, GBP 7 million, BHD 1 million, THB 5 million, BRL 8 million, IDR 13,000 million, QAR 10 million, MXN 35 million, CAD 14 million, BDT 175 million and JPY 300 million. To utilise these unused lines of credit, the Company requires consent of the lender and compliance with certain financial covenants. Significant portion of these lines of credit are revolving credit facilities and floating rate foreign currency loans, renewable on a periodic basis.

Significant portion of these facilities bear floating rates of interest, referenced to country specific official benchmark interest rates and a spread, determined based on market conditions.

Others	98	142
	₹ 19,463	₹ 17,638
	₹ 24,852	₹ 22,294

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

A summary of activity in provision for warranty, onerous contracts and other provisions is as follows:

	Year ended March 31, 2026				Year ended March 31, 2025			
	Provision for warranty	Provision for onerous contracts	Others	Total	Provision for warranty	Provision for onerous contracts	Others	Total
Provision at the beginning of the year	₹ 207	₹ 1,582	₹ 142	₹ 1,931	₹ 217	₹ 1,599	₹ 155	₹ 1,971
Additions during the year, net	214	582	-	796	207	597	-	804
Utilised/written-back during the year	(207)	(826)	(44)	(1,077)	(217)	(624)	(13)	(854)
Translation adjustment	-	70	-	70	-	10	-	10
Provision at the end of the year	₹ 214	₹ 1,408	₹ 98	₹ 1,720	₹ 207	₹ 1,582	₹ 142	₹ 1,931
Included in the consolidated balance sheet as follows:								
Non-current	₹ -	₹ 224	₹ -	₹ 224	₹ -	₹ 294	₹ -	₹ 294
Current	214	1,184	98	1,496	207	1,288	142	1,637

Provision for warranty represents cost associated with providing sales support services, which are accrued at the time of recognition of revenues and are expected to be utilised over a period of 1 year.

Provision for onerous contracts is recognised when the expected benefit by the company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

Other provisions primarily include provisions for compliance related contingencies. The timing of cash outflows in respect of such provision cannot be reasonably determined.

20. OTHER LIABILITIES

	As at March 31, 2026	As at March 31, 2025

Relationship with the struck off companies

The Company had nil transactions and outstanding balance with struck off companies for the year ended March 31, 2026.

Transactions with struck off companies for the year ended March 31, 2025 is as follows:

Name of struck off company	Relationship with struck off company	Nature of transaction	Transactions for the year ended March 31, 2025	Balance outstanding as at March 31, 2025
Sabre Technologies India Private Limited	Vendor	Payable	₹ 11	₹ -
Ibis Marcom Limited	Vendor	Payable	^	-

^ Value is less than ₹ 0.5

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

22. REVENUE FROM OPERATIONS

A. Contract assets and Contract liabilities

The following table presents the changes in contract assets balance:

	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	₹ 15,795	₹ 19,854
Amount reclassified to receivables pertaining to fixed price development contracts on completion of milestones	(14,073)	(14,730)
Increase due to revenue recognised during the year	12,233	10,617
Translation adjustment	864	54
Balance at the end of the year	₹ 14,819	₹ 15,795

The following table presents the changes in contract liabilities balance:

	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	₹ 20,063	₹ 17,653
Revenue recognised from opening balance of contract liabilities	(15,724)	(14,695)
Increase due to invoicing during the year	20,262	17,036
Translation adjustment	833	69
Balance at the end of the year	₹ 25,434	₹ 20,063

Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period.

B. Reconciliation of revenue

Reconciliation of revenue recognised with the contracted price as follows:

	As at March 31, 2026	As at March 31, 2025
Contracted price	₹ 946,444	₹ 905,652
Reductions towards variable consideration components ⁽¹⁾	(20,204)	(14,768)
Revenue recognised in the consolidated statement of profit and loss	₹ 926,240	₹ 890,884

⁽¹⁾ Variable consideration comprises of volume discount, service level credits and liquidated damages.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

C. Remaining performance obligations

Revenue allocated to remaining performance obligations represents contracted revenue that has not yet been recognised, which includes contract liabilities and amounts that will be invoiced and recognised as revenue in future periods. Applying the practical expedient, the Company has not disclosed its right to consideration from customers in an amount that corresponds directly with the value to the customer of the Company's performance completed to date, which are contracts invoiced on time and material basis and volume based.

As at March 31, 2026 and 2025, the aggregate amount of the Transaction Price allocated to remaining performance obligations, other than those meeting the exclusion criteria above, were ₹ 373,976 and ₹ 364,937, respectively, of which approximately 63% and 66%, respectively, is expected to be recognised as revenues within two years, and the remainder thereafter. This includes contracts with a substantive enforceable termination penalty if the contract is terminated without cause by the customer, based on an overall assessment of the contract carried out at the time of inception. Historically, customers have not terminated contracts without cause.

D. Disaggregation of revenue

The tables below present disaggregated revenue from contracts with customers by business segment (refer to Note 35 "Segment Information"), sector and nature of contract. The Company believes that the below disaggregation best depicts the nature, amount, timing and uncertainty of revenue and cash flows from economic factors.

Information on disaggregation of revenues for the year ended March 31, 2026 is as follows:

	IT Services					IT Products	Total
	Americas 1	Americas 2	Europe	APMEA	Total		
A. Revenue							
Rendering of services	₹305,036	₹268,532	₹243,645	₹102,087	₹919,300	₹ -	₹919,300

⁽¹⁾ Effective October 1, 2024, the Company has reorganised its sectors by merging "Technology" and "Communications" into "Technology and Communications" sector, and by merging "Energy, Natural Resources and Utilities" and "Manufacturing" into "Energy, Manufacturing and Resources" sector. Comparative period disaggregation of revenue has been restated to give effect to this change.

23. OTHER INCOME

	Year ended March 31, 2026	Year ended March 31, 2025
Interest Income	₹ 28,367	₹ 27,210
Dividend income from equity investments designated as FVTOCI	3	2,299
Net gain from investments classified as FVTPL	7,763	8,765
Net loss from investments classified as FVTOCI	358	(72)
Finance and other income	₹ 36,491	₹ 38,202
Foreign exchange gains/(losses), net on financial instruments measured at FVTPL	₹ (5,867)	₹ (398)
Other foreign exchange gains/(losses), net	7,720	430
Foreign exchange gains, net	₹ 1,853	₹ 32
Gain on sale of property, plant and equipment, net ⁽¹⁾	₹ 393	₹ 606
	₹ 38,737	₹ 38,840

⁽¹⁾ Gain/(loss) on sale of property, plant and equipment for the year ended March 31, 2026, includes gain on transfer of building of ₹ 405 and for the year ended March 31, 2025, includes gain on relinquishment of the lease hold rights of land, and transfer of building along with other assets of ₹885.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

24. CHANGES IN INVENTORIES OF STOCK-IN-TRADE

	Year ended March 31, 2026	Year ended March 31, 2025
Stock at the beginning of the year	₹ 685	₹ 880
Less: Stock at the end of the year	514	685
Decrease during the year	₹ 171	₹ 195

25. EMPLOYEE BENEFITS

a) Employee costs includes

	Year ended March 31, 2026	Year ended March 31, 2025
Salaries and bonus	₹ 525,825	₹ 507,629
Contribution to provident and other funds	25,565	20,306
Share-based compensation ⁽¹⁾	4,465	5,542
	₹ 555,855	₹ 533,477

⁽¹⁾ Includes ₹ Nil and ₹ (9) for the years ended March 31, 2026 and 2025, respectively, towards cash settled ADSs and RSUs.

Defined benefit plan actuarial (gains)/losses recognised in other comprehensive income include:

	Year ended March 31, 2026	Year ended March 31, 2025
Return on plan assets excluding interest income - loss/(gain)	₹ 384	₹ (416)
Actuarial loss/(gain) arising from financial assumptions	730	146
Actuarial loss/(gain) arising from demographic assumptions	28	(115)
Actuarial loss/(gain) arising from experience adjustments	(1,290)	(12)
Change in the effect of asset ceiling - loss/(gain)	6	74
(Gain)/loss on remeasurement of defined benefit plans, net	₹ (142)	₹ (323)

b) Gratuity and foreign pension

Defined benefit plans include gratuity for employees drawing salary in Indian Rupees, pension and certain benefits plans in foreign jurisdictions.

Amount recognised in the consolidated statement of profit and loss in respect of defined benefit plans is as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Current service cost	₹ 3,795	₹ 3,205
Past service cost	3,566	-
Net interest expense on net defined benefit liability	268	95
Net charge to the consolidated statement of profit and loss	₹ 7,629	₹ 3,300
Actual return on plan assets	₹ 879	₹ 1,646

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Change in present value of defined benefit obligation is summarised below:

	As at March 31, 2026	As at March 31, 2025
Defined benefit obligation at the beginning of the year	₹ 24,188	₹ 21,516
Addition through Business combination	1,311	-
Current service cost	3,795	3,205
Past service cost	3,566	-
Interest expense on obligation	1,506	1,308
Benefits paid	(2,631)	(2,627)
Contributions from plan participants and due to transfer	87	558
Remeasurement loss/(gain)		
Actuarial loss/(gain) arising from financial assumptions	730	146
Actuarial loss/(gain) arising from demographic assumptions	28	(115)
Actuarial loss/(gain) arising from experience adjustments	(1,290)	(12)
Translation adjustment	1,291	209
Defined benefit obligation at the end of the year	₹ 32,581	₹ 24,188

Change in plan assets is summarised below:

	As at March 31, 2026	As at March 31, 2025
Fair value of plan assets at the beginning of the year	₹ 22,231	₹ 20,022
Addition through Business combination	211	-
Expected return on plan assets	1,263	1,230
Employer contributions	5,417	141
Benefits paid	(188)	(313)
Contributions from plan participants and due to transfer	87	558
Remeasurement (loss)/gain		
Return on plan assets excluding interest income - (loss)/gain	(384)	416
Translation adjustment	1,200	177
Fair value of plan assets at the end of the year	₹ 29,837	₹ 22,231

	As at March 31, 2026	As at March 31, 2025
Defined benefit obligation	₹ 32,581	₹ 24,188
Fair value of plan assets	29,837	22,231
Present value of unfunded obligation	₹ (2,744)	₹ (1,957)
Change in the effect of asset ceiling	(678)	(545)
Recognised liability	₹ (3,422)	₹ (2,502)

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Change in effect of asset ceiling is summarised below:

	As at March 31, 2026	As at March 31, 2025
Effect of asset ceiling at the beginning of the year	₹ 545	₹ 442
Interest expense on effect of asset ceiling	25	17
Changes in the effect of limiting the surplus to the asset ceiling	6	74
Translation adjustment	102	12
Effect of asset ceiling at the end of the year	₹ 678	₹ 545

As at March 31, 2026 and 2025, plan assets were primarily invested in insurer managed funds.

The Company has established an income tax approved irrevocable trust fund to which it regularly contributes to finance the liabilities of the gratuity plan. The fund's investments are managed by certain insurance companies as per the selection made by the trustees among the fund plan available.

The principal assumptions used for the purpose of actuarial valuation of these defined benefit plans are as follows:

	As at March 31, 2026	As at March 31, 2025
Discount rate	5.70%	5.75%
Expected return on plan assets	5.70%	5.75%
Expected rate of salary increase	6.44%	6.40%
Weighted average duration of defined benefit obligations	6.53 years	7.03 years

The discount rate is primarily based on the prevailing market yields of government securities for the estimated term of the obligations. The estimates of future salary increase considered takes into account the inflation, seniority, promotion and other relevant factors. Attrition rate considered is the management's estimate, based on previous years' employee turnover of the Company.

The expected return on plan assets is based on expectation of the average long-term rate of return expected on investments of the fund during the estimated term of the obligations.

Expected future contribution and estimated future benefit payments from the fund are as follows:

For the year ended March 31, 2026	
Expected contribution to the fund during the year ending March 31, 2027	₹ 3,515
Estimated benefit payments from the fund for the year ending March 31:	
2027	₹ 5,493
2028	4,518
2029	4,134
2030	3,748
2031	3,493
Thereafter	21,690
Total	₹ 43,076

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

For the year ended March 31, 2025	
Expected contribution to the fund during the year ending March 31, 2026	₹ 3,545
Estimated benefit payments from the fund for the year ending March 31:	
2026	₹ 3,565
2027	3,218
2028	2,953
2029	2,736
2030	2,412
Thereafter	17,692
Total	₹ 32,576

The expected benefits are based on the same assumptions used to measure the Company's benefit obligations as of March 31, 2026.

Sensitivity for significant actuarial assumptions is computed to show the movement in defined benefit obligation by 1 percentage.

As of March 31, 2026, every 1 percentage point increase/ (decrease) in discount rate will result in (decrease)/ increase of defined benefit obligation by approximately ₹ (1,914) and ₹ 2,228, respectively (March 31, 2025: ₹ (1,565) and ₹ 1,807, respectively).

As of March 31, 2026, every 1 percentage point increase/ (decrease) in expected rate of salary will result in increase/ (decrease) of defined benefit obligation by approximately ₹ 1,620 and ₹ (1,512), respectively (March 31, 2025: ₹ 1,189 and ₹ (1,129), respectively).

The sensitivity analysis to significant actuarial assumptions may not be representative of the actual change in the defined benefit obligations as the change in assumptions may not occur in isolation since some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognised in the consolidated balance sheet.

c) Provident fund:

The details of fund and plan assets are given below:

	As at March 31, 2026	As at March 31, 2025
Fair value of plan assets	₹ 133,417	₹ 121,067
Present value of defined benefit obligation	(133,417)	(121,067)
Net shortfall	₹ -	₹ -

The total expense for the years ended March 31, 2026 and 2025 is ₹ 7,058 and ₹ 6,517, respectively.

The plan assets have been invested as per the regulations of Employees' Provident Fund Organisation (EPFO).

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The principal assumptions used in determining the present value obligation of interest guarantee under the deterministic approach are as follows:

	As at March 31, 2026	As at March 31, 2025
Discount rate for the term of the obligation	6.50%	6.55%
Weighted Average remaining tenure of investment portfolio	13.81 years	6.71 years
Guaranteed rate of return	8.25%	8.25%

d) Defined contribution plans:

The total expense for the years ended March 31, 2026 and 2025 was ₹ 11,146 and ₹ 10,584 respectively.

26. FINANCE COSTS

	Year ended March 31, 2026	Year ended March 31, 2025
Interest on borrowings	₹ 5,368	₹ 7,124
Interest on lease liability	1,956	1,593
Interest on liability on written put options to non-controlling interests	585	530
Other finance cost ⁽¹⁾	6,668	5,523
	₹ 14,577	₹ 14,770

⁽¹⁾ Includes gain on remeasurement of written put options amounting to ₹ 385 for the year ended March 31, 2026.

27. OTHER EXPENSES

	Year ended March 31, 2026	Year ended March 31, 2025
Rates, taxes and insurance	₹ 5,858	₹ 5,804
Miscellaneous expenses/(income), net ⁽¹⁾⁽²⁾	1,402	(446)
	₹ 7,260	₹ 5,358

⁽¹⁾ Miscellaneous expense/(income), net includes reversals of contingent consideration of ₹ (49) and ₹ 169 for the years ended March 31, 2026 and 2025, respectively. (Refer to Note 10).

⁽²⁾ Other expenses are net of insurance claim received of ₹ 1,805 during the year ended March 31, 2025.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

28. INCOME TAX

Income tax expense has been allocated as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Income tax expense as per the consolidated statement of profit and loss:		
Current tax expense	₹ 42,665	₹ 45,405
Deferred tax expense/(reversal)	(1,898)	(2,628)
	₹ 40,767	₹ 42,777
Income tax included in other comprehensive income on:		
Gains/(losses) on investment securities	(323)	83
Gains/(losses) on cash flow hedging derivatives	(2,257)	(260)
Remeasurements of the defined benefit plans	10	49
	₹ (2,570)	₹ (128)
	₹ 38,197	₹ 42,649

The reconciliation between the provision of income tax and amounts computed by applying the Indian statutory income tax rate to profit before tax is as follows:

	Year ended March 31, 2026	Year ended March 31, 2025
Profit before tax	₹ 173,422	₹ 174,957
Enacted income tax rate in India	34.94%	34.94%
Computed expected tax expense	₹ 60,594	₹ 61,130
Effect of:		
Income exempt from tax	(13,755)	(12,960)
Basis differences that will reverse during a tax holiday period	66	(332)
Income taxed at higher/ (lower) rates	(7,393)	(7,736)
Taxes related to prior years	(4,141)	(2,306)
Changes in unrecognised deferred tax assets	123	(17)
Expenses disallowed for tax purpose	4,803	4,460
Others, net	470	538
Income tax expense	₹ 40,767	₹ 42,777
<i>Effective tax rate</i>	23.51%	24.45%

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The components of deferred tax assets and liabilities are as follows:

	As at March 31, 2026	As at March 31, 2025
Deferred tax assets		
Carry-forward losses ⁽¹⁾	₹ 784	₹ 898
Trade payables and other liabilities	7,886	7,106
Allowance for lifetime expected credit losses	2,016	1,428
Cash flow hedges	2,234	65
Contract Assets	151	-

Deferred taxes on unrealised foreign exchange gain/loss relating to cash flow hedges, fair value movements in investments and remeasurements of the defined benefit plans are recognised in other comprehensive income. Deferred tax liability on the intangible assets identified and carry forward losses on acquisitions is recorded by an adjustment to goodwill. Other than these, the change in deferred tax assets and liabilities is primarily recorded in the consolidated statement of profit and loss.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

In assessing the realisability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realised. The ultimate realisation of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Company believes that it is probable that the Company will realise the benefits of these deductible differences. The amount of deferred tax asset considered realisable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

Deferred tax asset amounting to ₹ 13,613 and ₹ 10,816 as at March 31, 2026 and 2025, respectively in respect of unused tax losses have not been recognised by the Company. The tax loss carry-forwards of ₹ 56,119 and ₹ 44,274 as at March 31, 2026 and 2025, respectively, on which deferred tax asset has not been recognised by the Company, because it is probable that future taxable profits will not be available against which the unused tax losses can be utilised in the foreseeable future. Approximately, ₹ 51,505 and ₹ 40,292 as at March 31, 2026 and 2025, respectively, of these tax loss carry-forwards is not currently subject to expiration dates. The remaining tax loss carry-forwards of approximately ₹ 4,614 and ₹ 3,982 as at March 31, 2026 and 2025, respectively, expires in various years through fiscal year 2046.

The Company has recognised deferred tax assets of ₹ 784 and ₹ 898 primarily in respect of carry forward losses including certain subsidiaries as at March 31, 2026 and 2025, respectively. Management's projections of future taxable income and tax planning strategies support the assumption that it is probable that sufficient taxable income will be available to utilise these deferred tax assets.

A substantial portion of the profits of the Company's India operations are exempt from Indian income taxes being profits attributable to export operations and profits from units established under the Special Economic Zone Act, 2005 scheme. Units in designated SEZs providing service on or after April 1, 2005 will be eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50% of such profits and gains for a further five years. A 50% tax deduction is available for a further five years subject to the unit meeting certain defined conditions. Profits from certain other undertakings are also eligible for preferential tax treatment. New SEZ units set up on or after April 1, 2021 are not eligible for the aforesaid deduction. The tax holiday period being currently available to the Company expires in various years through fiscal years 2034-35. The impact of tax holidays has resulted in a decrease of current tax expense of ₹ 13,092 and ₹ 11,798 for the years ended March 31, 2026 and 2025, respectively, compared to the effective tax amounts that the Company estimates it would have been required to pay if these incentives had not been available. The per equity share effect of these tax incentives for the years ended March 31, 2026 and 2025 is ₹ 1.25 and ₹ 1.13, respectively.

Deferred income tax liabilities are recognised for all taxable temporary differences except in respect of taxable temporary differences associated with investments in certain subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future. Accordingly, deferred income tax liabilities on cumulative earnings of certain subsidiaries amounting to ₹ 69,693 and ₹ 86,937 as at March 31, 2026 and 2025, respectively and branch profit tax at 15% of the U.S. branch profit have not been recognised. Further, it is not practicable to estimate the amount of the unrecognised deferred tax liabilities for these undistributed earnings.

The Pillar Two legislations are neither enacted nor substantively enacted by Government of India, where the parent company is incorporated. Pillar Two legislation has been enacted, or substantively enacted, in certain other jurisdictions where the Company operates. However, the Company does not expect any material financial impact for the year ended March 31, 2026. In line with amended Ind AS 12, the Company has not recognised deferred taxes related to Pillar Two income taxes and accordingly has applied the mandatory exception as per the said standard.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

29. FOREIGN CURRENCY TRANSLATION RESERVE

The movement in foreign currency translation reserve attributable to equity holders of the Company is summarised below:

	As at March 31, 2026	As at March 31, 2025
Balance at the beginning of the year	₹ 52,393	₹ 45,269
Translation difference related to foreign operations, net	45,860	7,179
Transfer of shares pertaining to Non-controlling interests of subsidiary	-	(14)
Reclassification of foreign currency translation differences on liquidation of subsidiaries to consolidated statement of profit and loss	-	(41)
Others	(5)	-
Balance at the end of the year	₹ 98,248	₹ 52,393

30. EARNINGS PER EQUITY SHARE

A reconciliation of profit for the year and equity shares used in the computation of basic and diluted earnings per equity share is set out below:

Basic: Basic earnings per equity share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year, excluding equity shares purchased by the Company and held as treasury shares.

	Year ended March 31, 2026	Year ended March 31, 2025
Profit attributable to equity holders of the Company	₹ 131,974	₹ 131,354
Weighted average number of equity shares outstanding	10,476,247,846	10,456,741,552
Basic earnings per equity share	₹ 12.60	₹ 12.56

Diluted: Diluted earnings per equity share is calculated by adjusting the weighted average number of equity shares outstanding during the year for assumed conversion of all dilutive potential equity shares. Employee share options are dilutive potential equity shares for the Company.

The calculation is performed in respect of share options to determine the number of equity shares that could have been acquired at fair value (determined as the average market price of the Company's equity shares during the year). The number of equity shares calculated as above is compared with the number of equity shares that would have been issued assuming the exercise of the share options.

	Year ended March 31, 2026	Year ended March 31, 2025
Profit attributable to equity holders of the Company	₹ 131,974	₹ 131,354
Weighted average number of equity shares outstanding	10,476,247,846	10,456,741,552
Effect of dilutive equivalent share options	27,175,090	32,197,840
Weighted average number of equity shares for diluted earnings per share	10,503,422,936	10,488,939,392
Diluted earnings per equity share	₹ 12.56	₹ 12.52

For the years ended March 31, 2026 and 2025, 1,586,275 and 1,294,623 options, respectively, were excluded from diluted weighted-average number of equity shares calculation because their effect would have been anti-dilutive.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

31. EMPLOYEE STOCK INCENTIVE PLANS

The stock compensation expense recognised for employee services received during the years ended March 31, 2026 and 2025 were ₹ 4,465 and ₹ 5,542, respectively.

Wipro Equity Reward Trust (“WERT”)

In 1984, the Company established a controlled trust called WERT. In the previous years, WERT purchased shares of the Company out of funds borrowed from the Company. The Company’s Nomination and Remuneration Committee recommends to WERT certain officers and key employees, to whom WERT issues shares from its holdings at nominal price subject to vesting conditions. WERT held 11,905,480 and 11,905,480 treasury shares as of March 31, 2026 and 2025, respectively.

Wipro Employee Restricted Stock Unit Option Plans

A summary of the general terms of grants under restricted stock unit (“RSU”) option plans are as follows:

Name of Plan	Number of options reserved under the plan	Range of exercise price
Wipro ADS Restricted Stock Unit Plan (WARSUP 2004 plan) ⁽¹⁾	174,595,958	U.S.\$ 0.03
Wipro Employee Restricted Stock Unit Plan 2005 (WSRUP 2005 plan) ⁽¹⁾	96,595,958	₹ 2
Wipro Employee Restricted Stock Unit Plan 2007 (WSRUP 2007 plan) ⁽¹⁾	67,663,302	₹ 2
Wipro Limited Employee Stock Options, Performance Stock Unit and/or Restricted Stock Unit Scheme 2024 (Wipro 2024 Scheme) ⁽¹⁾	400,000,000	U.S.\$ 0.03/₹ 2

⁽¹⁾ The maximum contractual term of these RSU option plans is perpetual until the options are available for grant under the plan.

Employees covered under RSU option plans are granted an option to purchase shares of the Company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest in tranches over a period of one to three years from the date of grant. Upon vesting, the employees can acquire one equity share for every option and can exercise within a period of twelve months from the vesting date of last tranche under the grant.

The activity in equity-settled RSU option plans is summarised below:

	Range of exercise price and weighted average exercise price	Year ended March 31, 2026	Year ended March 31, 2025
		Number of options	Number of options
Outstanding at the beginning of the year	₹ 2 U.S.\$ 0.03	18,634,747 36,956,579	7,735,669 18,851,226
Bonus on outstanding (Refer to Note 32)	₹ 2 U.S.\$ 0.03	- -	10,749,111 22,882,839
Granted	₹ 2 U.S.\$ 0.03	10,617,130 23,259,750	5,513,469 15,030,302
Adjustment of Performance based stock options on completion of performance measurement period	₹ 2 U.S.\$ 0.03	(1,841,526) (3,986,719)	(331,920) (499,875)
Exercised	₹ 2 U.S.\$ 0.03	(5,293,789) (10,982,620)	(3,731,212) (9,897,384)
Forfeited and expired	₹ 2 U.S.\$ 0.03	(2,771,279) (8,303,933)	(1,300,370) (9,410,529)
Outstanding at the end of the year	₹ 2 U.S.\$ 0.03	19,345,283 36,943,057	18,634,747 36,956,579
Exercisable at the end of the year	₹ 2 U.S.\$ 0.03	2,010,308 1,283,137	1,996,731 1,007,466

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company has granted below options under RSU and ADS option plans⁽¹⁾:

	Year ended March 31, 2026	Year ended March 31, 2025
Restricted Stock Units (RSU)	6,743,031	3,498,476
Performance based stock options (RSUs)	3,874,099	2,014,993
Total	10,617,130	5,513,469
ADS RSU	14,834,924	9,707,235
Performance based stock options (ADS)	8,424,826	5,323,067
Total	23,259,750	15,030,302

⁽¹⁾ Numbers in above table are not given effect of bonus shares issued during the year ended March 31, 2025.

During the year ended March 31, 2026, RSU and ADS grants were issued under Wipro 2024 Scheme. Performance-based stock options will vest based on the performance parameters of the Company.

The activity in cash-settled RSU option plans is summarised below:

	Year ended March 31, 2026	Year ended March 31, 2025
	Number of options	Number of options
Outstanding at the beginning of the year	-	7,000
Exercised	-	-
Forfeited and expired	-	(7,000)
Outstanding at the end of the year	-	-
Exercisable at the end of the year	-	-

The following table summarises information about outstanding RSU option plans:

Range of exercise price and weighted average exercise price	Year ended March 31, 2026		Year ended March 31, 2025	
	Number of options	Weighted average remaining life (months)	Number of options	Weighted average remaining life (months)
₹ 2	19,345,283	16	18,634,747	18
U.S.\$ 0.03	36,943,057	18	36,956,579	19

The weighted average grant date fair value of options granted during the years ended March 31, 2026 and 2025 was ₹ 249.40 and ₹ 454.58 for each option, respectively. The weighted average share price of options exercised during the years ended March 31, 2026 and 2025 was ₹ 246.01 and ₹ 389.52 for each option, respectively.

32. DIVIDENDS, BONUS ISSUES AND BUYBACK OF EQUITY SHARES

The Company declares and pays dividends in Indian Rupees. According to the Companies Act, 2013 any dividend should be declared out of accumulated distributable profits. A company may, before the declaration of any dividend, transfer a percentage of its profits for that financial year as it may consider appropriate to the reserves.

The cash dividends paid per equity share were ₹ 11 (₹ 5 declared on July 17, 2025 and ₹ 6 declared on January 16, 2026) and ₹ 6, during the years ended March 31, 2026 and 2025, respectively.

During the year ended March 31, 2025, the Company concluded bonus issue in the ratio of 1:1 i.e. 1 (one) bonus equity share of ₹ 2 each for every 1 (one) fully paid-up equity shares held (including ADS holders) was approved by the shareholders of the Company on November 21, 2024. Subsequently, on December 4, 2024, the Company allotted 5,232,094,402 equity shares (including ADS) to shareholders who held equity shares as on the record date of December 3, 2024. The Company also allotted 1:1 bonus equity share on 1,274,805 equity shares (including ADS) under allotment as on the record date. Consequently, ₹ 10,467 (representing par value of ₹ 2 per share) was transferred from capital redemption reserve, securities premium and retained earnings to the share capital.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

33. ADDITIONAL CAPITAL DISCLOSURES

The key objective of the Company's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Company's focus is to keep strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Company.

The Company's goal is to continue to be able to return excess liquidity to shareholders by continuing to distribute annual dividends in future periods. The amount of future dividends/ buyback of equity shares will be balanced with efforts to continue to maintain an adequate liquidity status.

The capital structure as of March 31, 2026 and 2025 was as follows:

	As at March 31, 2026	As at March 31, 2025	% Change
Equity attributable to the equity shareholders of the Company	₹ 880,183	₹ 823,641	7%
<i>As percentage of total capital</i>	<i>81%</i>	<i>81%</i>	
Current borrowings	165,912	97,863	
Non-current borrowings	1,962	63,954	
Current and non-current lease liabilities	35,036	30,218	
Total borrowings and lease liabilities	₹ 202,910	₹ 192,035	6%
<i>As percentage of total capital</i>	<i>19%</i>	<i>19%</i>	
Total capital	₹ 1,083,093	₹ 1,015,676	7%

Borrowings represents 15% and 16% of total capital as of March 31, 2026 and 2025, respectively. The Company is not subjected to any externally imposed capital requirements.

34. COMMITMENTS AND CONTINGENCIES

Capital commitments: As at March 31, 2026 and 2025 the Company had committed to spend approximately ₹ 9,416 and ₹ 8,719 respectively, under agreements to purchase/construct property and equipment. These amounts are net of capital advances paid in respect of these purchases. Refer to Note 9 for uncalled capital commitments on investment in equity instruments.

Guarantees: As at March 31, 2026 and 2025, guarantees provided by banks on behalf of the Company to the Indian Government, customers and certain other agencies amount to approximately ₹ 13,358 and ₹ 13,110 respectively, as part of the bank line of credit.

Contingencies and lawsuits: The Company is subject to legal proceedings and claims resulting from tax assessment orders/ penalty notices issued under the Income tax Act, 1961, which have arisen in the ordinary course of its business. Some of the claims involve complex issues and it is not possible to make a reasonable estimate of the expected financial effect, if any, that will result from ultimate resolution of such proceedings. However, the resolution of these legal proceedings is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

The Company's assessments in India are completed for the years up to March 31, 2022. The Company has received demands on multiple tax issues. These claims are primarily arising out of denial of deduction under section 10A of the Income Tax Act, 1961 in respect of profit earned by the Company's undertaking in Software Technology Park in Bengaluru, the appeals filed against the said demand before the appellate authorities have been allowed in favor of the Company by the second Appellate authority for the years up to March 31, 2008 which either has been or may be contested by the Income tax authorities before the Hon'ble Supreme Court of India. Other claims relate to disallowance of tax benefits on profits earned from Software Technology Park and special economic zone units, capitalisation of research and development expenses, transfer pricing adjustments on intercompany/ inter unit transactions and other issues.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Income tax claims against the Company amounting to ₹ 104,613 and ₹ 99,431 are not acknowledged as debt as at March 31, 2026 and 2025, respectively. These matters are pending before various appellate authorities and the management expects its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The contingent liability in respect of disputed demands for excise duty, custom duty, sales tax and other matters amounting to ₹ 20,733 and ₹ 19,292 as of March 31, 2026 and 2025, respectively. However, the resolution of these disputed demands is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

35. SEGMENT INFORMATION

The Company is now organised into the following operating segments: IT Services and IT Products.

IT Services: The IT Services segment primarily consists of IT services offerings to customers organised by four Strategic Market Units ("**SMUs**") - Americas 1, Americas 2, Europe and Asia Pacific, Middle East and Africa ("**APMEA**").

Americas 1 and Americas 2 are primarily organised by industry sector, while Europe and APMEA are organised by countries.

Americas 1 includes the entire business of Latin America ("**LATAM**") and the following industry sectors in the United States of America: Communication, Media and Networks, Technology Software and Gaming, Technology New Age, Health and Consumer. **Americas 2** includes the entire business in Canada and the following industry sectors in the United States of America: Banking and Financial services, Energy, Manufacturing and Resources, Capital markets and Insurance and Hi-tech. **Europe** consists of the United Kingdom and Ireland, Switzerland, Germany and Western Europe. **APMEA** consists of Australia and New Zealand, Southeast Asia, Japan, India, the Middle East and Africa.

Revenue from each customer is attributed to the respective SMUs based on the location of the customer's primary buying center of such services. With respect to certain strategic global customers, revenue may be generated from multiple countries based on such customer's buying centers, but the total revenue related to these strategic global customers are attributed to a single SMU based on the geographical location of key decision makers.

Our IT Services segment provides a range of AI-powered IT and IT-enabled services including AI advisory, industry & functional consulting, AI native development, customer centric design, modernization, custom application development, infrastructure services, cybersecurity services, data and analytics services, business process services, research and development, and hardware and software design. Through AI-powered, consulting-led solutions, we help our clients transform their businesses to drive better efficiencies and generate new growth opportunities.

IT Products: The Company is a value-added reseller of security, packaged and SaaS software for leading international brands. In certain total outsourcing contracts of the IT Services segment, the Company delivers hardware, software products and other related deliverables. Revenue relating to these items is reported as revenue from the sale of IT Products.

The Chief Executive Officer ("**CEO**") and managing director of the Company has been identified as the Chief Operating Decision Maker as defined by Ind AS 108, "Operating Segments". The CEO evaluates the segments based on their revenue growth and operating income.

Assets and liabilities used in the Company's business are not identified to any of the operating segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Information on reportable segments for the year ended March 31, 2026 is as follows:

	IT Services					IT Products	Reconciling Items	Total
	Americas 1	Americas 2	Europe	APMEA	Total			
Revenue	₹ 305,571	₹ 269,077	₹ 244,165	₹ 102,340	₹ 921,153	₹ 6,940	₹ -	₹ 928,093
Segment result	62,896	53,138	31,083	14,955	162,072	559	(7,954)	154,677
Unallocated					(3,426)	-	-	(3,426)
Segment result total					₹ 158,646	₹ 559	₹ (7,954)	₹ 151,251
Finance costs								(14,577)
Finance and other income								36,491
Share of net profit /(loss) of associate and joint venture accounted for using the equity method								257
Profit before tax								₹ 173,422
Income tax expense								(40,767)
Profit for the year								₹ 132,655
Depreciation, amortisation and impairment								₹ 29,107

Information on reportable segments for the year ended March 31, 2025 is as follows:

	IT Services					IT Products	Reconciling Items	Total
	Americas 1	Americas 2	Europe	APMEA	Total			
Revenue	₹ 281,824	₹ 271,972	₹ 240,077	₹ 94,351	₹ 888,224	₹ 2,692	₹ -	₹ 890,916
Segment result	58,186	61,326	29,434	12,850	161,796	(173)	(195)	161,428
Unallocated					(10,157)	-	-	(10,157)
Segment result total					₹ 151,639	₹ (173)	₹ (195)	₹ 151,271
Finance costs								(14,770)
Finance and other income								38,202
Share of net profit /(loss) of associate accounted for using the equity method								254
Profit before tax								₹ 174,957
Income tax expense								(42,777)
Profit for the year								₹ 132,180
Depreciation, amortisation and impairment								₹ 29,579

Revenues from India, being the Company's country of domicile, were ₹ 23,446 and ₹ 20,699 for years ended March 31, 2026 and 2025, respectively.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Revenues from the United States of America and United Kingdom contributed more than 10% of Company's total revenues as per table below:

	Year ended March 31, 2026	Year ended March 31, 2025
United States of America	₹ 553,186	₹ 529,943
United Kingdom	97,041	95,241
Total	₹ 650,227	₹ 625,184

No customer individually accounted for more than 10% of the revenues during the years ended March 31, 2026 and 2025.

Management believes that it is currently not practicable to provide disclosure of geographical location wise assets, since the meaningful segregation of the available information is onerous.

Notes:

- "Reconciling Items" includes elimination of inter-segment transactions and other corporate activities.
- Revenue from sale of Company owned Intellectual Properties is reported as a part of IT Services revenues.
- For the purpose of segment reporting, the Company has included the impact of "Foreign exchange gains/(losses), net" amounting to ₹ 1,853 and ₹ 32 for the fiscal years ended March 31, 2026 and 2025, respectively, in revenues, which is reported as a part of 'Other income' in the consolidated statement of profit and loss.
- Restructuring cost of ₹ 5,139 and ₹ Nil is included under Reconciling items for the years ended March 31, 2026 and 2025, respectively.
- Impact of past service cost on gratuity and remeasurement of leave encashment due to implementation of new labour code amounting to ₹ 2,756 for the year ended March 31, 2026, is included under Reconciling items.
- "Unallocated" within IT Services segment results is after recognition of the below:

	Year ended March 31, 2026	Year ended March 31, 2025
Amortisation and impairment expenses on intangible assets (Refer to Note 7)	₹ 7,787	₹ 7,909
Change in fair value of contingent consideration (Refer to Note 10)	49	(169)

- Segment results of IT Services segment are after recognition of gain/(loss) on sale of property, plant and equipment of ₹ 393 and ₹ 606 for the years ended March 31, 2026 and 2025, respectively.
- Segment results of IT Services segment are after recognition of share-based compensation expense ₹ 4,465 and ₹ 5,542 for the years ended March 31, 2026 and 2025, respectively.

Notes to the Consolidated Financial Statements

⁽¹⁰⁾ Capco RISC Consulting LLC merged with The Capital Markets Company, LLC during the year ended March 31, 2026.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

38. On November 21, 2025, the Government of India notified four labour codes (the “**Labour Codes**”), effective immediately, replacing the existing 29 labour laws. In accordance with Ind AS 19, employee benefits and changes to employee benefit plans arising from legislative amendments are treated as plan amendments, requiring immediate recognition of past service cost in the Statement of profit and loss. This approach is consistent with the guidance issued by the Institute of Chartered Accountants of India.

The Company has concluded the salary restructuring exercise in compliance with the Labour Codes. The implementation of the Labour Codes has resulted in a net increase of ₹ 2,756 in the provision for gratuity and remeasurement of leave encashment, which has been recognised as employee benefit expense in the current year. The Company continues to monitor the finalisation of Central and State Rules, as well as Government clarifications on other aspects of the Labour Codes.

39. EVENTS AFTER THE REPORTING PERIOD

- a) The Company completed its acquisition of Mindsprint, Olam Group’s IT services arm, a provider of technology and digital transformation services in May 2026 for a total consideration of U.S.\$ 375 million.
- b) On April 14, 2026, the Company signed a definitive agreement to acquire select customer contracts of Alpha Net Consulting, a provider of enterprise software development, data engineering, and managed services for a total consideration (including earnouts) of U.S.\$ 70.8 million. The acquisition is subject to customary closing conditions and is expected to be concluded by quarter ending June 30, 2026.
- c) On April 16, 2026, the Company’s Board of Directors approved a proposal to buyback of equity shares, subject to the approval of shareholders, for purchase by the Company of up to 600,000,000 equity shares of ₹ 2 each (being 5.7% of total number of equity shares) from the shareholders of the Company on a proportionate basis by way of a tender offer at a price of ₹ 250 per equity share for an aggregate amount not exceeding ₹ 150,000, in accordance with the provisions contained in the SEBI (Buy-back of Securities) Regulations, 2018, as amended and the Companies Act, 2013 and rules made thereunder. This proposal was approved by the shareholders of the Company by way of a special resolution dated May 21, 2026, passed through postal ballot by e-voting.
- d) On June 1, 2026, the Company acquired additional 20% equity interest in Aggne Global Inc. for a consideration of U.S. \$ 28.5 million.

Report of Independent Registered Public Accounting Firm ●

To the Shareholders and the Board of Directors of Wipro Limited

OPINION ON THE FINANCIAL STATEMENTS

We have audited the accompanying consolidated statements of financial position of Wipro Limited and subsidiaries (the “Company”) as of March 31, 2026 and 2025, the related consolidated statements of income, comprehensive income, changes in equity, and cash flows, for each of the three years in the period ended March 31, 2026, and the related notes (collectively referred to as the “financial statements”). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of March 31, 2026 and 2025, and the results of its operations and its cash flows for each of the three years in the period ended March 31, 2026, in conformity with IFRS Accounting Standards as issued by the International Accounting Standards Board (IASB).

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company’s internal control over financial reporting as of March 31, 2026, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated June 2, 2026, expressed an unqualified opinion on the Company’s internal control over financial reporting.

BASIS FOR OPINION

These financial statements are the responsibility of the Company’s management. Our responsibility is to express an opinion on the Company’s financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

CRITICAL AUDIT MATTER

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Revenue from fixed-price contracts using the percentage-of-completion method - Refer Notes 2 (iv)(a), 3(xiv)B(i) and 24 to the financial statements.

Critical Audit Matter Description

Revenue from fixed-price contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, is recognized using the percentage-of-completion method.

Use of the percentage-of-completion method requires the Company to determine the project costs incurred to date as a percentage of total estimated project costs at completion. The estimation of total project costs involves significant judgment and is assessed throughout the period of the contract to reflect any changes based on the latest available information. In addition, provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the total estimated project costs.

We identified the revenue recognition for fixed-price contracts where the percentage-of-completion method is used as a critical audit matter because of the significant judgment involved in estimating the efforts to complete such contracts.

This estimate has a high inherent uncertainty and requires consideration of progress of the contract, efforts incurred to-date and estimates of efforts required to complete the remaining performance obligations.

This required a high degree of auditor judgment in evaluating the audit evidence supporting estimated efforts to complete and a higher extent of audit effort to evaluate the reasonableness of the total estimated efforts used to recognize revenue from fixed-price contracts using the percentage-of-completion method.

How the Critical Audit Matter Was Addressed in the Audit

Our audit procedures related to estimate of efforts to complete for fixed-price contracts accounted using the percentage-of-completion method included the following, among others:

- We tested the effectiveness of controls relating to (1) recording of efforts incurred and estimation of efforts required to complete the remaining performance obligations, and (2) access and application controls pertaining to time recording and allocation systems, which prevents unauthorized changes to recording of efforts incurred.
- We selected a sample of fixed-price contracts with customers accounted using percentage-of-completion method and performed the following:
 - Read the contract and based on the terms and conditions evaluated whether recognizing revenue over time using percentage-of-completion method was appropriate, and confirmed that the contract was included in management's calculation of revenue over time.
 - Evaluated the appropriateness of and consistency in the application of management's policies and methodologies to estimate progress towards satisfying the performance obligation.
 - Compared efforts incurred to date with Company's estimate of efforts incurred to date to identify significant variations and evaluate whether those variations have been considered appropriately in estimating the remaining efforts to complete the contract.
 - Tested the estimate for consistency with the status of delivery of milestones, customer acceptances and other related information to identify possible delays in achieving milestones, which require changes in estimated efforts to complete the remaining performance obligations.

Bengaluru, India
June 2, 2026

We have served as the Company's auditor since fiscal 2018.

Report of Independent Registered Public
Accounting Firm ●

To the Shareholders and the Board of Directors of Wipro Limited

OPINION ON INTERNAL CONTROL OVER FINANCIAL
REPORTING

We have audited the internal control over financial reporting of Wipro Limited and subsidiaries (the “Company”) as of March 31, 2026, based on criteria established in Internal Control — Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of March 31, 2026, based on criteria established in Internal Control — Integrated Framework (2013) issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the financial statements as of and for the year ended March 31, 2026, of the Company and our report dated June 2, 2026, expressed an unqualified opinion on those financial statements.

BASIS FOR OPINION

The Company’s management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management’s Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company’s internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

DEFINITION AND LIMITATIONS OF INTERNAL CONTROL OVER FINANCIAL REPORTING

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

The accompanying notes form an integral part of these consolidated financial statements.

1. THE COMPANY OVERVIEW

Wipro Limited (“**Wipro**” or the “**Parent Company**”), together with its subsidiaries and controlled trusts (collectively, “**we**”, “**us**”, “**our**”, “**the Company**” or “**the Group**”) is a leading artificial intelligence (“**AI**”) powered technology services and consulting company focused on building innovative solutions that address clients’ most complex digital transformation needs. Leveraging our consulting-led approach and the Wipro Intelligence™ unified suite of AI-powered platforms, solutions and transformative offerings, we help clients realize their boldest ambitions to build intelligent and sustainable businesses.

Wipro is a public limited company incorporated and domiciled in India. The address of its registered office is Wipro Limited, Doddakannelli, Sarjapur Road, Bengaluru – 560 035, Karnataka, India. The Company has its primary listing with BSE Ltd. and National Stock Exchange of India Limited. The Company’s American Depository Shares (“**ADS**”) representing equity shares are also listed on the New York Stock Exchange.

The Company’s Board of Directors authorized these consolidated financial statements for issue on June 2, 2026.

2. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS

(i) Statement of compliance and basis of preparation

The consolidated financial statements have been prepared in compliance with International Financial Reporting Standards and its interpretations (“**IFRS**”), as issued by the International Accounting Standards Board (“**IASB**”). All accounting policies have been applied consistently to all periods presented in these consolidated financial statements, except for new accounting standards adopted by the Company.

The consolidated financial statements correspond to the classification provisions contained in IAS 1(revised), “*Presentation of Financial Statements*”. For clarity, various items are aggregated in the consolidated statement of income, consolidated statement of comprehensive income and consolidated statement of financial position. These items are disaggregated separately in the notes to the consolidated financial statements, where applicable.

The assets which are expected to be realized within a period of twelve months from the end of reporting period are classified as current assets. Similarly, the liabilities which are expected to be settled within a period of twelve months from the end of reporting period are classified as current liabilities. All other assets and liabilities are classified as non-current.

All amounts included in the consolidated financial statements are reported in millions of Indian Rupees (₹ in millions) except share and per share data, unless otherwise stated. Due to rounding off, the numbers presented throughout the document may not add up precisely to the totals and percentages may not precisely reflect the absolute figures. Previous year figures have been regrouped/rearranged, wherever necessary.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(ii) Basis of measurement

The consolidated financial statements have been prepared on a historical cost convention and on an accrual basis, except for the following material items which have been measured at fair value as required by relevant IFRS:

- a. Derivative financial instruments;
- b. Financial instruments classified as fair value through other comprehensive income or fair value through profit or loss;
- c. The defined benefit liability/(asset) is recognized as the present value of defined benefit obligation less fair value of plan assets; and
- d. Contingent consideration and liability on written put options.

(iii) Convenience translation (unaudited)

The accompanying consolidated financial statements have been prepared and reported in Indian Rupees, the functional currency of the Parent Company. Solely for the convenience of the readers, the consolidated financial statements as at and for the year ended March 31, 2026, have been translated into United States Dollars at the certified foreign exchange rate of U.S.\$ 1 = ₹ 93.83 as published by Federal Reserve Board of Governors on March 31, 2026. No representation is made that the Indian Rupee amounts have been, could have been or could be converted into United States Dollars at such a rate or any other rate. Due to rounding off, the translated numbers presented throughout the document may not add up precisely to the totals.

(iv) Use of estimates and judgment

The preparation of the consolidated financial statements in conformity with IFRS requires the management to make judgments, accounting estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income, and expenses. Accounting estimates are monetary amounts in the consolidated financial statements that are subject to measurement uncertainty. An accounting policy may require items in consolidated financial statements to be measured

at monetary amounts that cannot be observed directly and must instead be estimated. In such a case, management develops an accounting estimate to achieve the objective set out by the accounting policy. Developing accounting estimates involves the use of judgments or assumptions based on the latest available and reliable information. Actual results may differ from those accounting estimates.

Accounting estimates and underlying assumptions are reviewed on an ongoing basis. Changes to accounting estimates are recognized in the period in which the estimates are changed and in any future periods affected. In particular, information about material areas of estimation, uncertainty and critical judgments in applying accounting policies that have the material effect on the amounts recognized in the consolidated financial statements are included in the following notes:

- a) **Revenue recognition:** The Company applies judgment to determine whether each product or service promised to a customer is capable of being distinct, and is distinct in the context of the contract, if not, the promised product or service is combined and accounted as a single performance obligation. The Company allocates the Transaction Price (as defined below in Note 3(xiv)) to separately identifiable performance obligation deliverables based on their relative stand-alone selling price. In cases where the Company is unable to determine the stand-alone selling price the Company uses expected cost-plus margin approach in estimating the stand-alone selling price. The Company uses the percentage of completion method using the input (cost expended) method to measure progress towards completion in respect of fixed-price contracts. Percentage of completion method accounting relies on estimates of total expected contract revenue and costs. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

are assessed continually during the term of these contracts, revenue recognized, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. When estimates indicate that a loss will be incurred, the loss is provided for in the period in which the loss becomes probable. Volume discounts are recorded as a reduction of revenue. When the amount of discount varies with the levels of revenue, volume discount is recorded based on estimate of future revenue from the customer.

- b) **Impairment testing:** Goodwill recognized on business combination is tested for impairment at least annually and when events occur or changes in circumstances indicate that the recoverable amount of goodwill or a cash generating unit to which goodwill pertains, is less than the carrying value. The Company assesses acquired intangible assets with finite useful life for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. The recoverable amount of an asset or a cash generating unit is higher of value-in-use and fair value less cost of disposal. The calculation of value in use of an asset or a cash generating unit involves use of significant estimates and assumptions which include turnover, growth rates and net margins used to calculate projected future cash flows, risk-adjusted discount rate, future economic and market conditions.
- c) **Income taxes:** The major tax jurisdictions for the Company are India and the United States.

Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Deferred tax is recorded on temporary differences between the tax bases of assets and liabilities and their carrying amounts, at the rates that have been enacted or substantively enacted at the reporting date. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers expected reversal of deferred tax liabilities and projected

future taxable income in making this assessment. The amount of deferred tax assets considered realizable, however, could reduce in the near term if estimates of future taxable income during the carry-forward period are reduced.

- d) **Business combinations:** In accounting for business combinations, judgment is required to assess whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets acquired (including useful life estimates), liabilities assumed, and contingent consideration assumed involves management judgment. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the results of operations.
- e) **Defined benefit plans and compensated absences:** The cost of the defined benefit plans, compensated absences and the present value of the defined benefit obligations are based on actuarial valuation using the projected unit credit method. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.
- f) **Expected credit losses on financial assets:** The impairment provisions of financial assets are based on assumptions about risk of default and expected timing of collection. The Company uses judgment in making these assumptions and selecting the inputs to the expected credit loss calculation based on the Company's history of collections, customer's creditworthiness, existing market conditions as well as forward-looking estimates at the end of each reporting period.
- g) **Useful lives of property, plant and equipment:** The Company depreciates property, plant and equipment on a straight-line basis over estimated useful lives of the assets. The charge in respect of periodic depreciation is derived based on an estimate of an

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

asset's expected useful life and the expected residual value at the end of its life. The lives are based on historical experience with similar assets as well as anticipation of future events, which may impact their life, such as changes in technology. The estimated useful life is reviewed at least annually.

- h) **Provisions and contingent liabilities:** The Company estimates the provisions that have present obligations as a result of past events and it is probable that outflow of resources will be required to settle the obligations. These provisions are reviewed at the end of each reporting date and are adjusted to reflect the current best estimates.

The Company uses significant judgment to disclose contingent liabilities. Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made. Contingent assets are neither recognized nor disclosed in the financial statements.

3. MATERIAL ACCOUNTING POLICY INFORMATION

(i) Basis of consolidation

Subsidiaries and controlled trusts

The Company determines the basis of control in line with the requirements of *IFRS 10, Consolidated Financial Statements*. Subsidiaries and controlled trusts are entities controlled by the Group. The Group controls an entity when the parent has power over the entity, it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries and controlled trusts are included in the consolidated financial statements from the date on which control commences until the date on which control ceases.

The financial statements of the Group companies are consolidated on a line-by-line basis and all intra-Group balances, transactions, income and expenses are eliminated in full on consolidation.

Non-controlling interests

Non-controlling interests in the net assets (excluding goodwill) of consolidated subsidiaries are identified separately from the Company's equity. The interest of non-controlling shareholders may be initially measured either at fair value or at the non-controlling interest's proportionate share of the fair value of the acquiree's identifiable net assets. The choice of measurement basis is made on an acquisition to acquisition basis. Subsequent to acquisition, the carrying amount of non-controlling interests is the amount of those interests at initial recognition plus the non-controlling interest's share of subsequent changes in equity. Total comprehensive income is attributed to non-controlling interests even if it results in the non-controlling interests having a deficit balance.

Liability for written put options to non-controlling interests

At initial recognition, the liability for put options issued to non-controlling interests, to be settled in cash by the Company, which do not grant present access to ownership interest to the Company is recognized as financial liability at present value of the redemption amount with a corresponding debit in other reserves within equity.

The liability is subsequently remeasured at the end of each period and accreted through financial expenses up to the redemption amount that is payable at the date at which the option first becomes exercisable. In the event that the option expires unexercised, the liability is derecognized with a corresponding adjustment to equity.

Investments accounted for using the equity method

Investments accounted for using the equity method are entities in respect of which, the Company has significant influence, but not control, over the

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

financial and operating policies. Generally, a company has a significant influence if it holds between 20% and 50% of the voting power of another entity. Investments in such entities are accounted for using the equity method and are initially recognized at cost. The carrying amount of investment is increased/ decreased to recognize investors share of profit or loss of the investee after the acquisition date.

(ii) Functional and presentation currency

Items included in the financial statements of each of the Company's entities are measured using the currency of the primary economic environment in which these entities operate (i.e. the "functional currency"). These consolidated financial statements are presented in Indian Rupees, which is the functional currency of the Parent Company.

(iii) Foreign currency transactions and translation

a) Transactions and balances

Transactions in foreign currency are translated into the respective functional currencies using the exchange rates prevailing at the date of the transaction. Foreign exchange gains and losses resulting from the settlement of such transactions and from translation at the exchange rates prevailing at the reporting date of monetary assets and liabilities denominated in foreign currencies are recognized in the consolidated statement of income and reported within foreign exchange gains/(losses), net, within results of operating activities except when deferred in other comprehensive income as qualifying cash flow hedges and qualifying net investment hedges. Net loss relating to translation or settlement of borrowings denominated in foreign currency are reported within finance expense. Net gain relating to translation or settlement of borrowings denominated in foreign currency are reported within finance and other income. Non-monetary assets and liabilities denominated in foreign currency and measured at historical cost are translated at the exchange rate prevalent at the date of transaction. Translation differences on non-monetary financial assets measured at fair value at the reporting date, such as equities classified as financial instruments measured

at fair value through other comprehensive income are included in other comprehensive income, net of taxes.

b) Foreign operations

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Company's foreign operations that have a functional currency other than Indian Rupees are translated into Indian Rupees using exchange rates prevailing at the reporting date. Income and expense items are translated at the average exchange rates for the period. Exchange differences arising, if any, are recognized in other comprehensive income and held in foreign currency translation reserve ("FCTR"), a component of equity, except to the extent that the translation difference is allocated to non-controlling interest. When a foreign operation is disposed of, the relevant amount recognized in FCTR is transferred to the consolidated statement of income as part of the profit or loss on disposal. Goodwill and fair value adjustments arising on the acquisition of a foreign operation are treated as assets and liabilities of the foreign operation and translated at the exchange rate prevailing at the reporting date.

c) Others

Foreign currency differences arising on the translation or settlement of a financial liability designated as a hedge of a net investment in a foreign operation are recognized in other comprehensive income and presented within equity in the FCTR to the extent the hedge is effective. To the extent the hedge is ineffective, such differences are recognized in the consolidated statement of income.

When the hedged part of a net investment is disposed of, the relevant amount recognized in FCTR is transferred to the consolidated statement of income as part of the profit or loss on disposal. Foreign currency differences arising from translation of intercompany receivables or payables relating to foreign operations, the settlement of which is neither planned nor likely in the foreseeable future, are considered to form part of net investment in foreign operation and are recognized in FCTR.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(iv) Financial Instruments

A) Non-derivative Financial Instruments:

Non-derivative Financial Instruments consist of:

- financial assets which include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, investments in equity and debt securities and eligible current and non-current assets; and
- financial liabilities which include long and short-term loans and borrowings, bank overdrafts, trade payables and accrued expenses, lease liabilities and eligible current and non-current liabilities.

Non-derivative financial instruments other than trade receivables and unbilled receivables are recognized initially at fair value. Trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price. Subsequent to initial recognition, non-derivative financial instruments are measured as described below:

a. Cash and Cash Equivalents

The Company's cash and cash equivalents consist of cash on hand and in banks and demand deposits with banks, which can be withdrawn at any time, without prior notice or penalty on the principal.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents include cash on hand, in banks and demand deposits with banks, net of outstanding bank overdrafts that are repayable on demand and are considered part of the Company's cash management system. In the consolidated statement of financial position, bank overdrafts are presented under loans and borrowings within current financial liabilities.

b. Investments

Financial instruments measured at amortized cost:

Debt instruments that meet the following criteria are measured at amortized cost (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Financial instruments measured at fair value through other comprehensive income ("FVTOCI"):

Debt instruments that meet the following criteria are measured at FVTOCI (except for debt instruments that are designated at fair value through profit or loss on initial recognition):

- the asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial asset; and
- the contractual terms of the instrument give rise on specified dates to cash flows that are solely payment of principal and interest on the principal amount outstanding.

Interest income is recognized in the consolidated statement of income for FVTOCI debt instruments. Other changes in fair value of FVTOCI financial assets are recognized in other comprehensive income. When the investment is disposed of, the cumulative gain or loss previously accumulated in reserves is transferred to the consolidated statement of income.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Financial instruments Measured at Fair Value through Profit or Loss ("FVTPL"):

Instruments that do not meet the amortized cost or FVTOCI criteria are measured at FVTPL. Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any gains or losses arising on re-measurement recognized in the consolidated statement of income. The gain or loss on disposal is recognized in the consolidated statement of income.

Interest income is recognized in the consolidated statement of income for FVTPL debt instruments. Dividends on financial assets at FVTPL is recognized when the Company's right to receive dividends is established.

Investments in Equity Instruments:

The Company carries certain equity instruments which are not held for trading. At initial recognition, the Company may make an irrevocable election to present subsequent changes in the fair value of an investment in an equity instrument in other comprehensive income (FVTOCI) or through statement of income (FVTPL). For investments designated to be classified as FVTOCI, movements in fair value of investments are recognized in other comprehensive income and the gain or loss is not transferred to consolidated statement of income on disposal of investments. For investments designated to be classified as FVTPL, both movements in fair value of investments and gain or loss on disposal of investments are recognized in the consolidated statement of income.

Dividends from these investments are recognized in the consolidated statement of income when the Company's right to receive dividends is established.

When the investment in equity instruments is derecognized, the cumulative gain or loss in other comprehensive income is transferred to retained earnings.

c. Other Financial Assets:

Other financial assets are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. These comprise trade receivables, unbilled receivables, finance lease receivables, employee and other advances and eligible current and non-current assets. They are presented as current assets, except for those expected to be realized later than twelve months after the reporting date which are presented as non-current assets. All financial assets are initially recognized at fair value and subsequently measured at amortized cost using the effective interest method, less any impairment losses. However, trade receivables and unbilled receivables that do not contain a significant financing component are measured at the Transaction Price.

d. Trade payables, accrued Expenses, and other Liabilities

Trade payables, accrued expenses, and other liabilities are initially recognized at the transaction price, and subsequently carried at amortized cost using the effective interest method. For these financial instruments, the carrying amounts approximate fair value due to the short-term maturity of these instruments. Contingent consideration recognized in a business combination is initially recognized at fair value and subsequently measured at fair value through profit or loss.

B) Derivative Financial Instruments

The Company is exposed to foreign currency fluctuations on foreign currency assets, liabilities, net investment in foreign operations and forecasted cash flows denominated in foreign currency.

The Company limits the effect of foreign exchange rate fluctuations by following established risk management policies including the use of derivatives. The Company enters into derivative financial instruments where the counterparty is primarily a bank.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Derivative financial instruments are recognized and measured at fair value. Attributable transaction costs are recognized in the consolidated statement of income as cost.

Subsequent to initial recognition, derivative financial instruments are measured as described below:

a. Cash flow hedges

Changes in the fair value of the derivative hedging instruments designated as a cash flow hedge are recognized in other comprehensive income and held in cash flow hedging reserve, net of taxes, a component of equity, to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the consolidated statement of income and reported within foreign exchange gains/(losses), net, within results from operating activities. If the hedging instrument no longer meets the criteria for hedge accounting, then hedge accounting is discontinued prospectively. If the hedging instrument expires or is sold, terminated or exercised, the cumulative gain or loss on the hedging instrument recognized in cash flow hedging reserve till the period the hedge was effective remains in cash flow hedging reserve until the forecasted transaction occurs. The cumulative gain or loss previously recognized in the cash flow hedging reserve is transferred to the consolidated statement of income upon the occurrence of the related forecasted transaction. If the forecasted transaction is no longer expected to occur, such cumulative balance is immediately recognized in the consolidated statement of income.

b. Hedges of net investment in foreign operations

The Company designates derivative financial instruments as hedges of net investments in foreign operations. The Company also designates foreign currency denominated

borrowing as a hedge of net investment in foreign operations. Changes in the fair value of the derivative hedging instruments and gains/(losses) on translation or settlement of foreign currency denominated borrowings designated as a hedge of net investment in foreign operations are recognized in other comprehensive income and presented within equity in the FCTR to the extent that the hedge is effective. To the extent that the hedge is ineffective, changes in fair value are recognized in the consolidated statement of income and reported within foreign exchange gains/(losses), net within results from operating activities.

c. Others

Changes in fair value of foreign currency derivative instruments neither designated as cash flow hedges nor hedges of net investment in foreign operations are recognized in the consolidated statement of income and reported within foreign exchange gains/(losses), net within results from operating activities. Changes in fair value and gains/(losses), net, on settlement of foreign currency derivative instruments relating to borrowings, which have not been designated as hedges are recorded in finance expenses.

C) Derecognition of financial instruments

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire or it transfers the financial asset and the transfer qualifies for derecognition under IFRS 9. If the Company retains substantially all the risks and rewards of a transferred financial asset, the Company continues to recognize the financial asset and recognizes a borrowing for the proceeds received. A financial liability (or a part of a financial liability) is derecognized from the Company's consolidated statement of financial position when the obligation specified in the contract is discharged or cancelled or expires.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(v) Equity and share capital

a) Share capital and share premium

The authorized share capital of the Company as at March 31, 2026 is ₹ 25,352 divided into 12,543,500,000 equity shares of ₹ 2 each, 25,000,000 preference shares of ₹ 10 each and 150,000 10% optionally convertible cumulative preference shares of ₹ 100 each. Par value of the equity shares is recorded as share capital and the amount received in excess of par value is classified as share premium.

Every holder of equity shares, as reflected in the records of the Company, as at the date of the shareholder meeting shall have one vote in respect of each share held for all matters submitted to vote in the shareholder meeting.

b) Shares held by controlled trust (Treasury shares)

The Company's equity shares held by the controlled trust, which is consolidated as part of the Group are classified as treasury shares. Treasury shares are recorded at acquisition cost. Reconciliation of the number of treasury shares held by controlled trust is as follows:

	As at March 31, 2024	As at March 31, 2025	As at March 31, 2026
	No. of shares	No. of shares	No. of shares
Opening number of equity shares	9,895,836	5,952,740	11,905,480
Less: Transferred to eligible employees on exercise of options	(3,943,096)	-	-
Add: Bonus issue of equity shares (Refer to Note 22)	-	5,952,740	-
Closing number of equity shares	5,952,740	11,905,480	11,905,480

c) Retained earnings

Retained earnings is comprised of the Company's undistributed earnings after taxes and is freely available for distribution. This includes capital reserve

as at March 31, 2024, 2025 and 2026 amounting to ₹ 1,139, ₹ 1,139 and ₹ 1,139 respectively, which is not freely available for distribution.

d) Special Economic Zone re-investment reserve

The Special Economic Zone ("SEZ") re-investment reserve has been created out of profit of eligible SEZ units as per provisions of section 10AA(1)(ii) of the Income-tax Act, 1961 for acquiring new plant and machinery. The said reserve should be utilized by the Company for acquiring plant and machinery as per the terms of Section 10AA(2) of the Income-tax Act, 1961. This reserve is not freely available for distribution.

e) Share-based payment reserve

The share-based payment reserve is used to record the value of equity-settled share-based payment transactions with employees. The amounts recorded in share-based payment reserve are transferred to share premium upon exercise of stock options and restricted stock unit options by employees.

f) Foreign currency translation reserve

The exchange differences arising from the translation of financial statements of foreign operations, differences arising from translation of long-term inter-company receivables or payables relating to foreign operations, settlement of which is neither planned nor likely in the foreseeable future, changes in fair value of the derivative hedging instruments and gains/losses on translation or settlement of foreign currency denominated borrowings designated as hedge of net investment in foreign operations are recognized in other comprehensive income, net of taxes and presented within equity in the FCTR.

g) Cash flow hedging reserve

Changes in fair value of derivative hedging instruments designated and effective as a cash flow hedge are recognized in other comprehensive income, net of taxes and presented within equity as cash flow hedging reserve.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

h) Other reserves

Changes in the fair value of financial instruments measured at fair value through other comprehensive income and actuarial gains and losses on remeasurements of the defined benefit plans are recognized in other comprehensive income, net of taxes and presented within equity in other reserves.

Other reserves also include capital redemption reserve, which is not freely available for distribution. As per the Companies Act, 2013, capital redemption reserve is created when a company purchases its own shares out of free reserves or share premium. A sum equal to the nominal value of the shares so purchased is transferred to capital redemption reserve. The reserve can be utilized in accordance with the provisions of Section 69 of the Companies Act, 2013. As at March 31, 2024, 2025 and 2026, capital redemption reserve amounting to ₹ 1,661, ₹ Nil and ₹ Nil respectively, is not freely available for distribution.

i) Dividend

A final dividend on common stock is recorded as a liability on the date of approval by the shareholders. An interim dividend is recorded as a liability on the date of declaration by the Company's Board of Directors.

j) Buyback of equity shares

The buyback of equity shares, including tax thereon and related transaction costs are recorded as a reduction of share premium and retained earnings. Further, capital redemption reserve is created as an apportionment from retained earnings.

k) Bonus issue

For the purpose of bonus issue, the amount is transferred from capital redemption reserves, share premium and retained earnings to the share capital.

(vi) Property, plant and equipment

a) Recognition, measurement and derecognition

Property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenditures directly attributable to the acquisition of the asset. General and specific borrowing costs directly attributable to the construction of a qualifying asset are capitalized as part of the cost till all the activities necessary to prepare the qualifying asset for its intended use or sale are substantially completed. The cost and related accumulated depreciation are derecognized upon sale or disposition of the asset and the resultant gains or losses are recognized in the consolidated statement of income.

Capital work-in-progress are measured at cost less accumulated impairment losses, if any.

b) Depreciation

The Company depreciates property, plant and equipment over the estimated useful life on a straight-line basis from the date the assets are available for use. Leasehold improvements are amortized over the shorter of estimated useful life of the asset or the related lease term. Term licenses are amortized over their respective contract term. Freehold land is not depreciated. The estimated useful life of assets is reviewed and where appropriate are adjusted, annually. The estimated useful lives of assets are as follows:

Category	Useful life
Buildings	28 to 40 years
Plant and equipment	5 to 21 years
Computer equipment and software	2 to 7 years
Furniture, fixtures and equipment	5 years
Vehicles	4 to 5 years

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. Subsequent expenditure relating to property, plant and equipment is capitalized only when it is probable that future economic benefits associated with these will flow to the Company and the cost of the item can be measured reliably.

Deposits and advances paid towards the acquisition of property, plant and equipment outstanding as at each reporting date and the cost of property, plant and equipment not available for use before such date are disclosed under capital work-in-progress.

(vii) Business combinations, goodwill, and intangible assets

a) Business combinations

Business combinations are accounted for using the purchase (acquisition) method. The cost of an acquisition is measured as the fair value of the assets transferred, liabilities incurred or assumed, and equity instruments issued at the date of exchange by the Company. Identifiable assets acquired, and liabilities and contingent liabilities assumed in a business combination are measured initially at fair value at the date of acquisition. Transaction costs incurred in connection with a business acquisition are expensed as incurred.

The cost of an acquisition also includes the fair value of any contingent consideration measured as at the date of acquisition. Any subsequent changes to the fair value of contingent consideration classified as liabilities, other than measurement period adjustments, are recognized in the consolidated statement of income.

b) Goodwill

The excess of the cost of an acquisition over the Company's share in the fair value of the acquiree's identifiable assets and liabilities is recognized as goodwill. If the excess is negative, a bargain purchase gain is recognized immediately in the consolidated statement of income. Goodwill is measured at cost less accumulated impairment (if any).

Goodwill associated with disposal of an operation that is part of a cash-generating unit is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained, unless some other method better reflects the goodwill associated with the operation disposed of.

c) Intangible assets

Intangible assets acquired separately are measured at cost of acquisition. Intangible assets acquired in a business combination are measured at fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less accumulated amortization and impairment losses, if any.

The amortization of an intangible asset with a finite useful life reflects the manner in which the economic benefit is expected to be generated and is included in selling and marketing expenses in the consolidated statement of income.

The estimated useful life of amortizable intangibles is reviewed and where appropriate is adjusted, annually. The estimated useful lives of the amortizable intangible assets are as follows:

Category	Useful life
Customer-related intangibles	1 to 10 years
Marketing-related intangibles	2.5 to 10 years

Customer-related intangibles includes customer contracts and customer relationships acquired as a part of business combinations. Marketing-related intangibles includes vendor relationships, non-competes and brands acquired as a part of business combinations.

(viii) Leases

The Company evaluates each contract or arrangement, whether it qualifies as lease as defined under IFRS 16.

The Company as a lessee

The Company enters into an arrangement for lease of land, buildings, plant and equipment including computer equipment and vehicles. Such arrangements are generally for a fixed period but may have extension or termination

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

options. The Company assesses, whether the contract is, or contains, a lease, at its inception. A contract is considered to contain a lease if it conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

A contract conveys the right to control the use of an identified asset if the Company has the right to:

- (a) control use of an identified asset,
- (b) obtain substantially all the economic benefits from use of the identified asset, and
- (c) direct the use of the identified asset.

The Company determines the lease term as the non-cancellable period of a lease, together with periods covered by an option to extend the lease, where the Company is reasonably certain to exercise that option. The Company makes an assessment on the expected lease term on a lease-by-lease basis and thereby assesses whether it is reasonably certain that any options to extend or terminate the contract will be exercised.

At the commencement of the lease, the Company recognizes a right of use ("RoU") asset at cost and corresponding lease liability, except for leases with term of twelve months or less ("**Short-term leases**") and low-value assets. For these Short-term leases and low-value assets, the Company recognizes the lease payments as an operating expense on a straight-line basis over the lease term.

The cost of the RoU assets comprises the amount of the initial measurement of the lease liability, any lease payments made at or before the inception date of the lease plus any initial direct costs, plus an estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset or restoring the site on which it is located less any lease incentives received. Subsequently, the RoU assets are measured at cost less any accumulated depreciation and accumulated impairment losses, if any. The RoU assets are depreciated using the straight-line method from the commencement date over the shorter of lease term or useful life of RoU assets. The estimated useful lives of RoU assets are determined on the same basis as those of property, plant and equipment.

The Company applies IAS 36 to determine whether a RoU asset is impaired and accounts for any identified impairment loss as described in the impairment of non-financial assets below.

For lease liabilities at the commencement of the lease, the Company measures the lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted using the interest rate implicit in the lease, if that rate is readily determined, if that rate is not readily determined, the lease payments are discounted using the incremental borrowing rate that the Company would have to pay to borrow funds, including the consideration of factors such as the nature of the asset and location, collateral, market terms and conditions, as applicable in a similar economic environment.

After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

The lease liability is subsequently remeasured by increasing the carrying amount to reflect interest on the lease liability, reducing the carrying amount to reflect the lease payments made and remeasuring the carrying amount to reflect any lease modifications. The Company recognizes the amount of the re-measurement of lease liability due to modification as an adjustment to the RoU asset or in consolidated statement of income, depending upon the nature of modification. Where the carrying amount of the RoU asset is reduced to zero and there is a further reduction in the measurement of the lease liability, the Company recognizes any remaining amount of the re-measurement in the consolidated statement of income.

Payment of lease liabilities including interests are classified as cash used in financing activities in the consolidated statement of cash flows.

The company as a lessor

Leases under which the Company is a lessor are classified as a finance or operating lease. Lease contracts where all the risks and rewards are substantially transferred to the lessee are classified as a finance lease. All other leases are classified as operating lease.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

For leases under which the Company is an intermediate lessor, the Company accounts for the head-lease and the sub-lease as two separate contracts. The sub-lease is further classified either as a finance lease or an operating lease by reference to the RoU asset arising from the head-lease.

(ix) Inventories

Inventories are valued at lower of cost and net realizable value, including necessary provision for obsolescence. Cost is determined using the weighted average method.

(x) Impairment

a) Financial assets

The Company applies the expected credit loss model for recognizing impairment loss on financial assets measured at amortized cost, debt instruments classified as FVTOCI, trade receivables, unbilled receivables, finance lease receivables, and other financial assets. Expected credit loss is the difference between the contractual cash flows and the cash flows that the entity expects to receive, discounted using the effective interest rate.

Loss allowances for trade receivables, unbilled receivables and finance lease receivables are measured at an amount equal to lifetime expected credit loss. Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of a financial instrument. Lifetime expected credit loss is computed based on a provision matrix which takes into account, risk profiling of customers and historical credit loss experience adjusted for forward-looking information. For other financial assets, expected credit loss is measured at the amount equal to twelve months expected credit loss unless there has been a significant increase in credit risk from initial recognition, in which case those are measured at lifetime expected credit loss.

b) Non-financial assets

The Company assesses long-lived assets such as property, plant and equipment, RoU assets and intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset or group of assets may not be recoverable. If any such indication exists, the Company estimates the recoverable amount of the asset or group of assets.

Goodwill is tested for impairment at least annually at the same time and when events occur or changes in circumstances indicate that the recoverable amount of the cash generating unit is less than its carrying value. The goodwill impairment test is performed at the level of cash-generating unit or groups of cash -generating units which represents the lowest level at which goodwill is monitored for internal management purposes.

The recoverable amount of an asset or cash generating unit is the higher of its fair value less cost of disposal (“**FVLCD**”) and its value-in-use (“**VIU**”). The VIU of long-lived assets is calculated using projected future cash flows. FVLCD of a cash generating unit is computed using turnover and earnings multiples. If the recoverable amount of the asset or the recoverable amount of the cash generating unit to which the asset belongs is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the consolidated statement of income.

If at the reporting date, there is an indication that a previously assessed impairment loss on property, plant and equipment, RoU assets and intangible assets, no longer exists, the recoverable amount is reassessed and the impairment losses previously recognized are reversed such that the asset is recognized at its recoverable amount but not exceeding written down value which would have been reported if the impairment losses had not been recognized initially. An impairment loss in respect of goodwill is not reversed subsequently.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(xi) Employee benefits

a) Post-employment plans

The Group participates in various employee benefit plans. Pensions and other post-employment benefits are classified as either defined contribution plans or defined benefit plans. Under a defined contribution plan, the Company's sole obligation is to pay a fixed amount with no obligation to pay further contributions if the fund does not hold sufficient assets to pay all employee benefits. The related actuarial and investment risks are borne by the employee. The expenditure for defined contribution plans is recognized as an expense during the period when the employee provides service. Under a defined benefit plan, it is the Company's obligation to provide agreed benefits to the employees. The related actuarial and investment risks are borne by the Company. The present value of the defined benefit obligations is calculated by an independent actuary using the projected unit credit method.

Remeasurements of the defined benefit plans, comprising actuarial gains or losses, the effect of changes to the asset ceiling, and the return on plan assets (excluding interest) are immediately recognized in other comprehensive income, net of taxes and not reclassified to profit or loss in subsequent period.

Net interest recognized in profit or loss is calculated by applying the discount rate used to measure the defined benefit obligation to the net defined benefit liability or asset. The actual return on the plan assets above or below the discount rate, is recognized as part of remeasurements of the defined benefit plans through other comprehensive income, net of taxes.

Past service cost, both vested and unvested, is recognized as an expense at the earlier of (a) when the plan amendment or curtailment occurs; and (b) when the entity recognizes related restructuring costs or termination benefits.

The Company has the following employee benefit plans:

A. Provident fund

Eligible employees receive benefits under the Company's provident fund plan, into which both the employer and employees make periodic contributions to the approved provident fund trust managed by the Company. A portion of the employer's contribution is made to the government administered pension fund. The contributions to the provident fund trust managed by the Company is accounted for as a defined benefit plan as the Company is liable for any shortfall in the fund assets based on the government specified minimum rates of return.

Certain employees receive benefits under the provident fund plan in which both the employer and employees make periodic contributions to the government administered provident fund. A portion of the employer's contribution is made to the government administered pension fund. This is accounted as a defined contribution plan as the obligation of the Company is limited to the contributions made to the fund.

B. Gratuity and foreign pension

In accordance with the Code on Social Security, 2020, applicable for Indian companies, the Company provides for a lump sum payment to eligible employees, at retirement or termination of employment based on the last drawn salary and years of employment with the Company. The gratuity fund is managed by third party fund managers.

The Company also maintains pension and similar plans for employees outside India, based on country specific regulations. These plans are partially funded, and

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

the funds are managed by third party fund managers. The plans provide for monthly payout after retirement as per salary drawn and service period or for a lump sum payment as set out in rules of each fund.

The Company's obligations in respect of these plans, which are defined benefit plans, are provided for based on actuarial valuation using the projected unit credit method.

C. Superannuation

Superannuation plan, a defined contribution scheme is administered by third party fund managers. The Company makes annual contributions based on a specified percentage of each eligible employee's salary.

b) Termination benefits

Termination benefits are expensed when the Company can no longer withdraw the offer of those benefits.

c) Short-term benefits

Short-term employee benefit obligations such as cash bonus, management incentive plans or profit-sharing plans are measured on an undiscounted basis and are recorded as expense as the related service is provided. A liability is recognized for the amount expected to be paid under short-term cash bonus or management incentive plans or profit-sharing plans, if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

d) Compensated absences

The employees of the Company are entitled to compensated absences. The employees can carry forward a portion of the unutilized accumulating compensated absences and utilize it in future periods or receive cash at retirement or termination of employment. The Company records an obligation for compensated absences in the period in which the employee renders the services that increases this entitlement. The Company measures the expected

cost of compensated absences as the additional amount that the Company expects to pay as a result of the unused entitlement that has accumulated at the end of the reporting period. The Company recognizes accumulated compensated absences based on actuarial valuation using the projected unit credit method. Non-accumulating compensated absences are recognized in the period in which the absences occur.

(xii) Share-based payment transactions

Selected employees of the Company receive remuneration in the form of equity settled instruments or cash settled instruments, for rendering services over a defined vesting period and for Company's performance-based stock options over the defined period. Equity instruments granted are measured by reference to the fair value of the instrument at the date of grant. In cases, where equity instruments are granted at a nominal exercise price, the intrinsic value on the date of grant approximates the fair value. The expense is recognized in the consolidated statement of income with a corresponding increase to the share-based payment reserve, a component of equity.

The equity instruments or cash settled instruments generally vest in a graded manner over the vesting period. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants (accelerated amortization). The stock compensation expense is determined based on the Company's estimate of equity instruments or cash settled instruments that will eventually vest.

Cash settled instruments granted are re-measured by reference to the fair value at the end of each reporting period and at the time of vesting. The expense is recognized in the consolidated statement of income with a corresponding increase to financial liability.

(xiii) Provisions

Provisions are recognized when the Company has a present obligation (legal or constructive), as a result of a past event, it is probable that an outflow of economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

The amount recognized as a provision is the best estimate of the consideration required to settle the

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

present obligation at the end of the reporting period, considering the risks and uncertainties surrounding the obligation.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognized as an asset, if it is virtually certain that reimbursement will be received, and the amount of the receivable can be measured reliably.

Provisions for onerous contracts are recognized when the expected benefits to be derived by the Company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract. Provisions for onerous contracts are measured at the present value of lower of the expected net cost of fulfilling the contract and the expected cost of terminating the contract.

(xiv) Revenue

The Company derives revenue primarily from software development, maintenance of software/hardware and related services, consulting services, business process services and sale of IT products.

Revenues from customer contracts are considered for recognition and measurement when the contract has been approved by the parties to the contract, the parties to contract are committed to perform their respective obligations under the contract, and the contract is legally enforceable. Revenue is recognized upon transfer of control of promised products or services to customers in an amount that reflects the consideration the Company expects to receive (the "Transaction Price"). Revenue towards satisfaction of a performance obligation is measured at the amount of the Transaction Price (net of variable consideration on account of discounts and allowances) allocated to that performance obligation. To recognize revenues, the Company applies the following five step approach: (1) identify the contract with a customer, (2) identify the performance obligations in the contract, (3) determine the Transaction Price, (4) allocate the Transaction Price to the performance obligations in the contract, and (5) recognize revenues when a performance obligation is satisfied. When there is uncertainty as to collectability, revenue recognition is postponed until such uncertainty is resolved.

At contract inception, the Company assesses its promise to transfer products or services to a customer to identify separate performance obligations. The Company applies judgment to determine whether each product or service promised to a customer is capable of being distinct, and are distinct in the context of the contract, if not, the promised products or services are combined and accounted as a single performance obligation. The Company allocates the Transaction Price to separately identifiable performance obligations based on their relative stand-alone selling price or residual method. Stand-alone selling prices are determined based on sale prices for the components when they are regularly sold separately, in cases where the Company is unable to determine the stand-alone selling price, the Company uses third-party prices for similar deliverables or the Company uses expected cost-plus margin approach in estimating the stand-alone selling price.

For performance obligations where control is transferred over time, revenues are recognized by measuring progress towards completion of the performance obligation. The selection of the method to measure progress towards completion requires judgment and is based on the nature of the promised products or services to be provided.

The method for recognizing revenues and costs depends on the nature of contracts with customers as given below:

A. Time and materials contracts

Revenues and costs relating to time and materials contracts are recognized as the related services are rendered.

B. Fixed-price contracts

i. Fixed-price development contracts

Revenues from fixed-price development contracts, including software development, and integration contracts, where the performance obligations are satisfied over time, are recognized using the "percentage-of-completion" method. The performance obligations are satisfied as and when the services are rendered since the customer generally obtains control of the work as

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

it progresses. Percentage of completion is determined based on project costs incurred to date as a percentage of total estimated project costs required to complete the project. The cost expended (or input) method has been used to measure progress towards completion as there is a direct relationship between input and productivity. This method is followed when reasonably dependable estimates of the revenues and costs applicable to various elements of the contract can be made. Key factors that are reviewed in estimating the future costs to complete include estimates of future labor costs and productivity efficiencies. Because the financial reporting of these contracts depends on estimates that are assessed continually during the term of these contracts, revenue recognized, profit and timing of revenue for remaining performance obligations are subject to revisions as the contract progresses to completion. If the Company is not able to reasonably measure the progress of completion, revenue is recognized only to the extent of costs incurred, for which recoverability is probable. When total cost estimates exceed revenues in an arrangement, the estimated losses are recognized in the consolidated statement of income in the period in which such losses become probable based on the current contract estimates as an onerous contract provision.

A contract asset is a right to consideration that is conditional upon factors other than the passage of time. Contract assets primarily relate to unbilled amounts on fixed-price development contracts and are classified as non-financial asset as the contractual right to consideration is dependent on completion of contractual milestones.

A contract liability is an entity's obligation to transfer goods or services to a customer for which the entity has received consideration (or the amount is due) from the customer.

ii. Maintenance contracts

Revenues related to fixed-price maintenance contracts are recognized on a straight-line

basis when services are performed through an indefinite number of repetitive acts over a specified period or ratably using percentage of completion method when the pattern of benefits from the services rendered to the customers and the cost to fulfil the contract is not even through the period of contract because the services are generally discrete in nature and not repetitive.

Revenue for contracts in which the invoicing is representative of the value being delivered is recognized based on our right to invoice. If our invoicing is not consistent with value delivered, revenues are recognized as the service is performed using the percentage of completion method.

In certain projects, a fixed quantum of service or output units is agreed at a fixed-price for a fixed term. In such contracts, revenue is recognized with respect to the actual output achieved till date as a percentage of total contractual output. Any residual service unutilized by the customer is recognized as revenue on completion of the term.

iii. Element or Volume based contracts

Revenues and costs are recognized as the related services are rendered.

C. Products

Revenue on product sales are recognized when the customer obtains control of the specified product.

D. Others

- Any change in scope or price is considered to be a contract modification. The Company accounts for modifications to existing contracts by assessing whether the services added are distinct and whether the pricing is at the stand-alone selling price. Services added that are not distinct are accounted for on a cumulative catch up basis, while those that are distinct are accounted for prospectively, either as a separate contract if the additional services are priced at the stand-alone selling price, or as a termination of the existing

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

contract and creation of a new contract if not priced at the stand-alone selling price.

- The Company accounts for variable considerations like volume discounts, rebates and pricing incentives to customers and penalties as reduction of revenue on a systematic and rational basis over the period of the contract. The Company estimates an amount of such variable consideration using expected value method or the single most likely amount in a range of possible consideration depending on which method better predicts the amount of consideration to which the Company may be entitled and when it is probable that a significant reversal of cumulative revenue recognized will not occur when the uncertainty associated with the variable consideration is resolved.
- Revenues are shown net of allowances/returns, sales tax, value added tax, goods and services tax and applicable discounts.
- The Company may enter into arrangements with third-party suppliers to resell products or services. In such cases, the Company evaluates whether the Company is the principal (i.e., report revenues on a gross basis) or agent (i.e., report revenues on a net basis). In doing so, the Company first evaluates whether the Company controls the good or service before it is transferred to the customer. The Company considers whether it has the primary obligation to fulfil the contract, inventory risk, pricing discretion and other factors to determine whether it controls the goods or services and therefore, is acting as a principal or an agent. If the Company controls the good or service before it is transferred to the customer, the Company is the principal; if not, the Company is the agent.
- Estimates of the Transaction Price and total costs or efforts are continuously monitored over the term of the contract and are recognized in net profit in the period when these estimates change or when the estimates are revised. Revenues and the estimated total

costs or efforts are subject to revision as the contract progresses.

- The Company accrues the estimated cost of warranties at the time when the revenue is recognized. The accruals are based on the Company's historical experience of material usage and service delivery costs.
- Incremental costs that relate directly to a contract and incurred in securing a contract with a customer are recognized as an asset when the Company expects to recover these costs.
- The Company recognizes contract fulfilment cost as an asset if those costs specifically relate to a contract or to an anticipated contract, the costs generate or enhance resources that will be used in satisfying performance obligations in future; and the costs are expected to be recovered.
- Costs to obtain contracts relating to upfront payments to customers are amortized to revenue and other costs to obtain contracts and costs to fulfil contracts are amortized to cost of revenues over the respective contract life on a systematic basis consistent with the transfer of goods or services to customer to which the asset relates.
- The Company assesses the timing of the transfer of goods or services to the customer as compared to the timing of payments to determine whether a significant financing component exists. As a practical expedient, the Company does not assess the existence of a significant financing component when the difference between payment and transfer of deliverables is twelve months or less. If the difference in timing arises for reasons other than the provision of finance to either the customer or us, no financing component is deemed to exist.
- Unbilled receivables are classified as a financial asset where the right to consideration is unconditional and only the passage of time is required before the payment is due.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

(xv) Finance expenses

Finance expenses comprise interest on loans, borrowings and bank overdrafts, interest on lease liabilities, interest on tax matters, interest on net defined benefit liability, interest on liability on written put options, net loss on translation or settlement of foreign currency borrowings, changes in fair value of derivative instruments and gains/(losses) of settlement of borrowing related derivative instruments. Borrowing costs that are not directly attributable to a qualifying asset are recognized in the consolidated statement of income using the effective interest method.

(xvi) Finance and other income

Finance and other income comprise interest income on deposits, dividend income, gains/(losses) on disposal of investments, gains/(losses) on investments classified as FVTPL, net gain on translation or settlement of foreign currency borrowings and changes in fair value and gains/(losses) on settlement of related derivative instruments. Interest income is recognized using the effective interest method. Dividend income is recognized when the right to receive payment is established.

(xvii) Income tax

Income tax comprises current and deferred tax. Income tax expense is recognized in the consolidated statement of income except to the extent it relates to a business combination, or items directly recognized in equity or in other comprehensive income.

a) Current income tax

Current income tax for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the taxable income for the period. The tax rates and tax laws used to compute the current tax amounts are those that are enacted or substantively enacted as at the reporting date and applicable for the period. While determining the tax provisions, the Company assesses whether each uncertain tax position is to be considered separately or together with one or more uncertain tax positions depending upon the nature and circumstances of each uncertain tax position. The Company offsets current tax assets and current tax liabilities, where it has a legally enforceable right to set off the recognized amounts

and where it intends either to settle on a net basis, or to realize the asset and liability simultaneously.

b) Deferred income tax

Deferred income tax is recognized using the balance sheet approach. Deferred income tax assets and liabilities are recognized for deductible and taxable temporary differences arising between the tax base of assets and liabilities and their carrying amount in financial statements, except when the deferred income tax arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and affects neither accounting nor taxable profits or loss at the time of the transaction.

Deferred income tax assets are recognized to the extent it is probable that taxable profit will be available against which the deductible temporary differences and the carry forward of unused tax credits and unused tax losses can be utilized.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences that is expected to reverse within the tax holiday period, taxable temporary differences associated with investments in subsidiaries, associates and foreign branches where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset is realized, or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

The Company offsets deferred income tax assets and liabilities, where it has a legally enforceable right to offset current tax assets against current tax liabilities, and they relate to taxes levied by the same taxation

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

authority on either the same taxable entity, or on different taxable entities where there is a right and an intention to settle the current tax liabilities and assets on a net basis or their tax assets and liabilities will be realized simultaneously.

(xviii) Earnings per share

Basic earnings per share is computed using the weighted average number of equity shares outstanding during the period adjusted for treasury shares held. Diluted earnings per share is computed using the weighted average number of equity and dilutive equivalent shares outstanding during the period, using the treasury stock method for options, except where the results would be anti-dilutive.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any splits and bonus shares issues including for change effected prior to the approval of the consolidated financial statements by the Company's Board of Directors.

(xix) Statement of cash flows

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash generated from/(used in) operating, investing and financing activities of the Company are segregated.

New accounting standards, amendments and interpretations adopted by the Company effective from April 1, 2025:

Amendments to IAS 21 – The Effects of Changes in Foreign Exchange Rates

On August 15, 2023, IASB issued 'Lack of Exchangeability (Amendments to IAS 21)' that clarifies how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking, as

well as require the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable. These amendments are effective for annual reporting periods beginning on or after January 1, 2025, with earlier application permitted. The adoption of amendments to IAS 21 did not have any material impact on the consolidated financial statements.

New accounting standards, amendments and interpretations not yet adopted by the Company:

Certain new standards, amendments to standards and interpretations are not yet effective for annual periods beginning after April 1, 2025 and have not been applied in preparing these consolidated financial statements. New standards, amendments to standards and interpretations that could have potential impact on the consolidated financial statements of the Company are:

IFRS 18 – Presentation and Disclosure in Financial Statements

On April 9, 2024, IASB issued IFRS 18 'Presentation and Disclosure in Financial Statements' which supersedes IAS 1 'Presentation of Financial Statements', aimed at improving comparability and transparency of communication in financial statements. IFRS 18 requires an entity to classify all income and expenses within its statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations. These categories are complemented by the requirement to present specified totals and subtotals for 'operating profit or loss', 'profit or loss before financing and income taxes' and 'profit or loss'. It also requires disclosure of management-defined performance measures and includes new requirements for aggregation and disaggregation of financials information based on the identified 'roles' of the primary financial statements and the notes.

Consequent to above, a narrow scope of amendments have been made to IAS 7 'Statement of Cash Flows', which include changing the starting point for

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

determining cash flows from operations under the indirect method from 'profit or loss' to 'operating profit or loss'. Further, some requirements previously included within IAS 1 have been moved to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' which has also been renamed IAS 8 'Basis of Preparation of Financial Statements'. IAS 34 'Interim Financial Reporting' was amended to require disclosure of management defined performance measures. Minor consequential amendments to other standards were also made.

An entity that prepares condensed interim financial statements in accordance with IAS 34 in the first year of adoption of IFRS 18, must present the heading and mandatory subtotals it expects to use in its annual financial statement. Comparative period in both the interim and annual financial statements will need to be restated and a reconciliation of the statement of profit or loss previously published will be required for the immediately preceding comparative period. IFRS 18 and the amendments to the other standards, is effective for reporting period beginning on or after January 1, 2027 and are to be applied retrospectively, with earlier application permitted.

The Company is currently assessing the impact of adopting IFRS 18 and the amendments to other standards, on the consolidated financial statements.

Amendments to IFRS 9 and IFRS 7 – Classification and Measurement of Financial Instruments

On May 30, 2024, IASB issued 'Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7)' to address matters identified during the post-implementation review of IFRS 9. The amendments

clarify that a financial liability is derecognized on the 'settlement date' and introduce an accounting policy choice to derecognize financial liabilities settled using an electronic payment system before settlement date. The classification of financial asset with ESG linked features has been clarified through additional guidance on the assessment of contingent features. Additional disclosures are introduced for financial instruments with contingent features and equity instruments classified as fair value through OCI. These amendments are effective for annual reporting periods beginning on or after January 1, 2026, with earlier application permitted. The Company is currently assessing the impact of adopting these amendments on the consolidated financial statements.

Amendments to IFRS 9 and IFRS 7 - Contracts referencing Nature-dependent electricity

The IASB has published amendments to IFRS 9 and IFRS 7 titled 'Contracts Referencing Nature-dependent Electricity'. The IASB has added application guidance to IFRS 9 to address specifically whether a contract to buy electricity generated from a source dependent on natural conditions is held for the entity's own-use expectations. The amendments also address specifically how an entity applies the hedge accounting requirements in IFRS 9 when a contract referencing nature-dependent electricity with a variable nominal amount is designated as the hedging instrument. The IASB decided to add complementary disclosure requirements to IFRS 7. The amendments are effective for annual periods beginning on or after January 1, 2026, with earlier application permitted. The Company is currently assessing the impact of adopting these amendments on the consolidated financial statements.

Notes to the Consolidated Financial Statements

Current	8,025	8,709

Refer to Note 19 for remaining contractual maturities of lease liabilities.

6. GOODWILL AND INTANGIBLE ASSETS

The movement in goodwill balance is given below:

	Year ended March 31, 2025	Year ended March 31, 2026
Balance at the beginning of the year	₹ 316,002	₹ 325,014
Acquisition through Business combinations (Refer to Note 7) ⁽¹⁾	1,324	24,772
Translation adjustment	7,688	37,613
Balance at the end of the year	₹ 325,014	₹ 387,399

⁽¹⁾ Acquisition through business combinations for the year ended March 31, 2026 is after considering the impact of ₹ 7 towards measurement period changes in the purchase price allocation of acquisitions made during the year ended March 31, 2025.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company is organized into two operating segments: IT Services and IT Products (Refer to Note 33). Goodwill as at March 31, 2025 and 2026 has been allocated to the IT Services operating segment.

Goodwill recognized on business combinations is allocated to Cash Generating Units (“CGUs”), within the IT Services operating segment, which are expected to benefit from the synergies of the acquisitions.

	Year ended March 31, 2025	Year ended March 31, 2026
CGUs		
Americas 1	₹ 108,111	₹ 132,869
Americas 2	106,529	122,472
Europe	81,955	96,381
Asia Pacific, Middle East and Africa	28,419	35,677
	₹ 325,014	₹ 387,399

For impairment testing, goodwill is allocated to a CGU representing the lowest level within the Group at which goodwill is monitored for internal management purposes, and which is not higher than the Company’s operating segment. Goodwill is tested for impairment at least annually in accordance with the Company’s procedure for determining the recoverable value of each CGU.

The recoverable amount of the CGU is determined based on FVLCD. The FVLCD of the CGU is determined based on the market capitalization approach, using the turnover and earnings multiples derived from observable market data. The fair value measurement is categorized as a level 2 fair value based on the inputs in the valuation techniques used.

Based on the above testing, no impairment was identified as at March 31, 2025 and 2026, as the recoverable value of the CGUs exceeded the carrying value. A sensitivity analysis to the change in the key parameters (turnover and earnings multiples) did not identify any probable scenarios where the CGU’s recoverable amount would fall below its carrying amount.

The movement in intangible assets is given below:

	Intangible assets		
	Customer-related	Marketing-related	Total
Gross carrying value:			
As at April 1, 2024	₹ 43,672	₹ 11,972	₹ 55,644

As at March 31, 2025	₹ 20,950	₹ 3,783	₹ 24,733
Net carrying value as at March 31, 2025	₹ 21,511	₹ 5,939	₹ 27,450

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	Intangible assets		
	Customer-related	Marketing-related	Total
Gross carrying value:			
As at April 1, 2025	₹ 42,461	₹ 9,722	₹ 52,183
Acquisition through business combinations (Refer to Note 7)	5,644	1,109	6,753
Deductions/adjustments	(4,420)	-	(4,420)
Translation adjustment	4,387	1,122	5,509
As at March 31, 2026	₹ 48,072	₹ 11,953	₹ 60,025
Accumulated amortization/ impairment:			
As at April 1, 2025	₹ 20,950	₹ 3,783	₹ 24,733
Amortization and impairment ⁽¹⁾	6,599	1,188	7,787
Deductions/adjustments	(4,420)	-	(4,420)
Translation adjustment	2,252	497	2,749
As at March 31, 2026	₹ 25,381	₹ 5,468	₹ 30,849
Net carrying value as at March 31, 2026	₹ 22,691	₹ 6,485	₹ 29,176

⁽¹⁾ During the years ended March 31, 2025 and 2026, a decline in the revenue and earnings estimates led to a revision of recoverable value of customer-relationship intangible assets and marketing related intangible assets recognized on business combinations. Consequently, the Company has recognized impairment charge ₹ 1,155 and ₹ 851 for the years ended March 31, 2025 and 2026, respectively, as part of amortization and impairment.

Amortization expense on intangible assets is included in selling and marketing expenses in the consolidated statement of income.

As at March 31, 2026, the net carrying value and the estimated remaining amortization period for intangible assets acquired on acquisition are as follows:

Acquisition	Net carrying value	Estimated remaining amortization period
Capco - customer-related intangible	₹ 14,013	4.08 years
Capco - marketing-related intangible	5,230	5.08 years
DTS - customer-related intangible	5,650	5.67 years
DTS - marketing-related intangible	1,045	2.67 years
AVT	1,602	0.21 - 4.72 years
Vara Infotech Private Limited	430	0.50 - 3.50 years
Aggne	392	0.87 - 1.87 years
Rational Interaction, Inc.	318	0.89 years
Eximius Design, LLC	371	1.40 years
Convergence Acceleration Solutions, LLC	125	2.03 years
Total	₹ 29,176	

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

7. Business Combinations

Summary of acquisitions during the year ended March 31, 2024:

During the year ended March 31, 2024, the Company completed a business combination by acquiring a 60% equity interest in Aggne Global Inc. and Aggne Global IT Services Private Limited ("Agnne"), a leading consulting and managed services company serving the insurance and insurtech industries. Aggne is a leading alliance partner of Duck Creek, which is a market-leading platform for property and casualty insurance. The acquisition was consummated on February 13, 2024, for total cash consideration of ₹ 5,525.

The following table presents the purchase price allocation:

Net assets	₹ 194
Fair value of property, plant and equipment	374
Fair value of right-of-use assets	33
Fair value of customer-related intangibles	556
Fair value of marketing-related intangibles	390
Deferred tax liabilities on intangible assets	(367)
Total identifiable assets	₹ 1,180
Goodwill	4,817
Share of non-controlling interests	(472)
Total purchase price	₹ 5,525
Net Assets include:	
Cash and cash equivalents	153
Fair value of acquired trade receivables included in net assets	113
Gross contractual amount of acquired trade receivables	113
Less: Allowance for lifetime expected credit loss	-
Amount included in general and administrative expenses:	
Transaction costs	31

The goodwill of ₹ 4,817 comprises value of acquired workforce and expected synergies arising from the business combination. Goodwill is allocated to IT Services segment and is not deductible for income tax purposes.

The interest of non-controlling shareholders is measured at the non-controlling interest's proportionate share of the fair value of the identifiable net assets of Aggne.

The Company has issued put options to non-controlling interests in Aggne in accordance with the terms of underlying shareholders agreement and will be settled in cash. As at the acquisition date, the Company has recorded a financial liability for the estimated present value of its gross obligation to purchase the non-controlling interest with a corresponding adjustment to equity. The fair value of the financial liability is estimated as per the terms of shareholders agreement and the undiscounted fair value of the financial liability is ₹ 5,176 as at the date of acquisition. Considering the discount rate of 5.87%, the discounted fair value of the financial liability is ₹ 4,238.

The pro-forma effects of acquisition of Aggne for the year ended March 31, 2024, on the Company's revenues and profits were not material.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Summary of acquisitions during the year ended March 31, 2025:

During the year ended March 31, 2025, the Company completed a business combination by acquiring a 100% equity interest in Applied Value Technologies, Inc. and Applied Value Technologies B.V., which was consummated on December 16, 2024. The Company has also acquired a 100% equity interest in Applied Value Technologies Pte Limited (together with Applied Value Technologies, Inc. and Applied Value Technologies B.V., "AVT"), which was consummated on January 3, 2025. AVT helps enterprises transform IT operations through a highly customized and data-driven approach. AVT will augment Wipro's existing application services capabilities, helping drive new growth opportunities. The total consideration (upfront cash to acquire control, deferred consideration and contingent consideration) for the acquisition is ₹ 2,836. During the year ended March 31, 2026, the Company finalized the purchase price allocation as set for the below:

The following table presents the purchase price allocation:

Net assets	₹ 166
Fair value of property, plant and equipment	9
Fair value of customer-related intangibles	1,896
Deferred tax liabilities on intangible assets	(566)
Total identifiable assets	₹ 1,505
Goodwill	1,331
Total purchase price	₹ 2,836
Net Assets include:	
Cash and cash equivalents	₹ 113
Fair value of acquired trade receivables included in net assets	215
Gross contractual amount of acquired trade receivables	215
Less: Allowance for lifetime expected credit loss	-
Amount included in general and administrative expenses:	
Transaction costs	₹ 45

The goodwill of ₹ 1,331 comprises value of acquired workforce and expected synergies arising from the business combinations. Goodwill is allocated to IT Services segment and is not deductible for income tax purposes.

The total consideration for AVT included a deferred consideration of ₹ 264, which was payable within six months from the consummation date and was subsequently settled.

The total consideration of AVT includes a contingent consideration linked to achievement of revenues and earnings over a period of 3 years ending December 31, 2027, and range of contingent consideration payable is between ₹ Nil and ₹ 2,122. The fair value of the contingent consideration is estimated by applying the discounted cash-flow approach considering probability adjusted revenue and earnings estimates. The undiscounted fair value of contingent consideration is ₹ 2,122 as at the date of acquisition. The discounted fair value of contingent consideration of ₹ 1,537 is recorded as part of purchase price allocation.

The pro-forma effects of the acquisition of AVT for the year ended March 31, 2025 on the Company's revenues and profits were not material.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Summary of acquisitions during the year ended March 31, 2026:

During the year ended March 31, 2026, the Company completed a business combination by acquiring 100% equity interest in Digital Transformation Solutions unit of Harman International Inc. which is Harman Connected Services Inc. and its subsidiaries and certain other assets (together, “DTS”), a global provider of Engineering, Research and Development (“ER&D”) services and IT services. The acquisition was consummated on December 1, 2025, for total cash consideration of ₹ 34,044.

Net assets	₹ 2,996
Fair value of property, plant and equipment	383
Fair value of right-of-use assets	1,062
Fair value of customer-related intangibles	5,644
Fair value of marketing-related intangibles	1,109
Deferred tax liabilities on intangible assets	(1,915)
Total identifiable assets	₹ 9,279
Goodwill	24,765
Total purchase price	₹ 34,044
Net Assets include:	
Cash and cash equivalents	₹ 8,011
Fair value of acquired trade receivables included in net assets	3,066
Gross contractual amount of acquired trade receivables	3,225
Less: Allowance for lifetime expected credit loss	(159)
Amount included in general and administrative expenses:	
Transaction costs	₹ 230

The above purchase price allocation for DTS is provisional and will be finalized as soon as practicable within the measurement period, but in no event later than one year following the date of acquisition.

The goodwill of ₹ 24,765 comprises value of acquired workforce and expected synergies arising from the business combinations. Goodwill is allocated to IT Services segment and is not deductible for income tax purposes.

The pro-forma effects of acquisition of DTS for the year ended March 31, 2026, on the Company's results were not material.

Short-term loans, borrowings and bank overdrafts

The Company had loans, borrowings and bank overdrafts amounting to ₹ 97,863 and ₹ 94,860, as at March 31, 2025 and 2026, respectively. The principal source of borrowings from banks as at March 31, 2026 primarily consists of lines of credit of approximately ₹ 89,024, U.S. Dollar ("U.S.\$") 432 million, Saudi Riyal ("SAR") 120 million, Pound Sterling ("GBP") 7 million, Bahraini Dinar ("BHD") 1 million, Thai Baht ("THB") 5 million, Brazilian Real ("BRL") 8 million, Indonesian Rupiah ("IDR") 13,000 million, Qatari Riyal ("QAR") 10 million, Mexican Peso ("MXN") 35 million, Canadian Dollar ("CAD") 14 million, Bangladeshi Taka ("BDT") 175 million and Japanese Yen ("JPY") 300 million from bankers for working capital requirements and other short-term needs.

As at March 31, 2026, the Company has unutilized lines of credit aggregating ₹ 27,524, U.S.\$ 92 million, SAR 75 million, GBP 7 million, BHD 1 million, THB 5 million, BRL 8 million, IDR 13,000 million, QAR 10 million, MXN 35 million, CAD 14 million, BDT 175 million and JPY 300 million. To utilize these unused lines of credit, the Company requires consent of the lender and compliance with certain financial covenants. Significant portion of these lines of credit are revolving credit facilities and floating rate foreign currency loans, renewable on a periodic basis.

Significant portion of these facilities bear floating rates of interest, referenced to country specific official benchmark interest rates and a spread, determined based on market conditions.

Balance at the end of the year	₹ 207	₹ 1,582	₹ 142	₹ 1,931	₹ 214	₹ 1,408	₹ 98	₹ 1,720

Provision for warranty represents cost associated with providing sales support services, which are accrued at the time of recognition of revenues and are expected to be utilized over a period of 1 year.

Provision for onerous contracts is recognized when the expected benefit by the company from a contract are lower than the unavoidable costs of meeting the future obligations under the contract.

Other provisions primarily include provisions for compliance related contingencies. The timing of cash outflows in respect of such provision cannot be reasonably determined.

Other financial liabilities - current	3,878	-	3,878	11,357	-	11,357
	₹ 110,604	₹ (10,681)	₹ 99,923	₹ 129,867	₹ (12,449)	₹ 117,418

For the financial assets and liabilities subject to offsetting or similar arrangements, each agreement between the Company and the counterparty allows for net settlement of the relevant financial assets and liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and liabilities will be settled on a gross basis and hence are not offset.

Fair value

Financial assets and liabilities include cash and cash equivalents, trade receivables, unbilled receivables, finance lease receivables, employee and other advances, eligible current and non-current assets, loans, borrowings and bank overdrafts, lease liabilities, trade payables and accrued expenses, and eligible current and non-current liabilities.

The fair value of cash and cash equivalents, trade receivables, unbilled receivables, short-term loans, borrowings and bank overdrafts, lease liabilities, trade payables and accrued expenses, other current financial assets and liabilities approximate their carrying amount largely due to the short-term nature of these instruments. Finance lease receivables are periodically evaluated based on individual credit worthiness of customers. Based on this evaluation, the Company records allowance for estimated credit losses on these receivables. As at March 31, 2025 and 2026, the carrying value of such financial assets, net of allowances, and liabilities approximates the fair value.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company's Unsecured Notes 2026 are contracted at fixed coupon rate of 1.50% and market yield on these loans as of March 31, 2026 was 4.48%.

Investments in short-term mutual funds and fixed maturity plan mutual funds, which are classified as FVTPL are measured using net asset values at the reporting date multiplied by the quantity held. Fair value of investments in non-convertible debentures, government securities, commercial papers and bonds classified as FVTOCI is determined based on the indicative quotes of price and yields prevailing in the market at the reporting date. Fair value of investments in equity instruments classified as FVTOCI or FVTPL is determined using market approach primarily based on market multiples method.

The fair value of derivative financial instruments is determined based on observable market inputs including currency spot and forward rates, yield curves and currency volatility.

Fair value hierarchy

The table below analyses financial instruments carried at fair value, by valuation method. The different levels have been defined as follows:

Level 1 – Quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 – Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).

There were no transfers between Levels 1, 2 and 3 during the years ended March 31, 2025 and 2026.

The following table presents fair value hierarchy of assets and liabilities measured at fair value on a recurring basis:

	As at March 31, 2025				As at March 31, 2026

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The following methods and assumptions were used to estimate the fair value of the Level 2 financial instruments included in the above table.

Financial instrument	Method and assumptions
Derivative instruments (assets and liabilities)	The Company enters into derivative financial instruments with various counterparties, primarily banks with investment grade credit ratings. Derivatives valued using valuation techniques with market observable inputs are mainly interest rate swaps, foreign exchange forward contracts and foreign exchange option contracts. The most frequently applied valuation techniques include forward pricing, swap models and Black Scholes models (for option valuation), using present value calculations. The models incorporate various inputs including the credit quality of counterparties, foreign exchange spot and forward rates, interest rate curves and forward rate curves of the underlying. As at March 31, 2026, the changes in counterparty credit risk had no material effect on the hedge effectiveness assessment for derivatives designated in hedge relationships and other financial instruments recognized at fair value.
Investment in non-convertible debentures, government securities, commercial papers and bonds	Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at reporting date.
Investment in fixed maturity plan mutual funds	Fair value of these instruments is derived based on the indicative quotes of price prevailing in the market as at reporting date.

The following methods and assumptions were used to estimate the fair value of the Level 3 financial instruments included in the above table.

Financial instrument	Method and assumptions
Investment in equity instruments	Fair value of these instruments is determined using market approach primarily based on market multiples method.
Contingent consideration and liability on written put options to non-controlling interest	Fair value of these instruments is determined using valuation techniques which includes inputs relating to risk-adjusted revenue and operating profit forecast.

The following table presents changes in Level 3 assets and liabilities for the years ended March 31, 2025 and 2026:

	As at March 31, 2025	As at March 31, 2026
Investment in equity instruments		
Balance at the beginning of the year	₹ 20,126	₹ 17,391
Additions	1,925	2,038
Disposals ⁽¹⁾⁽²⁾	(1,828)	(1,199)
Gain/(loss) recognized in consolidated statement of income	321	768
Gain/(loss) recognized in other comprehensive income	(3,609)	(1,431)
Translation adjustment	456	1,876
Balance at the end of the year	₹ 17,391	₹ 19,443

⁽¹⁾ During the year ended March 31, 2025, as a result of an acquisition by another investors, the Company sold its shares of equity instruments in six companies at a fair value of ₹ 1,281 and recognized a cumulative loss of ₹ 175 in other comprehensive income and cumulative gain of ₹ 152 in consolidated statement of income.

⁽²⁾ During the year ended March 31, 2026, as a result of an acquisition by another investors, the Company sold its shares of equity instruments in three companies at a fair value of ₹ 585 and recognized a cumulative gain of ₹ 389 in other comprehensive income and cumulative loss of ₹ 138 in consolidated statement of income.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	As at March 31, 2025	As at March 31, 2026
Contingent consideration		
Balance at the beginning of the year	₹ (429)	₹ (1,864)
(Addition)/Reversals ⁽¹⁾	169	(49)
Addition through Business combination (Refer to Note 7)	(1,537)	-
Payouts	-	648
Finance expense recognized in consolidated statement of income	(47)	(195)
Translation adjustment	(20)	(174)
Balance at the end of the year	₹ (1,864)	₹ (1,634)

⁽¹⁾ Towards change in fair value of earn-out liability as a result of changes in estimates of revenue and earnings over the earn-out period.

	As at March 31, 2025	As at March 31, 2026
Liability on written put options to non-controlling interests		
Balance at the beginning of the year	₹ (4,303)	₹ (4,945)
Finance expense recognized in consolidated statement of income	(530)	(585)
Changes in fair value of written put options	-	385
Translation adjustment	(112)	(554)
Balance at the end of the year	₹ (4,945)	₹ (5,699)

As at March 31, 2025 and 2026, every 1% increase/decrease in the unobservable inputs used to estimate the fair value of investment in equity instruments, fair value of contingent consideration and liability on written put options to non-controlling interests, does not have a material impact on its fair value.

Derivative assets and liabilities:

The Company is exposed to currency fluctuations on foreign currency assets/liabilities, forecasted cash flows denominated in foreign currency and net investment in foreign operations. The Company is also exposed to interest rate fluctuations on investments in floating rate financial assets and floating rate borrowings. The Company follows established risk management policies, including the use of derivatives to hedge foreign currency assets/liabilities, interest rates, foreign currency forecasted cash flows and net investment in foreign operations. The counterparties in these derivative instruments are primarily banks and the Company considers the risks of non-performance by the counterparty as immaterial.

⁽¹⁾ U.S.\$ 752 and U.S.\$ 944 includes U.S.\$/PHP sell forward of U.S.\$ 197 and U.S.\$ 242 as at March 31, 2025 and 2026, respectively.

The Company determines the existence of an economic relationship between the hedging instrument and the hedged item based on the currency, amount and timing of its forecasted cash flows. Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument, including whether the hedging instrument is expected to offset changes in cash flows of hedged items.

If the hedge ratio for risk management purposes is no longer optimal but the risk management objective remains unchanged and the hedge continues to qualify for hedge accounting, the hedge relationship will be rebalanced by adjusting either the volume of the hedging instrument or the volume of the hedged item so that the hedge ratio aligns with the ratio used for risk management purposes. Any hedge ineffectiveness is calculated and accounted for in consolidated statement of income at the time of the hedge relationship rebalancing.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The following table summarizes activity in the cash flow hedging reserve within equity related to all derivative instruments classified as cash flow hedges:

	As at March 31, 2025	As at March 31, 2026
Balance as at the beginning of the year	₹ 773	₹ (275)
Changes in fair value of effective portion of derivatives	(1,185)	(13,440)
Deferred cancellation gain/(loss), net	(91)	(1,174)
Net (gain)/loss reclassified to consolidated statement of income on occurrence of hedged transactions ⁽¹⁾	203	5,163
Net (gain)/loss on ineffective portion of derivative instruments classified to consolidated statement of income	25	-
Translation gain	-	7
Gain/(loss) on cash flow hedging derivatives, net	₹ (1,048)	₹ (9,444)
Balance as at the end of the year	₹ (275)	₹ (9,719)
Deferred tax asset/(liability) thereon	65	2,320
Balance as at the end of the year, net of deferred taxes	₹ (210)	₹ (7,399)

⁽¹⁾ Includes net (gain)/loss reclassified to revenue of ₹ 394 and ₹ 6,093 for the years ended March 31, 2025 and 2026, respectively; net (gain)/loss reclassified to cost of revenues of ₹ (51) and ₹ (877) for the years ended March 31, 2025 and 2026, respectively; net (gain)/loss reclassified to finance expenses of ₹ (213) and ₹ (53) for the years ended March 31, 2025 and 2026, respectively and net (gain)/loss reclassified to finance and other income of ₹ 73 and ₹ Nil for the years ended March 31, 2025 and 2026, respectively.

The related hedge transactions for balance in cash flow hedging reserves as at March 31, 2026 are expected to occur and be reclassified to the consolidated statement of income over a period of 12 months.

As at March 31, 2025 and 2026, there were no material gains or losses on derivative transactions or portions thereof that have become ineffective as hedges or associated with an underlying exposure that did not occur.

Sale of financial assets

From time to time, in the normal course of business, the Company transfers accounts receivables, unbilled receivables and net investment in finance lease receivables (financial assets) to banks. Under the terms of the arrangements, the Company either substantially transfers its risks and rewards or surrenders control over the financial assets and transfer is without recourse. Accordingly, on such transfers the financial assets are derecognized and considered as sale of financial assets. Gains and losses on the sale of financial assets without recourse are recorded in finance expenses, at the time of sale based on the carrying value of the financial assets and fair value of servicing liability. The incremental impact of such transactions on our cash flow and liquidity for the years ended March 31, 2024, 2025 and 2026 is not material.

Financial risk management

Market Risk

Market risk is the risk of loss of future earnings to fair values or to future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments, foreign currency receivables, payables and loans and borrowings.

The Company's exposure to market risk is a function of investment and financing activities and revenue generating activities in foreign currency. The objective of market risk management is to avoid excessive exposure of the Company's earnings and equity to losses.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Risk management procedures

The Company manages market risk through a corporate treasury department, which evaluates and exercises independent control over the entire process of market risk management. The corporate treasury department recommends risk management objectives and policies, which are approved by senior management and the Company's Audit, Risk and Compliance Committee. The activities of this department include management of cash resources, implementing hedging strategies for foreign currency exposures, loans and borrowing strategies, and ensuring compliance with market risk limits and policies.

Foreign currency risk

The Company operates internationally, and a major portion of its business is transacted in several currencies. Consequently, we are exposed to foreign exchange risk through receiving payment for sales and services in the U.S. and elsewhere and we make purchases from overseas suppliers in various foreign currencies. The exchange rate risk primarily arises from foreign exchange revenue, receivables, cash balances, forecasted cash flows, payables and foreign currency loans and borrowings. A significant portion of the Company's revenue is in the U.S. Dollars, Pound Sterling, Euro, Indian Rupees, Australian Dollars and Canadian Dollars, while a large portion of costs are in Indian Rupees. The exchange rate between the Indian Rupee and these currencies has fluctuated significantly in recent years and may continue to fluctuate in the future. Appreciation of the Indian Rupee against these currencies can adversely affect the Company's results of operations.

The Company evaluates exchange rate exposure arising from these transactions and enters into foreign currency derivative instruments to mitigate such exposure. The Company follows established risk management policies, including the use of derivatives like foreign exchange forward/option contracts to hedge forecasted cash flows denominated in foreign currency.

The Company has designated certain derivative instruments as cash flow hedges to mitigate the foreign exchange exposure of forecasted highly probable cash flows.

As of March 31, 2026, a ₹ 1 increase in the spot exchange rate of the Indian Rupee with the U.S. Dollar would result in an approximately ₹ 2,756 (including consolidated statement of income of ₹ 683 and other comprehensive income of ₹ 2,073) decrease in the fair value, and a ₹ 1 decrease would result in an approximately ₹ 2,743 (including consolidated statement of income of ₹ 683 and other comprehensive income of ₹ 2,060) increase in the fair value of foreign currency dollar denominated derivative instruments (forward and option contracts).

The below table presents foreign currency risk from non-derivative financial assets/(liabilities) as at March 31, 2025 and 2026:

	As at March 31, 2025						
	U.S.\$	Euro	Pound Sterling	Australian Dollar	Canadian Dollar	Other Currencies ⁽¹⁾	Total
Trade receivables	₹ 39,306	₹ 12,470	₹ 7,611	₹ 1,942	₹ 629	₹ 4,195	₹ 66,153

Non-derivative financial assets/(liabilities), net	₹ 57,019	₹ 8,282	₹ 463	₹ 3,629	₹ 4,565	₹ 4,914	₹ 78,872

⁽¹⁾ Other currencies reflect currencies such as Saudi Riyal, Swiss Franc, Singapore Dollar, United Arab Emirates Dirham and Polish Zloty.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	As at March 31, 2026						Total
	U.S.\$	Euro	Pound Sterling	Australian Dollar	Canadian Dollar	Other Currencies ⁽¹⁾	
Trade receivables	₹ 51,190	₹ 13,487	₹ 9,294	₹ 2,680	₹ 577	₹ 4,851	₹ 82,079
Unbilled receivables	31,242	5,721	7,329	2,091	1,027	3,217	50,627
Cash and cash equivalents	13,500	7,233	3,029	1,687	7,333	3,268	36,050
Other financial assets	8,960	1,591	390	93	156	907	12,097
Lease Liabilities	(4,057)	(3,278)	(2,828)	(80)	(25)	(998)	(11,266)
Trade payables, accrued expenses and other financial liabilities	(43,925)	(16,064)	(16,144)	(2,875)	(3,203)	(7,169)	(89,380)
Non-derivative financial assets/ (liabilities), net	₹ 56,910	₹ 8,690	₹ 1,070	₹ 3,596	₹ 5,865	₹ 4,076	₹ 80,207

⁽¹⁾ Other currencies reflect currencies such as Singapore Dollar, Swiss Franc, Polish Zloty, United Arab Emirates Dirham and Swedish Krona.

As at March 31, 2025 and 2026, respectively, every 1% increase/decrease in the respective foreign currencies compared to functional currency of the Company would increase/decrease the Company's profit before taxes by approximately ₹ 789 and ₹ 802, respectively.

Interest rate risk

Interest rate risk primarily arises from floating rate borrowings, including various revolving and other lines of credit.

Our investments are primarily in short-term investments, which do not expose us to significant interest rate risk.

Interest rate risk primarily arises from floating rate borrowing, including various revolving and other lines of credit. If interest rates were to increase by 100 bps as on March 31, 2026, additional net annual interest expense on floating rate borrowing would amount to approximately ₹ 799. Certain borrowings are also transacted at fixed interest rates.

Credit risk

Credit risk arises from the possibility that customers may not be able to settle their obligations as agreed. To manage this, the Company periodically assesses the credit rating and financial reliability of customers, considering the financial condition, current economic trends, forward-looking macroeconomic information, analysis of historical bad debts and ageing of accounts receivable. No single customer accounted for more than 10% of the accounts receivable as of March 31, 2025 and 2026, or revenues for the years ended March 31, 2024, 2025 and 2026. There is no significant concentration of credit risk.

Trade receivables and unbilled receivables are written off where there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a customer to engage in a repayment plan with the Company.

Refer to Note 9 for changes in the allowance for lifetime expected credit loss.

Counterparty risk

Counterparty risk encompasses issuer risk on marketable securities, settlement risk on derivative and money market contracts and credit risk on cash and time deposits. Issuer risk is minimized by only buying securities in India which are at least AA rated by Indian rating agencies. Settlement and credit risk is reduced by the policy of entering into transactions with counterparties that are usually banks or financial institutions with acceptable credit ratings. Exposure to these risks are closely monitored and maintained within predetermined parameters. There are limits on credit exposure to any financial institution. The limits are regularly assessed and determined based upon credit analysis including financial statements and capital adequacy ratio reviews.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Cash and cash equivalents include demand deposits of ₹ 3,546 and bank balances of ₹ 83,236 held with two banks having high credit ratings, which are individually in excess of 10% or more of the Company's total cash and cash equivalents as of March 31, 2026. Refer to Note 11.

We did not have any significant concentration of investment risk, as no investments with any single counterparty exceeded 10% of our total investments as of March 31, 2026. Refer to Note 8.

Liquidity risk

Liquidity risk is defined as the risk that the Company will not be able to settle or meet its obligations on time or at a reasonable price. The Company's corporate treasury department is responsible for liquidity and funding as well as settlement management. In addition, processes and policies related to such risks are overseen by senior management. Management monitors our net liquidity position through rolling forecasts based on the expected cash flows. As of March 31, 2026, cash and cash equivalents are held with major banks and financial institutions.

The table below provides details regarding the remaining contractual maturities of financial liabilities at the reporting date. The amounts include estimated interest payments and exclude the impact of netting agreements, if any.

Deferred taxes on unrealized foreign exchange gain/loss relating to cash flow hedges, fair value movements in investments and remeasurements of the defined benefit plans are recognized in other comprehensive income. Deferred tax liability on the intangible assets identified and carry forward losses on acquisitions is recorded by an adjustment to goodwill. Other than these, the change in deferred tax assets and liabilities is primarily recorded in the consolidated statement of income.

In assessing the realizability of deferred tax assets, the Company considers the extent to which it is probable that the deferred tax asset will be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable profits during the periods in which those temporary differences and tax loss carry-forwards become deductible. The Company considers the expected reversal of deferred tax liabilities, projected future taxable income and tax planning strategies in making this assessment. Based on this, the Company believes that it is probable that the Company will realize the benefits of these deductible differences. The amount of deferred tax asset considered realizable, however, could be reduced in the near term if the estimates of future taxable income during the carry-forward period are reduced.

Deferred tax asset amounting to ₹ 10,816 and ₹ 13,613 as at March 31, 2025 and 2026, respectively in respect of unused tax losses have not been recognized by the Company. The tax loss carry-forwards of ₹ 44,274 and ₹ 56,119 as at March 31, 2025 and 2026, respectively, on which deferred tax asset has not been recognized by the Company, because it is probable that future taxable profits will not be available against which the unused tax losses can be utilized in the foreseeable future. Approximately, ₹ 40,292, and ₹ 51,505 as at March 31, 2025 and 2026, respectively, of these tax loss carry-forwards is not currently subject to expiration dates. The remaining tax loss carry-forwards of approximately ₹ 3,982 and ₹ 4,614 as at March 31, 2025 and 2026, respectively, expires in various years through fiscal year 2046.

The Company has recognized deferred tax assets of ₹ 898 and ₹ 784 primarily in respect of carry forward losses including certain subsidiaries as at March 31, 2025 and 2026, respectively. Management's projections of future taxable income and tax planning strategies support the assumption that it is probable that sufficient taxable income will be available to utilize these deferred tax assets.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

A substantial portion of the profits of the Company's India operations are exempt from Indian income taxes being profits attributable to export operations and profits from units established under the Special Economic Zone Act, 2005 scheme. Units in designated SEZs providing service on or after April 1, 2005 will be eligible for a deduction of 100% of profits or gains derived from the export of services for the first five years from commencement of provision of services and 50% of such profits and gains for a further five years. A 50% tax deduction is available for a further five years subject to the unit meeting certain defined conditions. Profits from certain other undertakings are also eligible for preferential tax treatment. New SEZ units set up on or after April 1, 2021 are not eligible for the aforesaid deduction. The tax holiday period being currently available to the Company expires in various years through fiscal years 2034-35. The impact of tax holidays has resulted in a decrease of current tax expense of ₹ 14,308, ₹ 11,798, and ₹ 13,092 for the years ended March 31, 2024, 2025 and 2026, respectively, compared to the effective tax amounts that the Company estimates it would have been required to pay if these incentives had not been available. The per equity share effect of these tax incentives for the years ended March 31, 2024, 2025 and 2026 is ₹ 1.35, ₹ 1.13, and ₹ 1.25, respectively. For the year ended March 31, 2024, earnings per equity share have been proportionately adjusted for the bonus issue in ratio of 1:1. Refer to Note 22.

Deferred income tax liabilities are recognized for all taxable temporary differences except in respect of taxable temporary differences associated with investments in certain subsidiaries where the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future. Accordingly, deferred income tax liabilities on cumulative earnings of certain subsidiaries amounting to ₹ 86,937 and ₹ 69,693 as at March 31, 2025 and 2026, respectively and branch profit tax at 15% of the U.S. branch profit have not been recognized. Further, it is not practicable to estimate the amount of the unrecognized deferred tax liabilities for these undistributed earnings.

The Pillar Two legislations are neither enacted nor substantively enacted by Government of India, where the parent company is incorporated. Pillar Two legislation has been enacted, or substantively enacted, in certain other jurisdictions where the Company operates. However, the Company does not expect any material financial impact for the year ended March 31, 2026. In line with amended IAS 12, the Company has not recognized deferred taxes related to Pillar Two income taxes and accordingly has applied the mandatory exception as per the said standard.

22. DIVIDENDS, BONUS ISSUE AND BUYBACK OF EQUITY SHARES

The Company declares and pays dividends in Indian Rupees. According to the Companies Act, 2013 any dividend should be declared out of accumulated distributable profits. A company may, before the declaration of any dividend, transfer a percentage of its profits for that financial year as it may consider appropriate to the reserves.

The cash dividends paid per equity share were ₹ 1, ₹ 6 and ₹ 11 (₹ 5 declared on July 17, 2025 and ₹ 6 declared on January 16, 2026), during the years ended March 31, 2024, 2025 and 2026, respectively.

During the year ended March 31, 2024, the Company concluded the buyback of 269,662,921 equity shares (at a price of ₹ 445 per equity share) as approved by the Board of Directors on April 27, 2023. This has resulted in a total cash outflow of ₹ 145,173 (including tax on buyback of ₹ 24,783 and transaction costs related to buyback of ₹ 390). In line with the requirement of the Companies Act, 2013, an amount of ₹ 3,768 and ₹ 141,405 has been utilized from share premium and retained earnings respectively. Further, capital redemption reserve (included in other reserves) of ₹ 539 (representing the nominal value of the shares bought back) has been created as an apportionment from retained earnings. Consequent to such buyback, the paid-up equity share capital has reduced by ₹ 539.

During the year ended March 31, 2025, the Company concluded bonus issue in the ratio of 1:1 i.e. 1 (one) bonus equity share of ₹ 2 each for every 1 (one) fully paid-up equity shares held (including ADS holders) was approved by the shareholders of the Company on November 21, 2024. Subsequently, on December 4, 2024, the Company allotted 5,232,094,402 equity shares (including ADS) to shareholders who held equity shares as on the record date of December 3, 2024. The Company also allotted 1:1 bonus equity share on 1,274,805 equity shares (including ADS) under allotment as on the record date. Consequently, ₹ 10,467 (representing par value of ₹ 2 per share) was transferred from capital redemption reserves, share premium and retained earnings to the share capital.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

23. ADDITIONAL CAPITAL DISCLOSURES

The key objective of the Company's capital management is to ensure that it maintains a stable capital structure with the focus on total equity to uphold investor, creditor, and customer confidence and to ensure future development of its business. The Company's focus is to keep strong total equity base to ensure independence, security, as well as a high financial flexibility for potential future borrowings, if required without impacting the risk profile of the Company.

The Company's goal is to continue to be able to return excess liquidity to shareholders by continuing to distribute annual dividends in future periods. The amount of future dividends/ buyback of equity shares will be balanced with efforts to continue to maintain an adequate liquidity status.

The capital structure as at March 31, 2025 and 2026 was as follows:

	As at March 31, 2025	As at March 31, 2026	% Change
Equity attributable to the equity shareholders of the Company	₹ 828,309	₹ 885,368	7%
<i>As percentage of total capital</i>	81%	81%	
Current loans, borrowings and bank overdrafts	97,863	165,912	
Non-current loans and borrowings	63,954	1,962	
Current and non-current lease liabilities	30,218	35,036	
Total loans, borrowings and bank overdrafts and lease liabilities	₹ 192,035	₹ 202,910	6%
<i>As percentage of total capital</i>	19%	19%	
Total capital	₹ 1,020,344	₹ 1,088,278	7%

Loans and borrowings represent 16% and 15% of total capital as at March 31, 2025 and 2026, respectively. The Company is not subjected to any externally imposed capital requirements.

24. REVENUE

A. Contract assets and contract liabilities

The following table presents the changes in contract assets balance:

	As at March 31, 2025	As at March 31, 2026
Balance at the beginning of the year	₹ 19,854	₹ 15,795
Amount reclassified to receivables pertaining to fixed price development contracts on completion of milestones	(14,730)	(14,073)
Increase due to revenue recognized during the year	10,617	12,233
Translation adjustment	54	864
Balance at the end of the year	₹ 15,795	₹ 14,819

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The following table presents the changes in contract liabilities balance:

	As at March 31, 2025	As at March 31, 2026
Balance at the beginning of the year	₹ 17,653	₹ 20,063
Revenue recognized from opening balance of contract liabilities	(14,695)	(15,724)
Increase due to invoicing during the year	17,036	20,262
Translation adjustment	69	833
Balance at the end of the year	₹ 20,063	₹ 25,434

Contract assets and liabilities are reported in a net position on a contract-by-contract basis at the end of each reporting period.

B. Remaining performance obligations

Revenue allocated to remaining performance obligations represents contracted revenue that has not yet been recognized, which includes contract liabilities and amounts that will be invoiced and recognized as revenue in future periods. Applying the practical expedient, the Company has not disclosed its right to consideration from customers in an amount that corresponds directly with the value to the customer of the Company's performance completed to date, which are contracts invoiced on time and material basis and volume based.

As at March 31, 2024, 2025 and 2026, the aggregate amount of the Transaction Price allocated to remaining performance obligations, other than those meeting the exclusion criteria above, were ₹ 318,756, ₹ 364,937 and ₹ 373,976, respectively, of which approximately 66%, 66% and 63%, respectively, is expected to be recognized as revenues within two years, and the remainder thereafter. This includes contracts with a substantive enforceable termination penalty if the contract is terminated without cause by the customer, based on an overall assessment of the contract carried out at the time of inception. Historically, customers have not terminated contracts without cause.

C. Disaggregation of revenue

The tables below present disaggregated revenue from contracts with customers by business segment (refer to Note 33 "Segment Information"), sector and nature of contract. The Company believes that the below disaggregation best depicts the nature, amount, timing and uncertainty of revenue and cash flows from economic factors.

Notes to the Consolidated Financial Statements

Foreign exchange gains/(losses), net on financial instruments measured at FVTPL	₹ 650	₹ (398)	₹ (5,867)
Other foreign exchange gains/(losses), net	(310)	430	7,720
Foreign exchange gains/(losses), net	₹ 340	₹ 32	₹ 1,853

28. EARNINGS PER EQUITY SHARE

A reconciliation of profit for the year and equity shares used in the computation of basic and diluted earnings per equity share is set out below:

Basic: Basic earnings per equity share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year, excluding equity shares purchased by the Company and held as treasury shares.

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Profit attributable to equity holders of the Company	₹ 110,452	₹ 131,354	₹ 131,974
Weighted average number of equity shares outstanding	10,576,571,110	10,456,741,552	10,476,247,846
Basic earnings per equity share	₹ 10.44	₹ 12.56	₹ 12.60

Diluted: Diluted earnings per equity share is calculated by adjusting the weighted average number of equity shares outstanding during the year for assumed conversion of all dilutive potential equity shares. Employee share options are dilutive potential equity shares for the Company.

The calculation is performed in respect of share options to determine the number of equity shares that could have been acquired at fair value (determined as the average market price of the Company's equity shares during the year). The number of equity shares calculated as above is compared with the number of equity shares that would have been issued assuming the exercise of the share options.

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Profit attributable to equity holders of the Company	₹ 110,452	₹ 131,354	₹ 131,974
Weighted average number of equity shares outstanding	10,576,571,110	10,456,741,552	10,476,247,846
Effect of dilutive equivalent share options	34,853,518	32,197,840	27,175,090
Weighted average number of equity shares for diluted earnings per share	10,611,424,628	10,488,939,392	10,503,422,936
Diluted earnings per equity share	₹ 10.41	₹ 12.52	₹ 12.56

For the years ended March 31, 2024, 2025 and 2026, 128,916, 1,294,623 and 1,586,275 options, respectively, were excluded from the diluted weighted-average number of equity shares calculation because their effect would have been anti-dilutive.

Earnings per share and number of shares outstanding for the year ended March 31, 2024, has been proportionately adjusted for the bonus issue in the ratio of 1:1 i.e. 1 (one) bonus equity share of ₹ 2 each for every 1 (one) fully paid-up equity shares held (including ADS holders). Refer to Note 22.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

29. EMPLOYEE STOCK INCENTIVE PLANS

The stock compensation expense recognized for employee services received during the years ended March 31, 2024, 2025 and 2026, were ₹ 5,590, ₹ 5,542, and ₹ 4,465, respectively.

Wipro Equity Reward Trust (“WERT”)

In 1984, the Company established a controlled trust called WERT. In the previous years, WERT purchased shares of the Company out of funds borrowed from the Company. The Company’s Nomination and Remuneration Committee recommends to WERT certain officers and key employees, to whom WERT issues shares from its holdings at nominal price subject to vesting conditions. WERT held 5,952,740, 11,905,480 and 11,905,480 treasury shares as of March 31, 2024, 2025 and 2026, respectively.

Wipro Employee Restricted Stock Unit Option Plans

A summary of the general terms of grants under restricted stock unit (“**RSU**”) option plans are as follows:

Name of Plan	Number of options reserved under the plan	Range of exercise price
Wipro ADS Restricted Stock Unit Plan (WARSUP 2004 plan) ⁽¹⁾	174,595,958	U.S.\$ 0.03
Wipro Employee Restricted Stock Unit Plan 2005 (WSRUP 2005 plan) ⁽¹⁾	96,595,958	₹ 2
Wipro Employee Restricted Stock Unit Plan 2007 (WSRUP 2007 plan) ⁽¹⁾	67,663,302	₹ 2
Wipro Limited Employee Stock Options, Performance Stock Unit and/or Restricted Stock Unit Scheme 2024 (Wipro 2024 Scheme) ⁽¹⁾	400,000,000	U.S.\$ 0.03/₹ 2

⁽¹⁾ The maximum contractual term of these RSU option plans is perpetual until the options are available for grant under the plan.

Employees covered under RSU options plans are granted an option to purchase shares of the Company at the respective exercise prices, subject to requirements of vesting conditions. These options generally vest in tranches over a period of one to three years from the date of grant. Upon vesting, the employees can acquire one equity share for every option and can exercise within a period of twelve months from the vesting date of last tranche under the grant.

The activity in equity-settled RSU option plans is summarized below:

	Range of exercise price and weighted average exercise price	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
		Numbers of options	Numbers of options	Numbers of options

Exercisable at the end of the year	₹ 2 U.S.\$ 0.03	1,905,001 2,038,346	1,996,731 1,007,466	2,010,308 1,283,137

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

The Company has granted below options under RSU and ADS option plans⁽¹⁾:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Restricted Stock Units (RSU)	3,344,668	3,498,476	6,743,031
Performance based stock options (RSUs)	1,892,498	2,014,993	3,874,099
Total	5,237,166	5,513,469	10,617,130
ADS RSU	8,886,979	9,707,235	14,834,924
Performance based stock options (ADS)	5,659,164	5,323,067	8,424,826
Total	14,546,143	15,030,302	23,259,750

⁽¹⁾ Numbers in above table for years ended March 31, 2024 and 2025 are not given effect of bonus shares issued during the year ended March 31, 2025.

During the year ended March 31, 2026, RSU and ADS grants were issued under the Wipro 2024 Scheme. Performance-based stock options will vest based on the performance parameters of the Company.

The activity in cash-settled RSU option plans is summarized below:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
	Number of options	Number of options	Number of options
Outstanding at the beginning of the year	11,800	7,000	-
Exercised	(4,800)	-	-
Forfeited and expired	-	(7,000)	-
Outstanding at the end of the year	7,000	-	-
Exercisable at the end of the year	7,000	-	-

The following table summarizes information about outstanding RSU option plans:

Range of exercise price and weighted average exercise price	Year ended March 31, 2024		Year ended March 31, 2025		Year ended March 31, 2026	
	Number of options	Weighted average remaining life (months)	Number of options	Weighted average remaining life (months)	Number of options	Weighted average remaining life (months)
₹ 2	7,735,669	18	18,634,747	18	19,345,283	16
U.S.\$ 0.03	18,851,226	20	36,956,579	19	36,943,057	18

The weighted average grant date fair value of options granted during the years ended March 31, 2024, 2025 and 2026 was ₹ 387.67, ₹ 454.58 and ₹ 249.40 for each option, respectively. The weighted average share price of options exercised during the years ended March 31, 2024, 2025 and 2026 was ₹ 422.87, ₹ 389.52 and ₹ 246.01 for each option, respectively.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

30. EMPLOYEE BENEFITS

a) Employee costs includes

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Salaries and bonus	₹ 524,484	₹ 507,629	₹ 525,825
Contribution to provident and other funds	19,227	20,306	25,565
Share-based compensation ⁽¹⁾	5,590	5,542	4,465
	₹ 549,301	₹ 533,477	₹ 555,855

⁽¹⁾ Includes ₹ 6, ₹ (9) and ₹ Nil for the years ended March 31, 2024, 2025 and 2026, respectively, towards cash settled ADSs and RSUs.

The employee benefit cost is recognized in the following line items in the consolidated statement of income:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Cost of revenues	₹ 459,466	₹ 452,800	₹ 480,122
Selling and marketing expenses	51,224	47,788	43,060
General and administrative expenses	38,611	32,889	32,673
	₹ 549,301	₹ 533,477	₹ 555,855

Defined benefit plan actuarial (gains)/losses recognized in other comprehensive income include:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Return on plan assets excluding interest income - loss/(gain)	₹ (675)	₹ (416)	₹ 384
Actuarial loss/(gain) arising from financial assumptions	373	146	730
Actuarial loss/(gain) arising from demographic assumptions	98	(115)	28
Actuarial loss/(gain) arising from experience adjustments	82	(12)	(1,290)
Change in the effect of asset ceiling - loss/(gain)	(71)	74	6
(Gain)/loss on re-measurement of defined benefit plans, net	₹ (193)	₹ (323)	₹ (142)
Deferred tax (asset)/liability thereon	111	49	10
(Gain)/loss on re-measurement of defined benefit plans, net of deferred taxes	₹ (82)	₹ (274)	₹ (132)

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

b) Gratuity and foreign pension

Defined benefit plans include gratuity for employees drawing salary in Indian Rupees, pension and certain benefit plans in foreign jurisdictions.

Amount recognized in the consolidated statement of income in respect of defined benefit plans is as follows:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Current service cost	₹ 2,993	₹ 3,205	₹ 3,795
Past service cost	-	-	3,566
Net interest expense on net defined benefit liability	45	95	268
Net charge to consolidated statement of income	₹ 3,038	₹ 3,300	₹ 7,629
Actual return on plan assets	₹ 1,828	₹ 1,646	₹ 879

Change in present value of defined benefit obligation is summarized below:

	As at March 31, 2025	As at March 31, 2026
Defined benefit obligation at the beginning of the year	₹ 21,516	₹ 24,188
Addition through Business combination	-	1,311
Current service cost	3,205	3,795
Past service cost	-	3,566
Interest expense on obligation	1,308	1,506
Benefits paid	(2,627)	(2,631)
Contributions from plan participants and due to transfer	558	87
Remeasurement loss/(gain)		
Actuarial loss/(gain) arising from financial assumptions	146	730
Actuarial loss/(gain) arising from demographic assumptions	(115)	28
Actuarial loss/(gain) arising from experience adjustments	(12)	(1,290)
Translation adjustment	209	1,291
Defined benefit obligation at the end of the year	₹ 24,188	₹ 32,581

Change in plan assets is summarized below:

	As at March 31, 2025	As at March 31, 2026
Fair value of plan assets at the beginning of the year	₹ 20,022	₹ 22,231
Addition through Business combination	-	211
Expected return on plan assets	1,230	1,263
Employer contributions	141	5,417
Benefits paid	(313)	(188)
Contributions from plan participants and due to transfer	558	87
Remeasurement (loss)/gain		
Return on plan assets excluding interest income - (loss)/gain	416	(384)
Translation adjustment	177	1,200
Fair value of plan assets at the end of the year	₹ 22,231	₹ 29,837

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

	As at March 31, 2025	As at March 31, 2026
Defined benefit obligation	₹ 24,188	₹ 32,581
Fair value of plan assets	22,231	29,837
Present value of unfunded obligation	₹ (1,957)	₹ (2,744)
Change in the effect of asset ceiling	(545)	(678)
Recognized liability	₹ (2,502)	₹ (3,422)

Change in effect of asset ceiling is summarized below:

	As at March 31, 2025	As at March 31, 2026
Effect of asset ceiling at the beginning of the year	₹ 442	₹ 545
Interest expense on effect of asset ceiling	17	25
Changes in the effect of limiting the surplus to the asset ceiling	74	6
Translation adjustment	12	102
Effect of asset ceiling at the end of the year	₹ 545	₹ 678

As at March 31, 2025 and 2026, plan assets were primarily invested in insurer managed funds.

The Company has established an income tax approved irrevocable trust fund to which it regularly contributes to finance the liabilities of the gratuity plan. The fund's investments are managed by certain insurance companies as per the selection made by the trustees among the fund plan available.

The principal assumptions used for the purpose of actuarial valuation of these defined benefit plans are as follows:

	As at March 31, 2025	As at March 31, 2026
Discount rate	5.75%	5.70%
Expected return on plan assets	5.75%	5.70%
Expected rate of salary increase	6.40%	6.44%
Weighted average duration of defined benefit obligations	7.03 years	6.53 years

The discount rate is primarily based on the prevailing market yields of government securities for the estimated term of the obligations. The estimates of future salary increase considered takes into account the inflation, seniority, promotion and other relevant factors. Attrition rate considered is the management's estimate, based on previous years' employee turnover of the Company.

The expected return on plan assets is based on expectation of the average long-term rate of return expected on investments of the fund during the estimated term of the obligations.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Expected future contribution and estimated future benefit payments from the fund are as follows:

For the year ended March 31, 2025	
Expected contribution to the fund during the year ending March 31, 2026	₹ 3,545
Estimated benefit payments from the fund for the year ending March 31:	
2026	₹ 3,565
2027	3,218
2028	2,953
2029	2,736
2030	2,412
Thereafter	17,692
Total	₹ 32,576
For the year ended March 31, 2026	
Expected contribution to the fund during the year ending March 31, 2027	₹ 3,515
Estimated benefit payments from the fund for the year ending March 31:	
2027	₹ 5,493
2028	4,518
2029	4,134
2030	3,748
2031	3,493
Thereafter	21,690
Total	₹ 43,076

The expected benefits are based on the same assumptions used to measure the Company's benefit obligations as at March 31, 2026.

Sensitivity for significant actuarial assumptions is computed to show the movement in defined benefit obligation by 1 percentage.

As of March 31, 2026, every 1 percentage point increase/(decrease) in discount rate will result in (decrease)/increase of defined benefit obligation by approximately ₹ (1,914) and ₹ 2,228, respectively (March 31, 2025: ₹ (1,565) and ₹ 1,807, respectively).

As of March 31, 2026, every 1 percentage point increase/(decrease) in expected rate of salary will result in increase/(decrease) of defined benefit obligation by approximately ₹ 1,620 and ₹ (1,512), respectively (March 31, 2025: ₹ 1,189 and ₹ (1,129), respectively).

The sensitivity analysis to significant actuarial assumptions may not be representative of the actual change in the defined benefit obligations as the change in assumptions may not occur in isolation since some of the assumptions may be correlated. Furthermore, in presenting the sensitivity analysis, the present value of the defined benefit obligations has been calculated using the projected unit credit method at the end of the reporting period, which is the same as that applied in calculating the defined benefit obligation liability recognized in the consolidated statement of financial position.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

c) Provident fund:

The details of fund and plan assets are given below:

	As at March 31, 2025	As at March 31, 2026
Fair value of plan assets	₹ 121,067	₹ 133,417
Present value of defined benefit obligation	(121,067)	(133,417)
Net shortfall	₹ -	₹ -

The total expense for the years ended March 31, 2024, 2025 and 2026 is ₹ 6,265, ₹ 6,517 and ₹ 7,058, respectively.

The plan assets have been invested as per the regulations of Employees' Provident Fund Organization (EPFO).

The principal assumptions used in determining the present value obligation of interest guarantee under the deterministic approach are as follows:

	As at March 31, 2025	As at March 31, 2026
Discount rate for the term of the obligation	6.55%	6.50%
Weighted average remaining tenure of investment portfolio	6.71 years	13.81 years
Guaranteed rate of return	8.25%	8.25%

d) Defined contribution plans:

The total expense for the years ended March 31, 2024, 2025 and 2026 was ₹ 9,969, ₹ 10,584 and ₹ 11,146, respectively.

^ Value is less than 0.5

⁽¹⁾ Includes relative of key management personnel.

⁽²⁾ Post-employment benefits and other long-term benefits including compensated absences are not disclosed, as these are determined for the Company as a whole based on actuarial valuation.

⁽³⁾ Remuneration, short-term benefits and other benefits for Mr. Thierry Delaporte includes cash compensation in amount of ₹ 415, cost of accelerated vesting of ₹ 310 towards unvested stock options and ₹ 196 towards social security contributions.

⁽⁴⁾ Remuneration and short-term benefits includes sitting fees and commission paid to non-executive directors, non-independent directors, and independent directors.

⁽⁵⁾ Other benefits include ₹ 575, ₹ 277, and ₹ 267 as of March 31, 2024, 2025 and 2026, respectively towards amortization of RSUs granted to key management personnel, which vest over a period of time. This also includes RSU's that will vest based on performance parameters of the Company.

⁽⁶⁾ Remuneration, short-term benefits and other benefits for Mr. Srinivas Pallia is for the period from April 7, 2024 to March 31, 2025.

During the year ended March 31, 2025, the Company allotted 231,642,592 equity shares to Key management personnel and 3,576,894,608 equity shares to entities controlled by promoters on account of bonus issue.

All related party transactions were entered at an arm's length basis and in the ordinary course of business. There are no materially significant related party transactions made by the Company with promoters, directors or key management personnel, which may have a potential conflict with the interests of the Company at large.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

32. COMMITMENTS AND CONTINGENCIES

Capital commitments: As at March 31, 2025 and 2026, the Company had committed to spend approximately ₹ 8,719 and ₹ 9,416 respectively, under agreements to purchase/construct property and equipment. These amounts are net of capital advances paid in respect of these purchases. Refer to Note 8 for uncalled capital commitments investment on equity instruments.

Guarantees: As at March 31, 2025 and 2026, guarantees provided by banks on behalf of the Company to the Indian Government, customers and certain other agencies amount to approximately ₹ 13,110 and ₹ 13,358 respectively, as part of the bank line of credit.

Contingencies and lawsuits: The Company is subject to legal proceedings and claims resulting from tax assessment orders/penalty notices issued under the Income-tax Act, 1961, which have arisen in the ordinary course of its business. Some of the claims involve complex issues and it is not possible to make a reasonable estimate of the expected financial effect, if any, that will result from ultimate resolution of such proceedings. However, the resolution of these legal proceedings is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

The Company's assessments in India are completed for the years up to March 31, 2022. The Company has received demands on multiple tax issues. These claims are primarily arising out of denial of deduction under section 10A of the Income-tax Act, 1961 in respect of profit earned by the Company's undertaking in Software Technology Park in Bengaluru, the appeals filed against the said demand before the appellate authorities have been allowed in favor of the Company by the second appellate authority for the years up to March 31, 2008 which either has been or may be contested by the Income tax authorities before the Hon'ble Supreme Court of India. Other claims relate to disallowance of tax benefits on profits earned from Software Technology Park and Special Economic Zone units, capitalization of research and development expenses, transfer pricing adjustments on intercompany/inter unit transactions and other issues.

Income tax claims against the Company amounting to ₹ 99,431 and ₹ 104,613 are not acknowledged as debt as at March 31, 2025 and 2026, respectively. These matters are pending before various appellate authorities and the management expects its position will likely be upheld on ultimate resolution and will not have a material adverse effect on the Company's financial position and results of operations.

The contingent liability in respect of disputed demands for excise duty, custom duty, sales tax and other matters amounting to ₹ 19,292 and ₹ 20,733 as of March 31, 2025 and 2026, respectively. However, the resolution of these disputed demands is not likely to have a material and adverse effect on the results of operations or the financial position of the Company.

33. SEGMENT INFORMATION

The Company is now organized into the following operating segments: IT Services and IT Products.

IT Services: The IT Services segment primarily consists of IT services offerings to customers organized by four Strategic Market Units ("SMUs") - Americas 1, Americas 2, Europe and Asia Pacific Middle East and Africa ("APMEA").

Americas 1 and Americas 2 are primarily organized by industry sector, while Europe and APMEA are organized by countries.

Americas 1 includes the entire business of Latin America ("LATAM") and the following industry sectors in the United States of America: Communication, Media and Networks, Technology Software and Gaming, Technology New Age, Health and Consumer. **Americas 2** includes the entire business in Canada and the following industry sectors in the United States of America: Banking and Financial services, Energy, Manufacturing and Resources, Capital markets and Insurance and Hi-tech. **Europe** consists of the United Kingdom and Ireland, Switzerland, Germany and Western Europe. **APMEA** consists of Australia and New Zealand, Southeast Asia, Japan, India, the Middle East and Africa.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Revenue from each customer is attributed to the respective SMUs based on the location of the customer's primary buying center of such services. With respect to certain strategic global customers, revenue may be generated from multiple countries based on such customer's buying centers, but the total revenue related to these strategic global customers are attributed to a single SMU based on the geographical location of key decision makers.

Our IT Services segment provides a range of AI-powered IT and IT-enabled services including AI advisory, industry & functional consulting, AI native development, customer centric design, modernization, custom application development, infrastructure services, cybersecurity services, data and analytics services, business process services, research and development, and hardware and software design. Through AI-powered, consulting-led solutions, we help our clients transform their businesses to drive better efficiencies and generate new growth opportunities.

IT Products: The Company is a value-added reseller of security, packaged and SaaS software for leading international brands. In certain total outsourcing contracts of the IT Services segment, the Company delivers hardware, software products and other related deliverables. Revenue relating to these items is reported as revenue from the sale of IT Products.

The Chief Executive Officer ("CEO") and managing director of the Company has been identified as the Chief Operating Decision Maker as defined by IFRS 8, "Operating Segments". The CEO evaluates the segments based on their revenue growth and operating income.

Assets and liabilities used in the Company's business are not identified to any of the operating segments, as these are used interchangeably between segments. Management believes that it is currently not practicable to provide segment disclosures relating to total assets and liabilities since a meaningful segregation of the available data is onerous.

Information on reportable segments for the year ended March 31, 2024 is as follows:

	IT Services					IT Products	Reconciling Items	Total
	Americas 1	Americas 2	Europe	APMEA	Total

Profit for the year								₹ 132,655
Depreciation, amortization and impairment								₹ 29,107

Revenues from India, being the Company's country of domicile, were ₹ 23,484, ₹ 20,699 and ₹ 23,446 for years ended March 31, 2024, 2025 and 2026, respectively.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

Revenues from the United States of America and United Kingdom contributed more than 10% of Company's total revenues as per table below:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
United States of America	₹ 512,740	₹ 529,943	₹ 553,186
United Kingdom	108,613	95,241	97,041
	₹ 621,353	₹ 625,184	₹ 650,227

No customer individually accounted for more than 10% of the revenues during the years ended March 31, 2024, 2025 and 2026.

Management believes that it is currently not practicable to provide disclosure of geographical location wise assets, since the meaningful segregation of the available information is onerous.

Notes:

- "Reconciling Items" includes elimination of inter-segment transactions and other corporate activities.
- Revenue from sale of Company owned intellectual properties is reported as part of IT Services revenues.
- For the purpose of segment reporting, the Company has included the impact of "foreign exchange gains/(losses), net" in revenues, which is reported as a part of operating profit in the consolidated statement of income, amounting to ₹ 340, ₹ 32 and ₹ 1,853 for the fiscal years ended March 31, 2024, 2025 and 2026, respectively.
- Restructuring cost of ₹ 6,814, ₹ Nil and ₹ 5,139 is included under Reconciling items for the years ended March 31, 2024, 2025 and 2026, respectively.
- Reconciling Items for the year ended March 31, 2024, includes employee costs of ₹ 921 towards outgoing CEO and managing director.
- Impact of past service cost on gratuity and remeasurement of leave encashment due to implementation of new labour code amounting to ₹ 2,756 for the year ended March 31, 2026, is included under Reconciling items.
- "Unallocated" within IT Services segment includes:

	Year ended March 31, 2024	Year ended March 31, 2025	Year ended March 31, 2026
Amortization and impairment expenses on intangible assets (Refer to Note 6)	₹ 11,756	₹ 7,909	₹ 7,787
Change in fair value of contingent consideration (Refer to Note 19)	(1,300)	(169)	49

Segment results of IT Services segment for the year ended March 31, 2024 are after considering additional amortization due to change in estimate of useful life of the customer-related intangibles in an earlier business combination.

- Segment results of IT Services segment are after recognition of share-based compensation expense ₹ 5,590, ₹ 5,542 and ₹ 4,465 for the years ended March 31, 2024, 2025 and 2026, respectively.
- Segment results of IT Services segment are after recognition of (gain)/loss on sale of property, plant and equipment of, ₹ (2,072), ₹ (606) and ₹ (393) for the years ended March 31, 2024, 2025 and 2026, respectively.

Notes to the Consolidated Financial Statements

(₹ in millions, except share and per share data, unless otherwise stated)

34. On November 21, 2025, the Government of India notified four labour codes (the “**Labour Codes**”), effective immediately, replacing the existing 29 labour laws. In accordance with IAS 19, employee benefits and changes to employee benefit plans arising from legislative amendments are treated as plan amendments, requiring immediate recognition of past service cost in the Statement of Income. This approach is consistent with the guidance issued by the Institute of Chartered Accountants of India.

The Company has concluded the salary restructuring exercise in compliance with the Labour Codes. The implementation of the Labour Codes has resulted in a net increase of ₹ 2,756 in the provision for gratuity and remeasurement of leave encashment, which has been recognized as employee benefit expense in the current year. The Company continues to monitor the finalization of Central and State Rules, as well as Government clarifications on other aspects of the Labour Codes.

35. EVENTS AFTER THE REPORTING PERIOD

- a) The Company completed its acquisition of Mindsprint, Olam Group’s IT services arm, a provider of technology and digital transformation services in May 2026 for a total consideration of U.S.\$ 375 million.
- b) On April 14, 2026, the Company signed a definitive agreement to acquire select customer contracts of Alpha Net Consulting, a provider of enterprise software development, data engineering, and managed services for a total consideration (including earnouts) of U.S.\$ 70.8 million. The acquisition is subject to customary closing conditions and is expected to be concluded by quarter ending June 30, 2026.
- c) On April 16, 2026, the Company’s Board of Directors approved a proposal to buyback of equity shares, subject to the approval of shareholders, for purchase by the Company of up to 600,000,000 equity shares of ₹ 2 (U.S.\$ 0.02*) each (being 5.7% of total number of equity shares) from the shareholders of the Company on a proportionate basis by way of a tender offer at a price of ₹ 250 (U.S.\$ 2.71*) per equity share for an aggregate amount not exceeding ₹ 150,000 (U.S.\$ 1,626*), in accordance with the provisions contained in the SEBI (Buy-back of Securities) Regulations, 2018, as amended and the Companies Act, 2013 and rules made thereunder. This proposal was approved by the shareholders of the Company by way of a special resolution dated May 21, 2026, passed through postal ballot by e-voting.

*Based on the certified foreign exchange rates published by the Federal Reserve Board of Governors on April 8, 2026, which was ₹ 92.25 per U.S.\$ 1.

- d) On June 1, 2026, the Company acquired additional 20% equity interest in Aggne Global Inc. for a consideration of U.S. \$ 28.5 million.
